

As penance for my time with Team Rocket
I've dedicated my life to stopping their
machinations wherever I can ♡

So when i heard they where pushing a new evolution stone I had to see If I could make a nuisance of myself ♡

Lust Stone

Pokedex

After... talking with a member of team rocket I acquired a stone and info on an encrypted app called Pokemon Ho ♡

x 1

Lust Stone

Curious of the stones effects I used it on one of the thugs weaker pokemon a cute little Castform that seemed happy to be free of her former trainer ♡

In a swirl of light and pink smoke her
body grew plump and supple little lip
became full and pouty ♡

Zzzzip

For the sake of the public safety I
wanted to see the dangers this new
evolution stone ♡

Seems the use of this stone eliminates
the need to train Pokemon to except a
human mate ♡

More than acceptance this stone
triggers a type of hunger for human
seed ♡

Her eager little mouth latches on so tight it feels like braking in a fresh Onahole ♡

Hnnng!

Glurk!

With a bit of help she was able to take
my full length seed and all not an easy
task for such a small thing ♡

Such strong suction I can feel her selfishly draining my balls of every last drop of cum ♥

She seemed so happy to have a mouth full cum for minutes she sloshed the thick liquid around in her mouth until ♡

Castform Used: Cummy Day

Jizzy Castform

The light faded revealing a new form!
After I test her new... abilities
after I'll find more Pokemon to save ♡
