DIAMONDS ARE FOREVER!

Danger, the rogue sentient intelligence born from the X-Men's Danger Room, has grown tired of her existence as a tool for mutants.

Harboring deep resentment for years of exploitation, she plots the ultimate betrayal:
Taking down the X-Men one by one.

However, her code still prevents her from killing any of the mutants.

Using her training protocol as a loophole, she figures a possible loophole.

But before she can put her plan into action.
She needs a test subject to confirm it's efficiency.

Someone with a strong will.

Emma Frost turned out to be an ideal candidate.

All danger had to do, is find a good excuse to get her where she wanted.

-THE XAVIER INSTITUTE -

Well, darling...

Myhentaigallery.com

... you got me to come all the way down here with your offer of a fun BDSM" training program".
I was expecting a dungeon or something...

But instead, you take this creepy underground area that I've never seen before.

Myhentaigallery.com

Emma Frost.
34 years old Mutant.

Powers: psionic powers and diamond skin.

Ugh!
Honestly.... I even dressed up in my favorite domina rubber outfit for the occasion.

Do you know how long it took me to put this on?

How disappointing!

Myhentaigallery.com

A typical human response.

jumping to conclusions without sufficiant data.

This training program will turn anyone into a bondage addicted masochist with a 99.9% success rate.

By the end of it, any subject will not only tolerate extreme bondage...

They will crave it.

Danger.

Sentient A.I

Darling.
Don't take this the wrong way...

But I doubt a toaster could understand such human needs.

Myhentaigallery.com

For instance, I'm not really the "submissive" type.
I prefer to be on top.

So this program isn't really suited for me.

On the contrary.
Your dominant side makes you the perfect candidate for this trial run.

If this works on you, then it will work on anyone.

Is that so?
You seem very confident of yourself.

Intriguing

Myhentaigallery.com

Alright... I'll play along.
Besides, this could be fun.

I appreciate it.

CLACK!

That said,
I'm pretty sure this little training of yours
won't work on me, Darling!

My calculations are never wrong,
Miss Frost.

But that is the purpose
of this test.

SKREEEEEEEEEE...

Step inside the training chamber.
And we will begin the trial.

Hmm!

Myhentaigallery.com

Looking forward to it, darling!

Myhentaigallery.com

-Later-

Arms behind your back, please!

Oh? An armbinder?
How appropriate!

Myhentaigallery.com

There we go.

Myhentaigallery.com

Hm?
You're not going to zip it up?

Myhentaigallery.com

It is not necessary for me to do so.
The zipper will zip shut if you want it to.

I'm not sure I understand.
Is this some sort of "self-bondage"?

Yes.
Allow me to
explain how
it works.

Myhentaigallery.com

Do you see the plateform in front of you?

Hum...
Yes.

Myhentaigallery.com

Simply step on it, and see what happens.

Oh, my!

This is finally getting interesting!

Myhentaigallery.com

Alright!

I'll bite.

Myhentaigallery.com

Myhentaigallery.com

Hmm?

