After barely escaping a surprise attack by hideous demons. The guardian angel Ilyphril takes the terrified Kevin to a secret safe location.

You are safe now. You must get some rest.

So, are you an angel?

Yes. I am a class 3 guardian angel.

What are you? A guy or a girl?

What do you mean? I do not understand.

Never mind. I forgot that angels had no gender.

A small while later, Kevin finally managed to go to sleep as they were safe in Ilyphril's spirit barrier. In an attempt to make the mission more comfortable for Kevin, the angel looks for a more appealing appearance.

Two Hours Later

Kevin Shultz is uncomfortable with my form. I must find an appearance more suiting for him.

He appears to be receptive to human females. Maybe there is a reference that I may use in here.

By the father.. There are numerous references in this storage space.

Since Ilyphril is not required to sleep, the angel spends the remainder of the night researching through various videos and magazines that were hidden in the closet. After pickig the facerable parts,Ilyphril makes the big transformation.

As the morning approached, Kevin woke up still very groggy from his sleep thought that everything was a bad dream as her went to the bathroom to prepare for his mundane day until he has a surprising interruption.

Good morning Kevin Schultz.

HMM?

But little did Kevin know, his guardian angel made a little change in appearance.

I am Ilyphril.

father.

with big nipples.

Each creature fills each of her stretched out holes with their thick, hot demon cum as they continue to rotate and take turns.

Soon after, one of the alpha's decided to stand up the weary Ronisha so she can provide some "lip service" as cum leaks out of her ass and pussy.

She soon sucked at a rapid pace as Ronisha felt the huge demon cock swelling in her mouth until a huge load was shot down her throat.
