Camp infestation

It all happened when I was on a camping trip with my Friend and my lil bro The trip was pretty fun and nothing of note happened until the third night there After a late night of gossiping and marshmallows, we went to sleep, unaware of what was about to happen.

Ashley: 25
hahaha! I can't believe you said that to him! You're crazy Eve!

Evelin: 27
You bet your ass I did, the dude was being super creepy!

Joey: 21
I dunno, maybe he was trying to be romantic in his own weird way

I went to sleep like normal, I was in deep slumber when I suddenly woke up with a sharp pain in my skull. Something was slithering into my nose and burrowing into my brain!

I tried to scream and pull it away, but my body didn't obey me, all I could do was grunt and trash in place as I felt the creature digging into my brains, Messing with my head

AGH!

GHHHK!

s-stahp!

SHNRRK!

GLIH!

NO!

The pain eventually went away, and my body stopped trashing, I got up and started shambling like a zombie into the dark woods alone There was something I had to do, something I needed, No idea what, I just had this unstoppable urge!

Toby 2024

Eventually I found a cave, as I went inside, I saw tons of other nasty crawling things coming out of every crevasse, every dark hole, coming towards me like moths to light I wanted to scream and run away, but an even stronger need came over me, I sat down and opened myself to them, I let every one of them crawl over me and into me I felt them stretching my holes, invading my body, defiling my insides
And it felt weirdly good!

hmmph...

guh...

hrrrgl...

Before I knew it, I was moaning and shoving more of them inside me. I watched my body deform as they infested me, my tits bulging and squirming My belly grotesquely bloasted and wriggling with critters.

Every hole was invaded, and I let it happen I felt them rewiring my brains, changing who I was, pain turned to pleasure, I didn't care, I just wanted to feel good. I climaxed again and again as I let those things have their way with me Until I wasn't myself anymore, but something different...

allen

Toby 2024

I found myself in the camp again. My belly and balls thrashing as my babies urged me to find them a host. I shambled around, a walking hive, having trouble with any thoughts more complex than the most primal of urges, when I saw someone sleeping, it was my lil bro, Joey

J-joey...
b-brother... lil bro... hehe
bro ish cute boy...
bro ish good breeder
for babiesh~

I remembered my brother, flashes of him in my mind, just enough to know he would be a viable breeder He would make for such a cute host for my babies!

uh... Ashley? Is that you?
Why are you talking weird?
You drunk again?

As I approached him, I could my babies getting excited, my cock throbbing as the parasites started to fill it, getting ready for work I couldn't wait to fill joey with my babies~

Toby 2024

He fought me at first, but as soon as my cock was all the way inside his ass, he couldn't do much~ I made sure to give my baby bro many kissies too, so my babies could move into his mouth and reach his brains soon. I want bro to learn to enjoy this as soon as possible~ He looked so cute when his started thrashing as the babies burrowed into his brains~

s-sis?!?!

HRRGK!

s-shtap!

grrg!

hmmmf!
B-big sis will give you all her babiesh lil bro~

HRRRRGL!!!

his belly started to bloat and wriggle, His tits growing as my babies penetrated his nipples~

After a few minutes he was moaning like a little slut, begging for me to fill him more~ Shame he doesn't have a pussy, we could make many more babies if he did

After joey was full of babies and ready to breed, we shuffled around the camp some more, looking for someone to fill with more of our babies~
Eventually we found Evelyn. Eve... my bestie~ yes, Eve has a pussy, we can breed Eve~ we could make many more babies with her womb!

Eve... womb... pussy!
S-sis! Eve has pussy for babiesh~
B-breed eve! make m-more cute babiesh~

ah, Eve...
N-need your womb beshtie~
can b-breed more babiesh in you.
Eve will make such a cute mommy for our babiesh, we will pump eve full of cute squirmy babiesh~

WTF! guys? What happened?!?!
OMG! D-don't come any closer!

Lil bro was so happy we found her!
The babies inside him were going crazy!
I'm so happy my bestie can be a mommy to my babies~
I don't have many more babies inside me,
but I'll make sure to pump all the remaining babies inside eve~

Toby 2024

Lil bro didn't waste any time, once we caught her, he shoved that fat infested cock all the way inside her womb and started pumping her full of our babies~
since he was busy breeding her, I made sure to pump a few babies down her throat, I could give her kissies too, it would be faster, but I was a bit jealous of how much fun my lil bro was having with her pussy, so I wanted to enjoy her mouth a bit, the babies would reach her brain soon enough anyway

ahh~ Your throat feelsh so tight around my cock beshtie~

HRRRK!!

GLRGL!!!

HMMPH!!!!

ahh!! haha! Eve pushy feelsh good! F-fill womb with lots of babiesh! W-want to Breed more babiesh with Eve!

Joey looked so cute moaning
and drooling as he bred her like that~
I'm so happy we can breed my bestie together~

Eventually, my babies made their way into Eve's brains, and she started to enjoy it with us So I could help my lil bro to fill her womb! oh, how my bestie moaned and screamed with pleasure as she bloated, bigger and heavier~ I was envious of her, I wish I could have so many babies inside me like that too~ her belly was growing so much! We could see the new babies growing inside her

AHH! More! G-give me more babiesh!
I want more babiesh inside meee! My womb ish sho full! hahaha!
Thanks for putting so many cute wriggly babiesh in me!

hnng!
N-nearly empty!
G-gotta pump
all my babiesh
into eve's womb~

ahh~
so good...
I want to keep filling
pussy with my
babiesh...

We were nearly empty, but Eve would start giving birth soon,
and she would refill us with more babies to spread~

Toby 2024

Eve eventually gave birth to a bunch of new babies, we let them use our bodies, but since there weren't any people around, we pumped Eve full again, and again, and again. Each time she grew larger and sexier~ and her babies got even bigger~ Finally, people came over to look for us, oh I'm so eager to pump them full of babies too~

AHHH, N-NEW PEOPLE! NEW HOSTS FOR MY BABIESH!

B-BREED...

N-NEW HOSTS...

Toby 2024