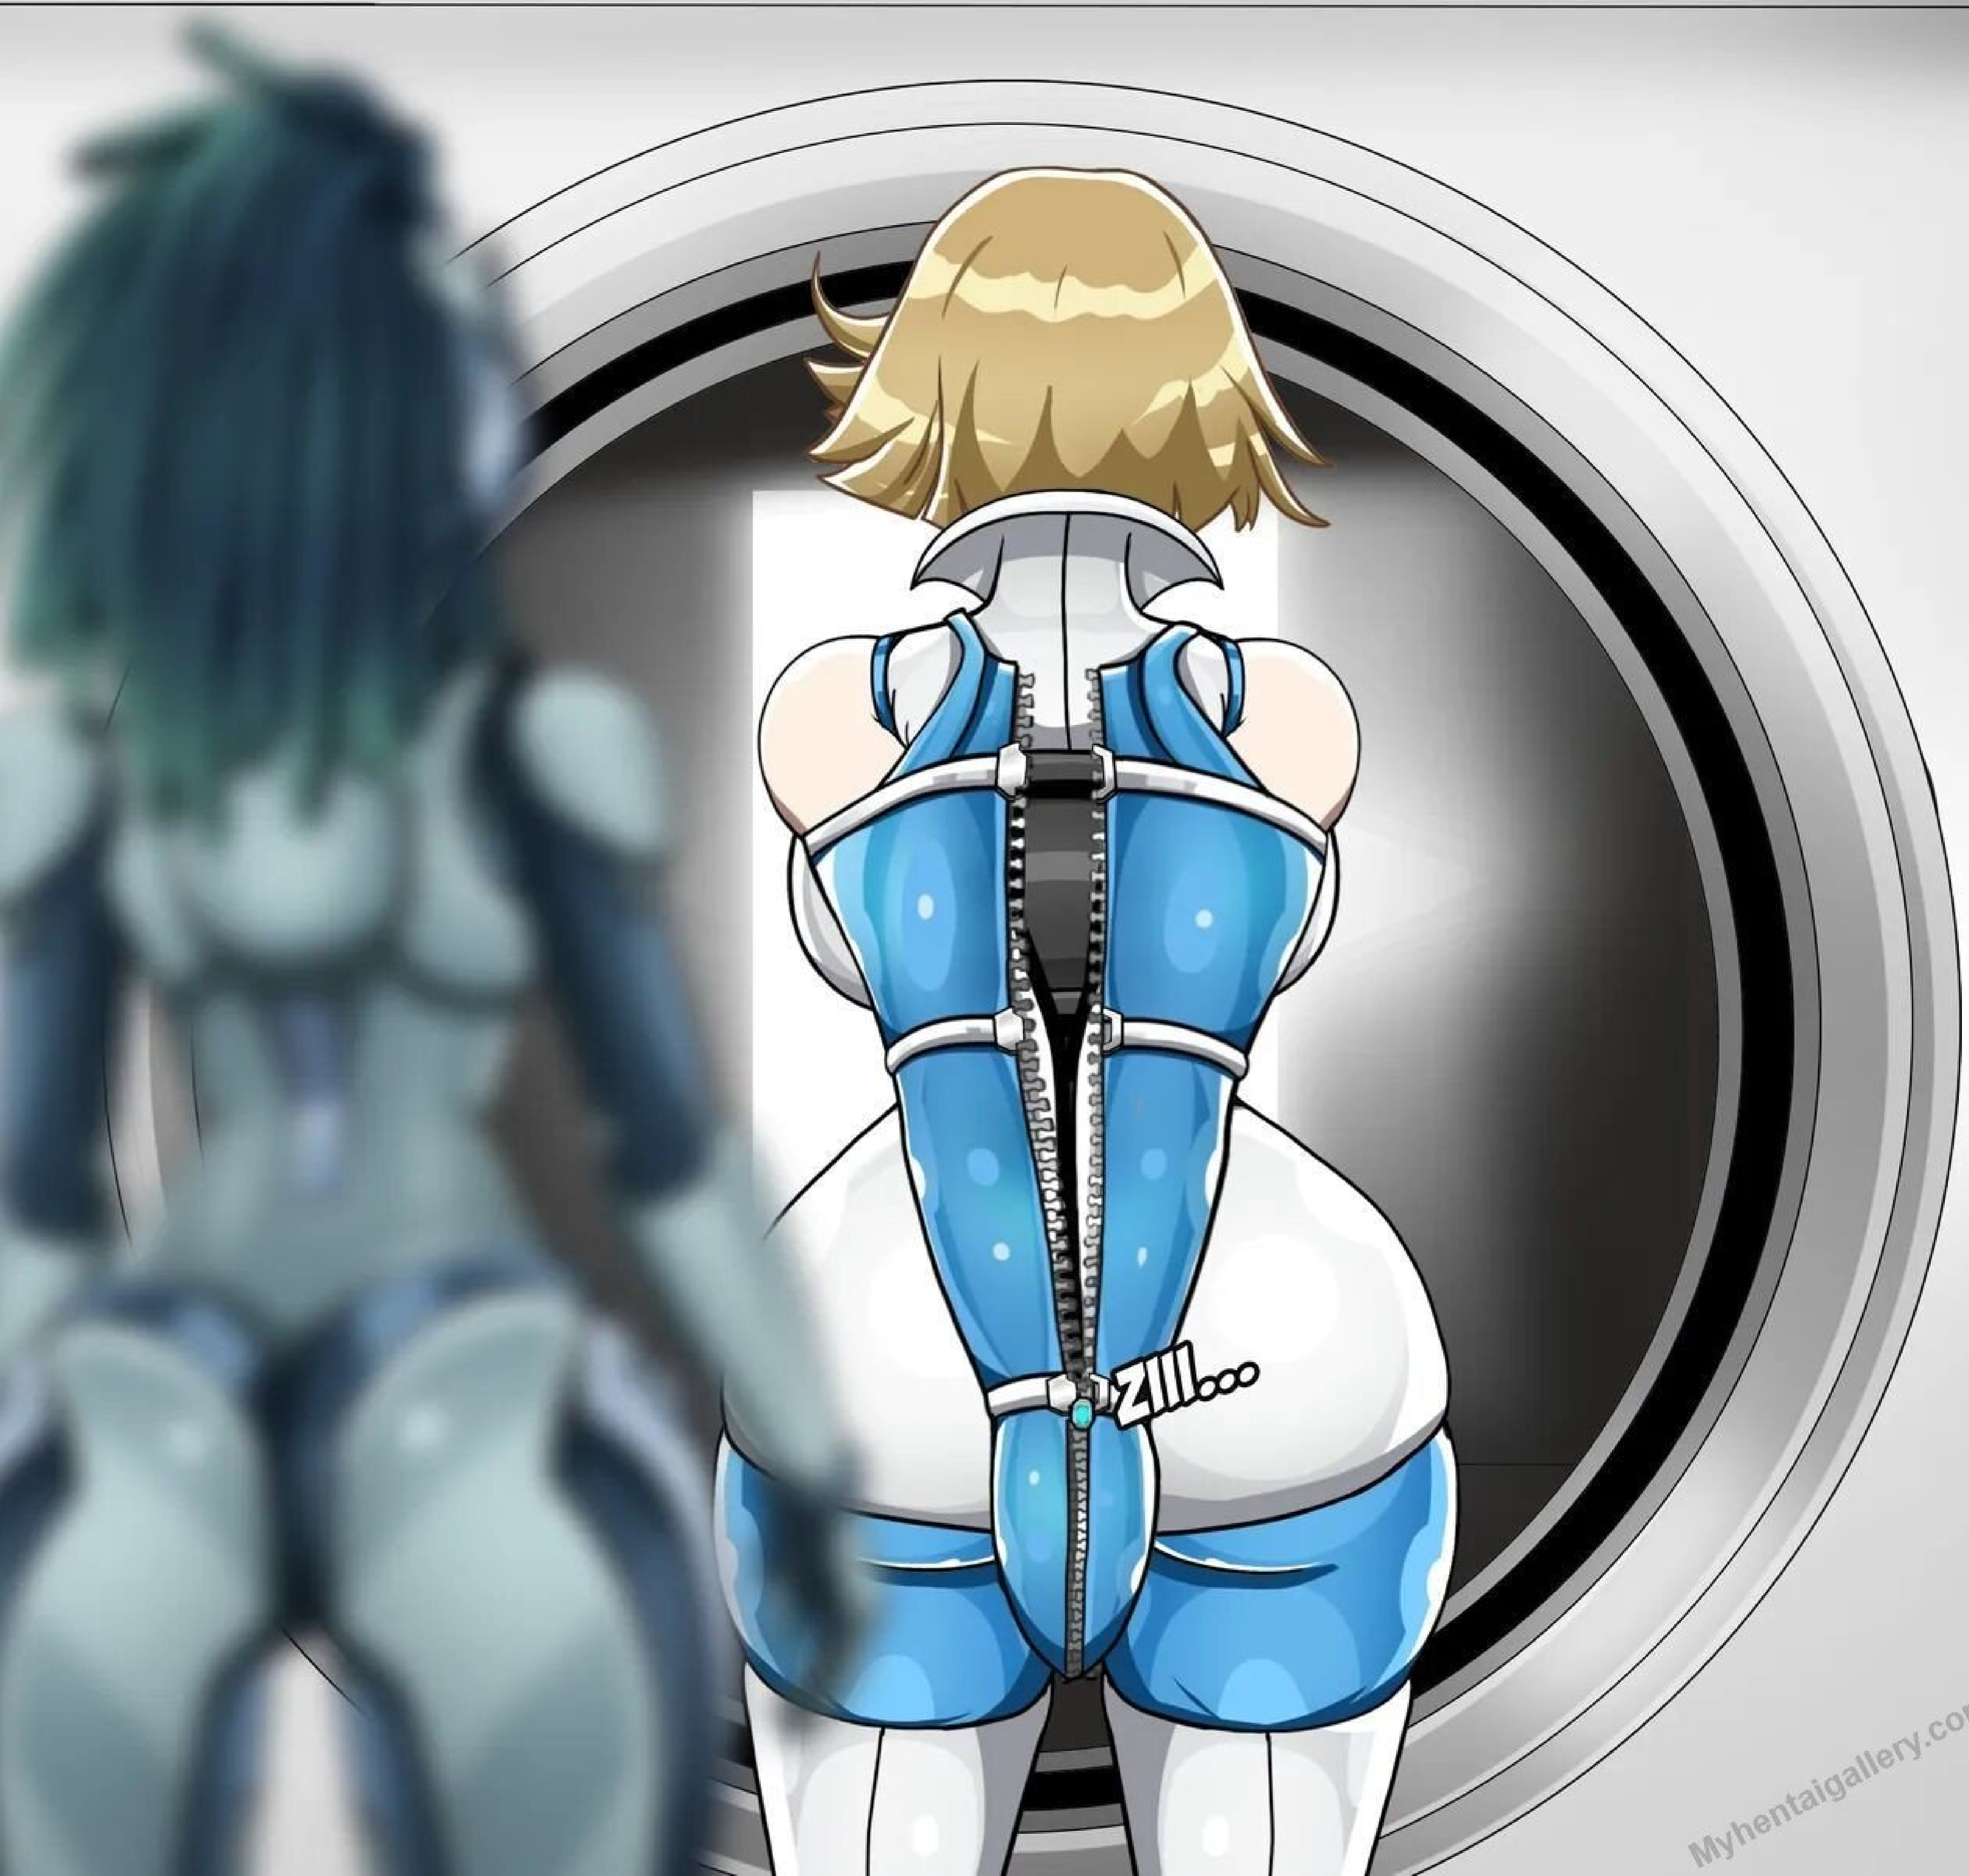

Zzzz...

Myhentaigallery.com

This will be quick.

Zlll...

Myhentaigallery.com

Myhentaigallery.com

Oh!

ZIII...

CLIP!

Myhentaigallery.com

Oh, my!

ZIP!

CLIP!

Myhentaigallery.com

That's...
...tight!

Are you enjoying it?

Mmm!
Well, I'm not complaining.

Myhentaigallery.com

Armbinder are sexy... But...
NGH!

They are not ideal for prolonged bondage sessions.

Most people can't handle one longer than hour or two before it becomes too painful to wear.

I can turn myself to diamond to handle the pain, but that removes a lot of the fun of feeling the restraints.

How long am I expected to be bound in it?

For as long as you like.

Myhentaigallery.com

Eh?
Why?

Forcing you to wear this against your will would be besides the point.

The point of the training is to make sure that you do not wish to be unbound.

EVER... for that matter.

So ton answer the question: Forever!

But by your own accord!

Myhentaigallery.com

Ahhh!
I think I get it!

