

WENDY
AND DIPPER IN
**CURSE
OF THE
WERE-
BUNNY!**

A MEDULLAMIND COMIC

SUBSCRIBE.STAR.ADLT/MEDULLAMIND

The Were-Bunny.

Records of this elusive creature have been tough to come by in my research.

Extreme Libido

Encounters however have a few consistent reports.

Attacks have all been followed by a sexual encounter involving the victims. Notably only reports of a consensual nature have been recorded.

Bite Transmission

Direct Prognosis has been inferred. All stories on record reference a bite before symptoms

Cure

UNKNOWN

Tender care is referenced frequently so that might be the closest thing to a fix.
