

Hey Command, this is Juno.
This is quite embarrassing...
but I'm stuck in this hole on
the ground while looking for
those tentacle creatures the
locals reported. My boots are
glitching out too, so...

Copy that, Juno.
You safe down there?

Kinda? Can't feel a
thing below my waist.
Even if tentacles are
poking around, my
suit's rated for space
vacuum, so nothing's
getting through this
nano-weave. I'm good!

Roger. Help is on the way.
Hang tight. Over and out.

Huh? What's that gross squishy noise down there?