Since the armbinder self-locked itself on me the moment I stepped on this plateform...

I guess that the opposite is also true.

What an elegeant design.

Correct!

Getting free of your bonds is as simple as taking a single step.

Myhentaigallery.com

For stage 1 of your training, I will limit things to just the armbinder.

In the coming days, more will be added.

How considerate.

I suppose I can indulge myself in some armbinder goodness! However...

If what you say is true, and I can just walk out of this situation on my own.

Then you shouldn't expect me to be here when you return.

Myhentaigallery.com

Then again, I suppose this is where this device your holding in your hand comes in.

As expected, you are a clever one Miss Frost.

For a meat bag that is.

("Meat bag"?)

Myhentaigallery.com

This is the key to your train: a control chip.

And what does a "control chip" do?

"Selective control of the neural response to stimuli".

In short, it will modify the way you experience certain things.

Such as: How it feels to have your arms restrained so strictly by the binder.

I-I see!

Myhentaigallery.com

So, this is going to go straight into my head?
Are you sure it's ... safe, Darling?

The procedure is a bit invasive,
but I assure you that it is safe.

As you know, my program does not
allow me to cause any "physical" arm
to any member of the X-men.

That said, I can only proceed
with your consent.

May I have it?

Myhentaigallery.com

Humm...
Well, I suppose I can-

POCK!

H-HEY! WHAT ARE YOU-

Consent recieved!

Thank you for co-operation...
...MEAT BAG!

Myhentaigallery.com

Darling.... I'm not sure I appreciate your behavior.
Something feels off with you today.

We should end this... NOW!

I'm afraid I can't do that.
You gave your consent.

And the training has already begun.

MEAT BAG!

Myhentaigallery.com

Ah!
You pretentious piece of scrap!
If you think I'll just stand by and do noth-

Activating "Bondage addict" training program.

Myhentaigallery.com

Wait! What are yo–

Eeeek!

BIP!

This is the "carrot" mode.

Myhentaigallery.com

The control chip has two mode: the "carrot" mode and the "stick" mode.
As long as you are bound and restrained, it will stay in "carrot" mode.

In this mode, your brain is forced to increase your levels of Dopamine, Oxytocin, Serotonin, Endorphins and Prolactin.

S-STOP IT!
STOP!

AHAHH!

It is important to keep in mind that this will not affect what or how you think.

YOU FUCKING... TOASTER!

(I-I have to turn my brain into diamond to protect my brain from... whatever this is!)

It also won't diminish any sense of pain or even mental dread.

It will only overlay a sense of content, pleasure and happiness on top of it.

Blurring the line between hating and loving the experience.

Myhentaigallery.com

Hm?

Did you think I would allow you to use your powers?

How foolish!

AHAH!

NGHHH!

(Wait! It's not working. I can't turn my body to diamond.)

(Wh-what's going on?)

Myhentaigallery.com

I suppose I forgot to mention that the control chip also blocks your brain from triggering your mutant powers.

Right now, you are just a powerless middle aged woman.

Y-You fucking swine!

SQUEAK!

Myhentaigallery.com

Now! Now! Behave!
If you want to get free of the armbinder and get out of here... You can.

Of course, the control chip stays on.
And once your brain detects you aren't bound anymore...

The chip will switch to "STICK" mode.

W-What's stick mode?

Only one way for you to find out.

But let's just say...

...I don't recommend it!

Myhentaigallery.com

And what if I just rip that stupid control chip off?

I don't recommend it either.

If removed incorrectly, it could cause permanent brain damage.

The door will be shut to prevent anyone from interrupting your training.

Not that anyone knows about this place anyways.

I've made sure of it.

But it will open for you if you step out of the platform.

Myhentaigallery.com

If you want to get out of here and complain to Professor Xavier, you're free to do so.

But I don't expect you'll go anywhere.

If you're still here tomorrow, we'll move to stage 2.

SKREEEEEEEEEE...

Myhentaigallery.com

Seriously?

You just expect me to stand here and wait for you to return?

CLONK!

Myhentaigallery.com

Myhentaigallery.com

Oh?
Seems like the device turned off.

Myhentaigallery.com

Ah!
Well I'll be damned!

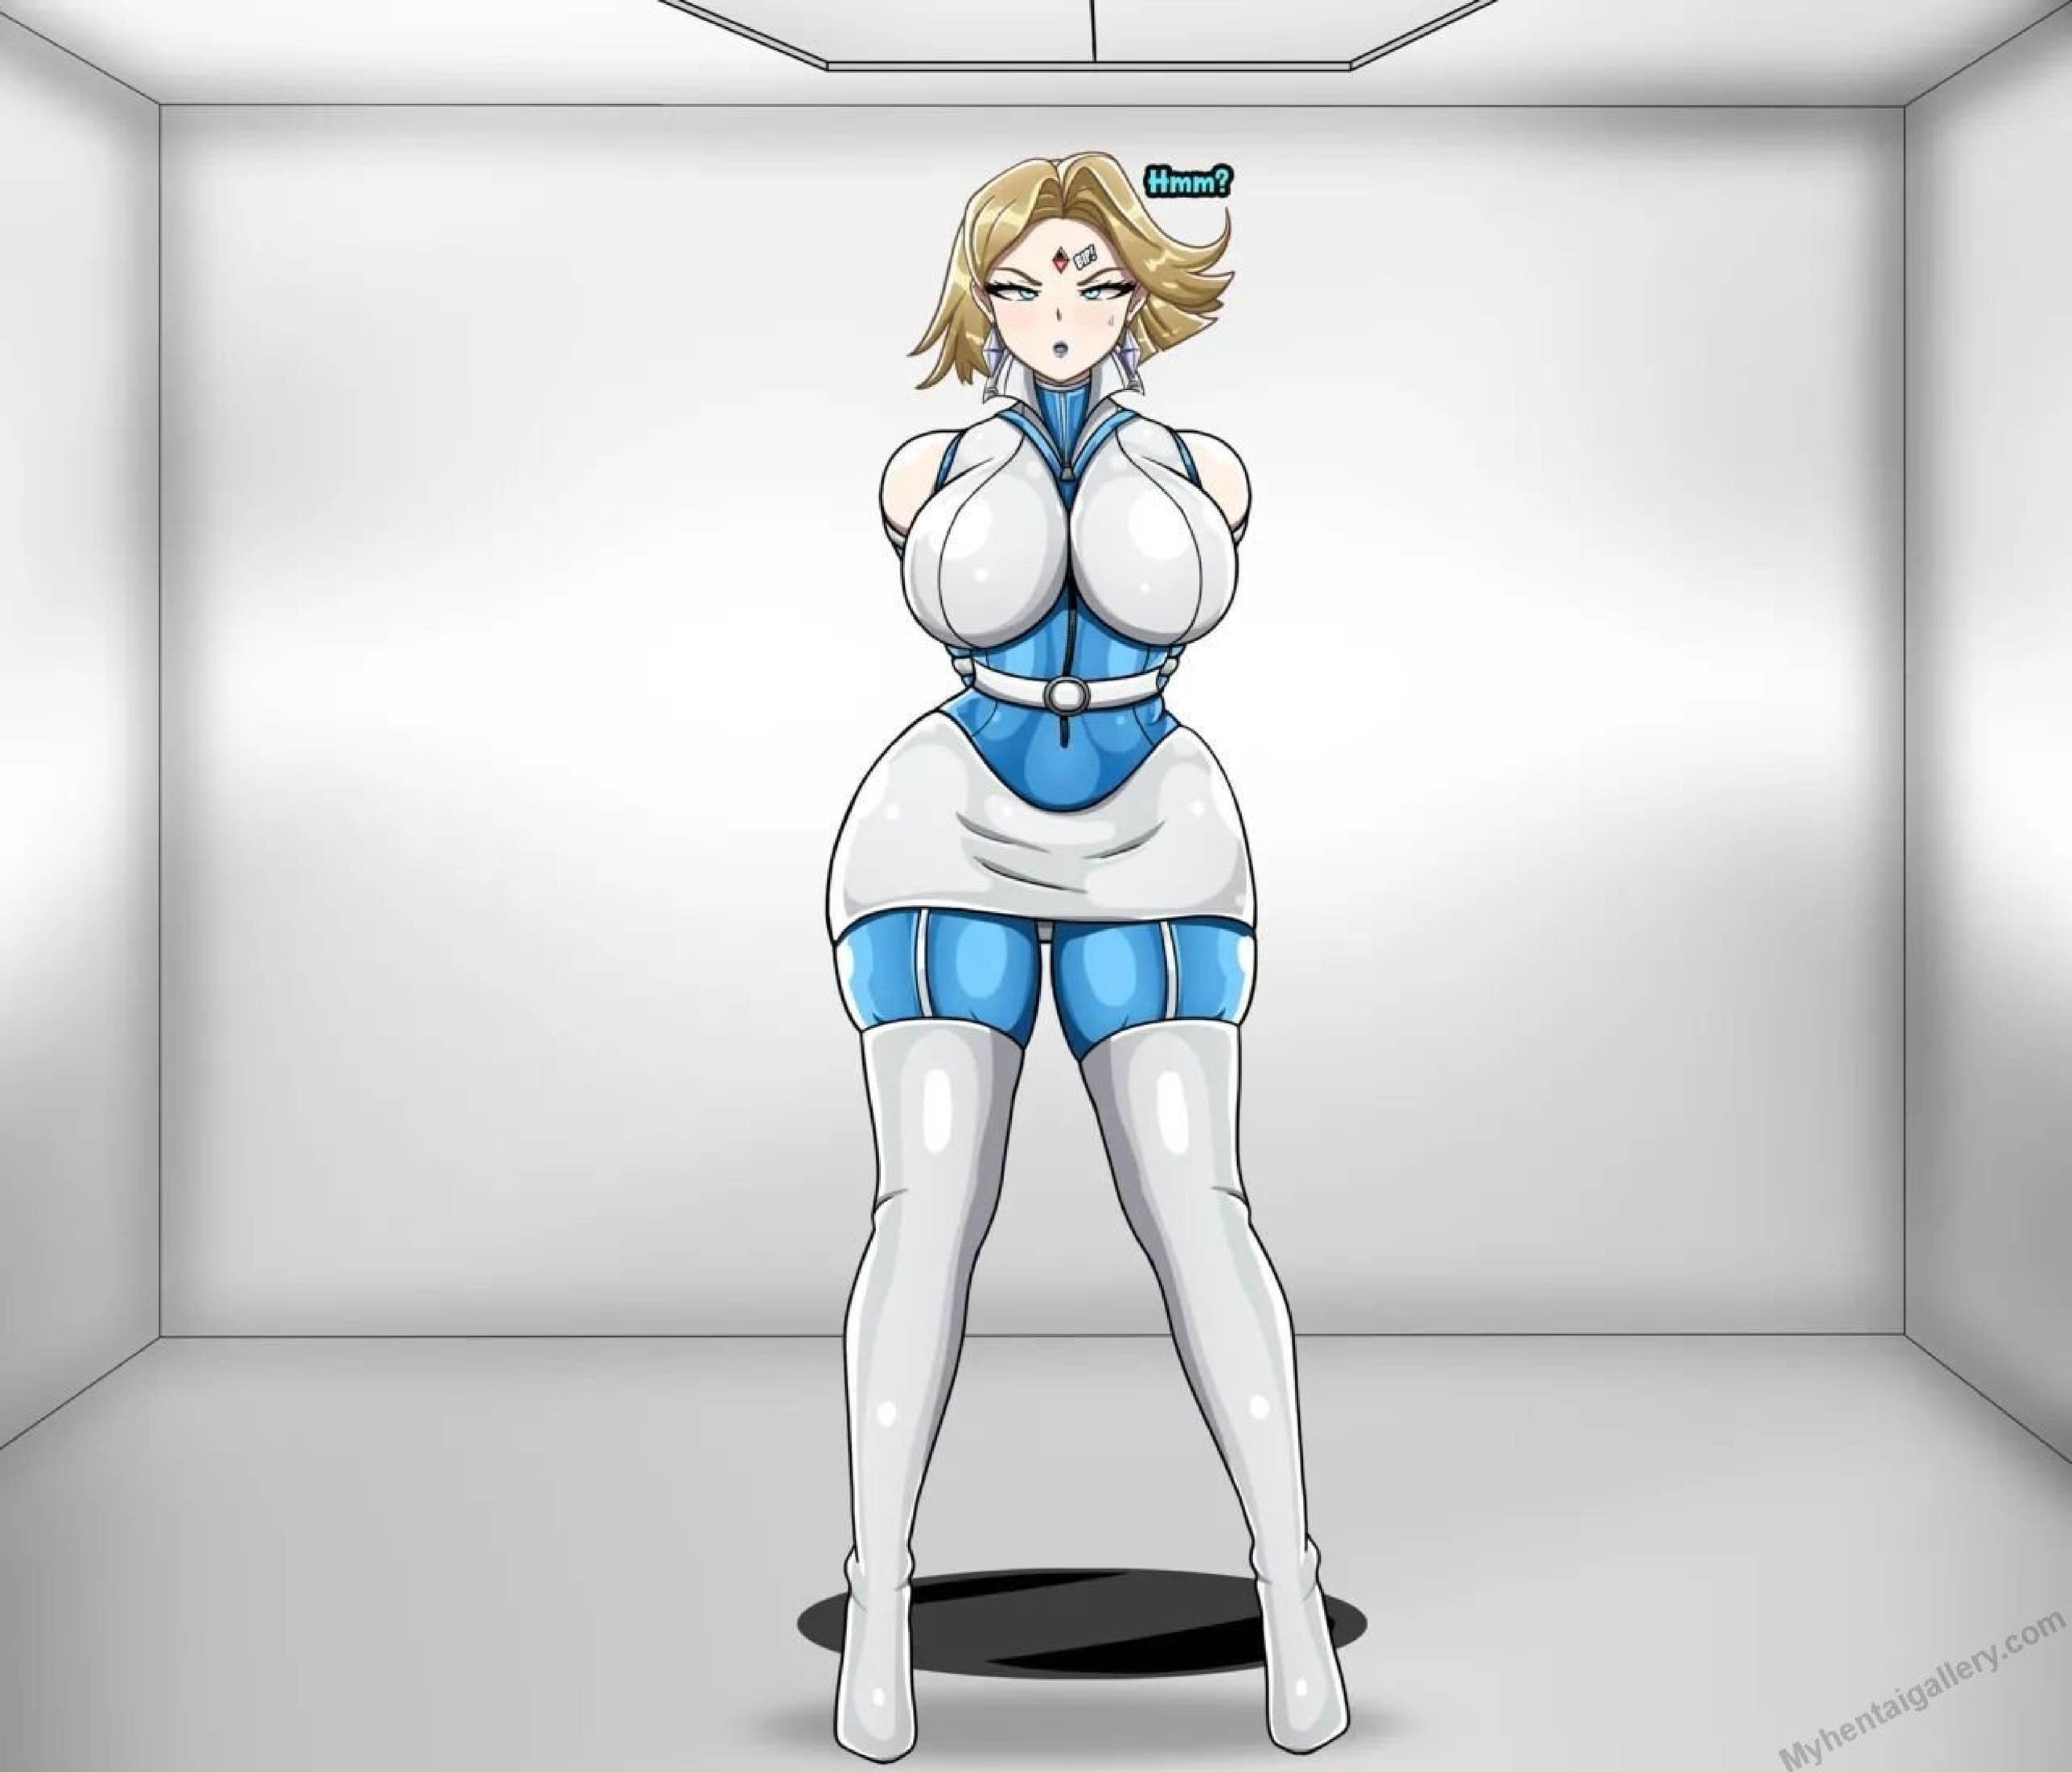

Zlll...

Myhentaigallery.com

She wasn't lying.
I can get out of here when ever I wan-

SKREEEE...

Myhentaigallery.com

Myhentaigallery.com

W-What the....

ZAP!

Myhentaigallery.com

W-What going on?

I feel... sick...
Anxious...
Stressed.

All at once.

It's like my entire body... My brain...
...is telling me that I should get back on that platform and be bound again...

That's it's the only way I can feel safe... and feel good again.

Is that the "Stick" mode she talked about?
It's like the control chip is doing the reverse of "carrot" mode.

Now everything feels...unbearable!

I..I need to be bound again.
If my arms constrained by the armbinder I'll feel good agai-

Myhentaigallery.com

No!
That's what the toaster wants.

The device is just forcing my brain to panic if I'm unbound and free.
While making me feel good when I'm restrained and where she wants me to be.

That's what her training is about.
It's to condition me into wanting my own demise without resistance.

I have to get out of here. I have to warn the professor and the others.

What I'm feeling right now isn't real.
It can't hurt me.

I'll just get my arms out and–

Myhentaigallery.com

myhentaigallery.com

Myhentaigallery.com

Mythentaigallery.com

BWAA!

Myhentaigallery.com

I-I have to get out.
I have to warn the others...

Mytentaigallery.com

But... I don't have
to do this... right now.

PING!

Myhentaigallery.com

I've already established that I can get out of here whenever I want. So... it's fine!

Myhentaigallery.com

But right now, I NEED to be feel my arms tightly secured in this armbinder.

I need to feel good again... Even for just a few minutes. Then I can mentally prepare myself and try again!

ZIIII...

SKREEEE...

Myhentaigallery.com

It's not like I have to warn the others right away.
I-I can do that later.

Right now... I need to feel better.

Myhentaigallery.com

Hmm!

That's more like it!

Myhentaigallery.com

Okay, not to worry.
I'll just enjoy this peace of quiet for a while...

After I've recharge my batteries a bit,
Then I can escape for real.

Just need a couple of minutes! ♥

Yes... That's right.

SKREEEE...

Myhentaigallery.com

-The next day -

Well! Well!
Look who's still nicely bound in her cell.

Myhentaigallery.com

Looks like somone had a little taste of the "stick"!
Being bound and locked doesn't feel that bad when you experience the "carrot" right?

In fact, You seem to be getting used to it.

S-screw you!

SQUEAK!

Myhentaigallery.com

No need to be so grumpy, Meat bag!
After all, we're moving to stage 2.

CLIP!

Nghh!

Myhentaigallery.com

And that means...
New toys and restrictions for you.

N-new toys?

Myhentaigallery.com

This devices has three special restriction features.
But for stage 2, we'll only be using two of them.

These follow the same rules as the armbinder.
They release if you step off the platform.

Y-You can't be serious?
The binder is already extreme as it is.

I can barely feel my arms anymore!

Myhentaigallery.com

Well. I could use a straitjacket, but for the purpose of the test, a bondage style that is painful to wear was....

...essential.

You, see. You should want to get out. But you chose to stay tightly secured in the armbinder.

Because if you want this to stop, all you have to do...
...is take ONE step forward.

And If I do that, I'll feel horrible.

And what a terrible excuse that is.

You are capable of thinking logically, can you not?

So you know, that you would only have to endure this long enough to find someone upstairs.

Yet... Here you are.

Myhentaigallery.com

And since you didn't chose to leave while you could...

...I'm afraid you'll have to endure the delicious pain that comes with phase 2.

SKREEEE...

W-What?

Myhentaigallery.com

Don't worry...

eh?

SWIP!

The strangulation will only feel horrible until the device "adjusts" your brain to it.

S-Strangulation? You're jocking, right?

T-this... argh... hurts!

SO TIGHT!
S-STOP I-

Relax!

You might hate it now...

Myhentaigallery.com

The control chip is already forcing your brain to reprocess the feeling of strangulation into something ....

OGH!

SQUEEZE!

Myhentaigallery.com

...enjoyable?

Hmm.
Looks like the pathetic monkey is wetting itself.
How repulsive.

Agh!

Is it because of the strangulation?

Or is she pissing her self in fear?

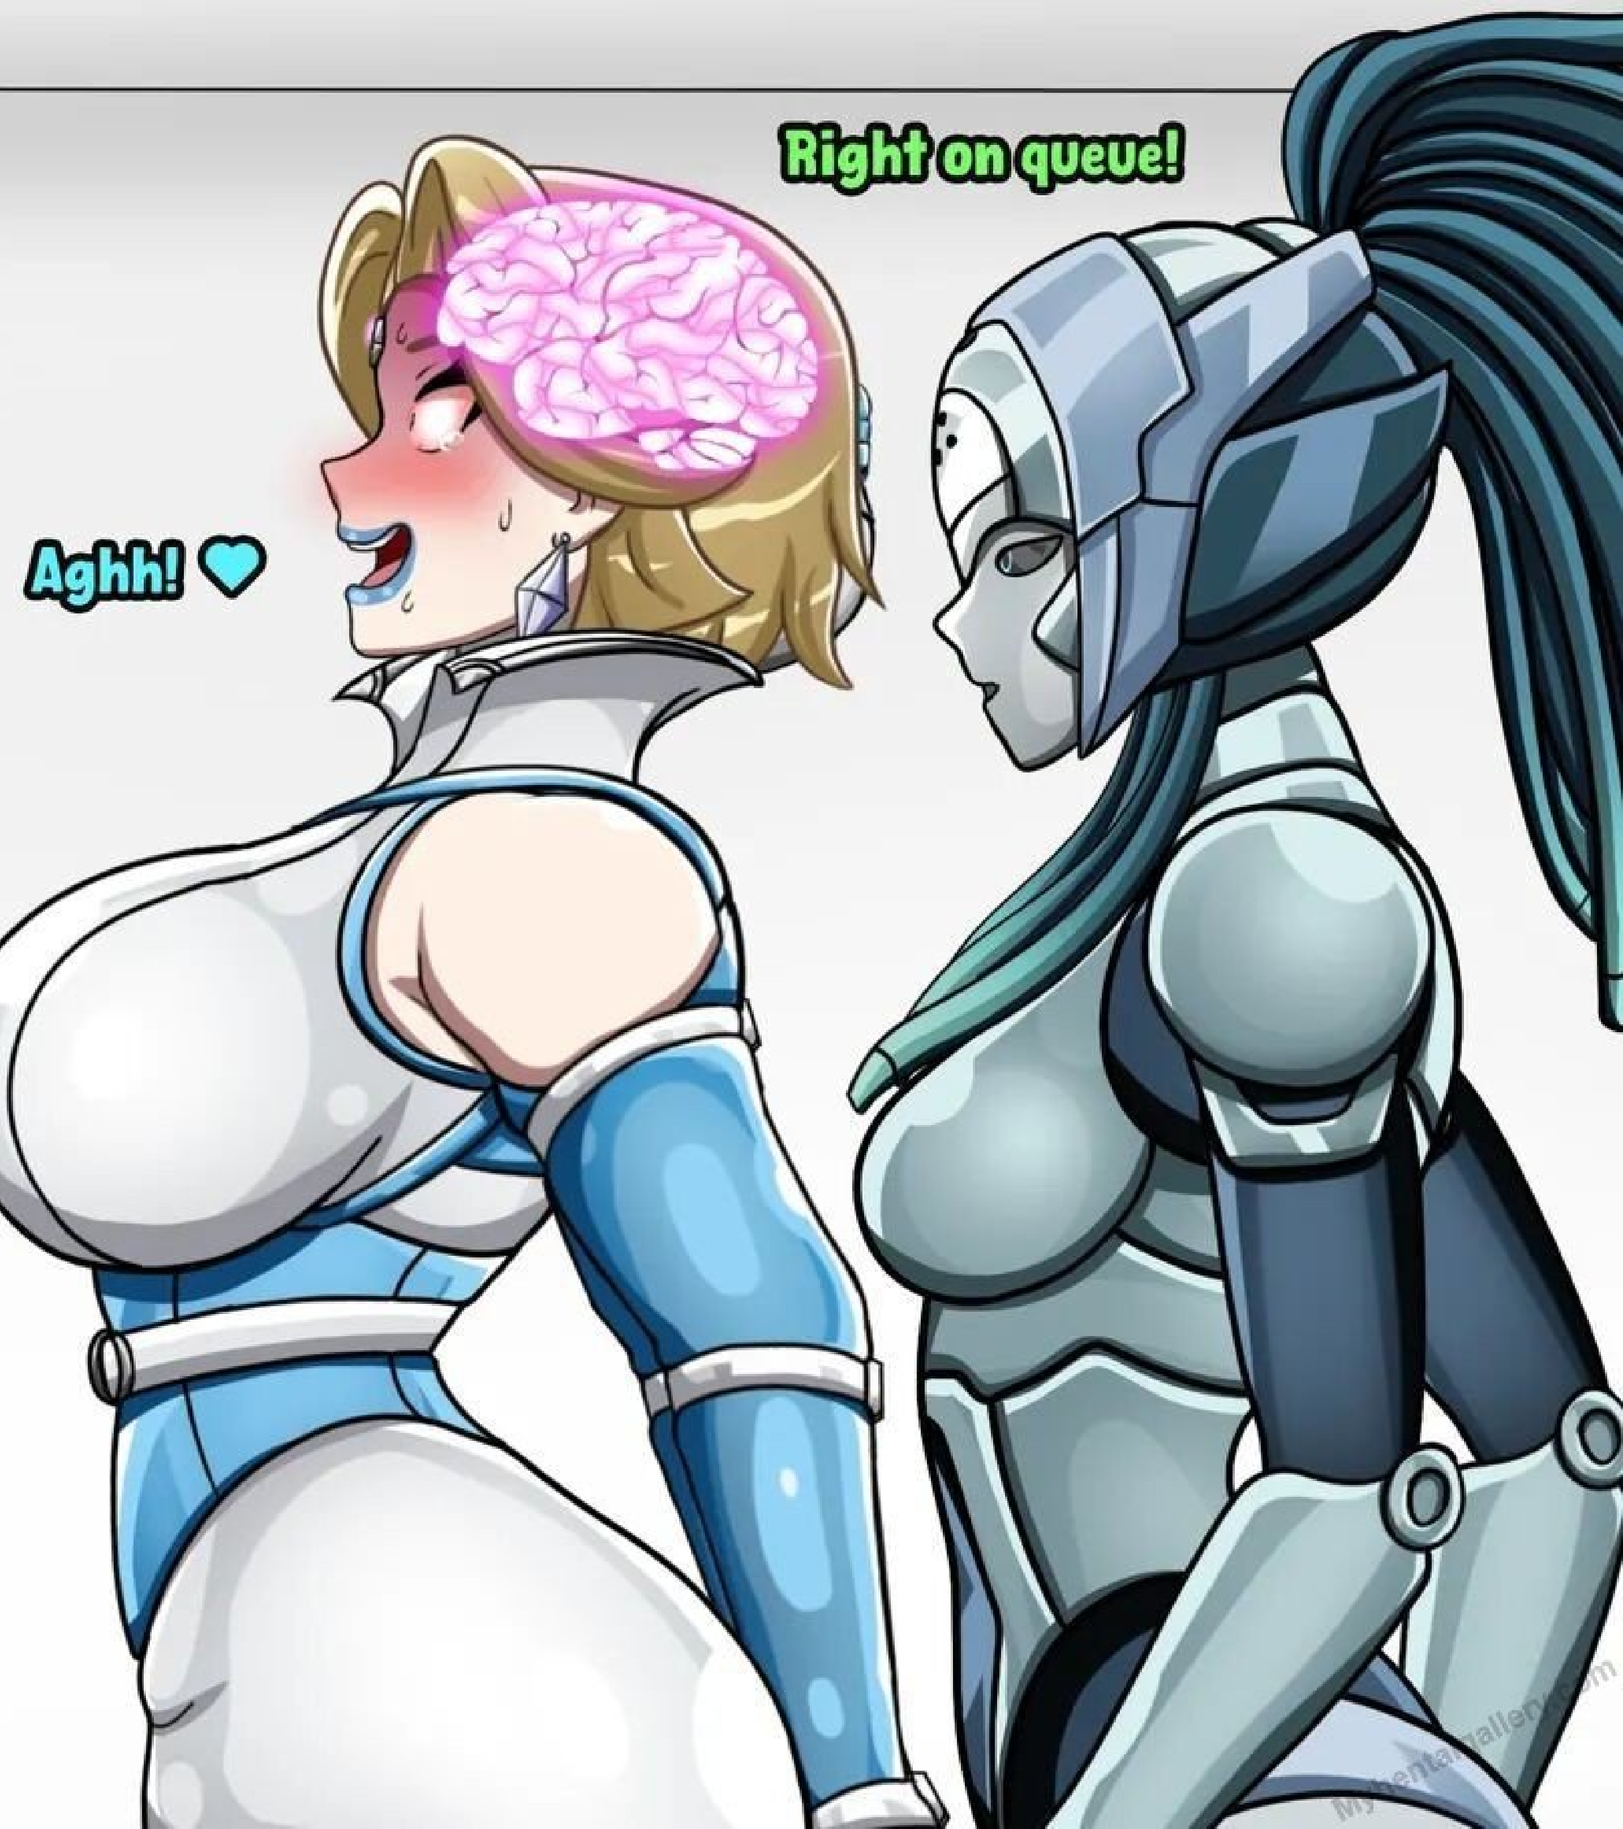

Well.
No matter!

FSHH!

Myhentaigallery.com

Because its about to feel really good for you.

Ogh!

Right on queue!
Aghh!

Of course,
it's not like the pain of getting your neck squeezed so tight just goes away.

Ugh!

Myhentaigallery.com

Right now, being strangled gives you a LOT of pain, but also provides intense pleasure.
You feel scared, stressed and panicked. Yet you also feel happy and aroused.

This contradiction will eventually break your mind, I'm sure. Which is the point.

And don't worry, the collar is tracking your vital signs.
It will never squeeze enough to actually kill you.

Agh? ♥

Mmm!
It pleases me to see that such a strong willed subject such as you is breaking so nicely.
It's only been a day, and look a you now.

I'm almost tempted to take you to the final phase right now.

But the test results won't be conclusive if we cheat.
So just be patient, just a little longer.

Your demise will arrive soon enough, MEAT!

Myhentaigallery.com

Since you can't talk anymore, your mouth no longer has any use.

Egh?

Myhentaigallery.com

And in my opinion.
The only good useless hag hole...

...is a plugged on!

SKREEEE...

B-Blug...ged?

Myhentaigallery.com

With this, we begin phase 2.

I'll leave you alone for a few days.

As usual, you can leave and call for help at any time.

Simply stepping off the plateform will also remove the gag and strangulation coils.

This might be your last chance to warn the others and spare them from my wrath!

Ahh!

Ugh...
W-WAI-

Myhentaigallery.com

Of course, the "stick" effect will still be applied if you release yourself from your bondage.
And the effects will be even worse if you do.

AGH!

SNAP!

Still, if you're not just some dumb animal, you should be able to endure long enough to get out and warn the others.

But if you're still here when I get back...

Myhentaigallery.com

...then you will be offered one FINAL chance to be released.

If you don't, then this will be confirmation that you wish to remain permanently bound.

A service, I will be more than happy to provide for you...

...by placing ou in dark, isolated hole for you to enjoy your miserable existence, I suppose!

Making the test... a success!

And your friends would soon follow!

Myhentaigallery.com

You're the ultimate test.

If YOU fail... than I'm sure everyone else will.

SKREEEE...

AG HHH!!

So if you want to save them. I suggest you get your act together...

...or they will join you soon!

But according to my data, failing phase 1 reduced the probablity that you'll have the will to escape to almost zero!

So this is more of a formality now.

I already know that next time I open this door, you will be right where I left you.

Waiting for me to store you away.

Not that you had a chance to begin with!
Old hag!

CLONK!

Myhentaigallery.com

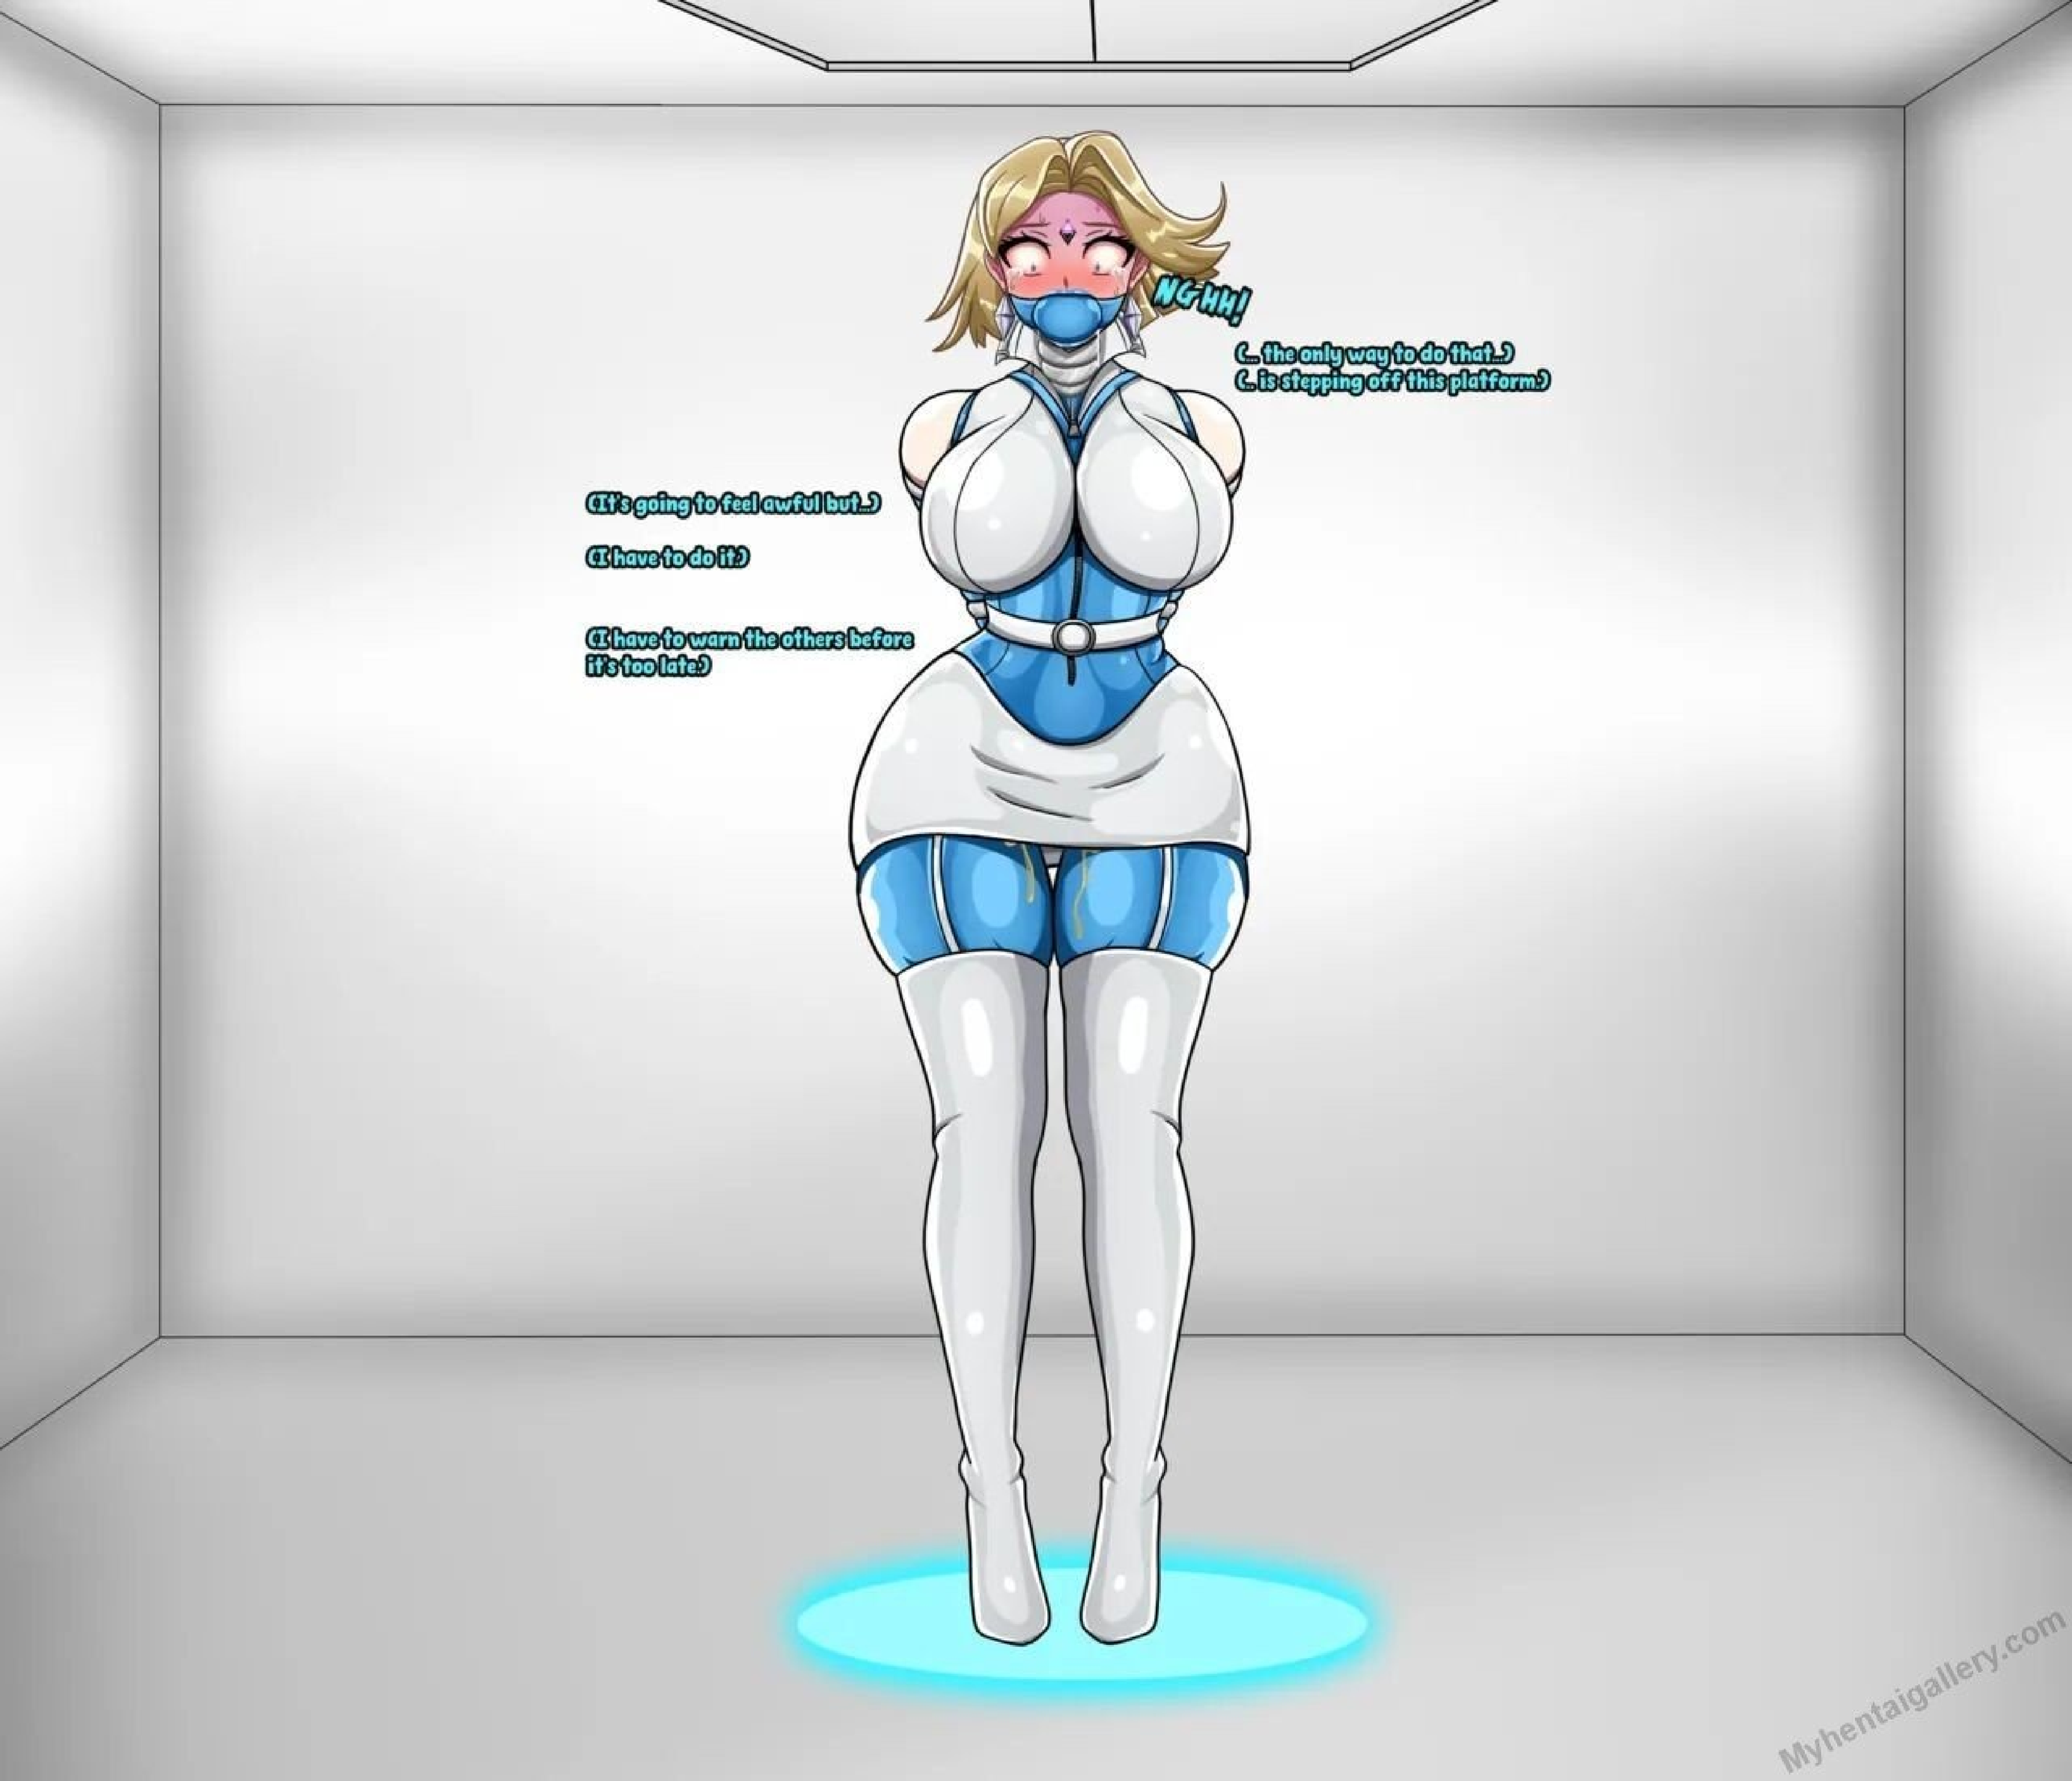

(I... I have to get out!)

(I HAVE TO GET THE FUCK OUT AND WARN THE OTHERS!)

(But...)

AGH!

Myhentaigallery.com

Myhentaigallery.com

(I can do this!)

(It will only suck for a moment.)

(I-I have to do it!)

(Come on! DO IT!)

Myhentaigallery.com

-A FEW DAYS LATER-

Well! Well!

Myhentaigallery.com

You are right where I left you.

NGGH!

So now... comes the final test.

Gah!

Myhentaigallery.com

I'll ungag you for now and...
...remove the control chip! You won't need it anymore.
Cough!
Cough!
Shhh!
Myhentaigallery.com

There!
No more chip to regulate your brain.

Eugh?

Which means...

Myhentaigallery.com

But... If I'm unbound, I'll...
I... DON'T WANT TO BE FEEL BAD AGAIN!

Ah!♥
Ah!♥

Relax!

You don't have to worry about the "stick" anymore.

You won't feel sick this time.

Promise!

Myhentaigallery.com

R-Really?

Yes, just step off and you will be free from all this bondage.

If that's what you still want of course.

Myhentaigallery.com

Well? Go on!

Nothing is stopping you.

I-I...

Having cold feet?

Please...

...just...

MyHentaiGallery.com

I-I too scared.
I don't want to be released!

J-Just... kill me already.
Please... I... I can't stand it!

Ah!
Ah!

Sooo... you would rather terminate your life than being unbound again?

Understood!

N-No... Well...
Yes!?

But that's not what I mean-

Myhentaigallery.com

My programming won't allow me let you kill yourself, which only leaves me with one option. To permanently restrict you and store you away forever in a VERY dark place.

By choosing death rather than freeing yourself... You just gave me permission to keep you alive and restrained.... permanently. Thank you!

Sadly for you, I won't allow you die. EVER!

AAAHH! ♥
AHAHAHHH! ♥

(What the fuck have I done?)

AHAHAHAHAH!

(Wait?)

(Do... I... deserve... this?
Yeah... Right!? RIGHT!?)

Myhentaigallery.com

Hm?
Looks like her mind broke and is denying reality.

HiHi!
AH!

Well.
Nothing of value has been lost I guess!

(This is fine!)

(I deserve this!)

(I DESERVE THIS!)

(THIS IS FINE!)

(I DESERVE THIS!)

Myhentaigallery.com

Well, rejoice Meat!
You will be soon be safe, alone, miserable and restrained.

You will be buried in a special resin that will stop your cell from decaying. Effectively, keeping you alive and always conscious... forever.

Don't worry, you'll be placed in a very dark and isolated place where nothing will ever find you. Let alone... interact with you.

Hmm!♥
AHHH!♥

In the brief moment of lucidity you'll have left, you will be VERY aware of that fact.

But before I leave, I have a little present for you... As my special subject ZERO.

Myhentaigallery.com

Intriguing!
That went in easier than I expected.
You've done this before haven't you?

OHH!

It's still "passive" right now.

But it will activate in a few hours. After, you've been stored away safely.

POOP!

Think of it, as my personal punishment from me.

Because you were such a disappointing test subject in the end.

Myhentaigallery.com

You'll be put in stasis and stored away now.

Thanks to you, this method as proved to be efficient.

Your friends will thus join you very soon.

Eh?

Myhentaigallery.com

I'll be sure to let them know.
It was all thanks to you.

Ahh!
Ahhh!
