Locus, the young, sculpted Sectan is enjoying a night out at a local dive bar. He basks in the attention and eye-humping he gets whenever he walks into a room full of lusty men. He downs drink after drink of 'complimentary' green cosmos.

Damn it's good to be hot... All these guys sending drink after drink thinking they've got a chance with me. Hah, not likely!

Yikes.. Hiccuping already! Maybe I should slow down a little..

But it's not long before the purveyor of drinks makes himself known to Locus. He is Slavva, owner of the bar and infamous trafficker of drugs and steamy man-on-man porn.

Why, hello there handsome Sectan. Are you enjoying your evening? Why don't we have a little chat?

I see those green cosmopolitans I've been sending you all night have had quite an effect. You're practically swaying. Why don't you join my friends and I in the back room...

Whoa!! Sorry, man. Thank you for the drinks, but I don't do ugly.

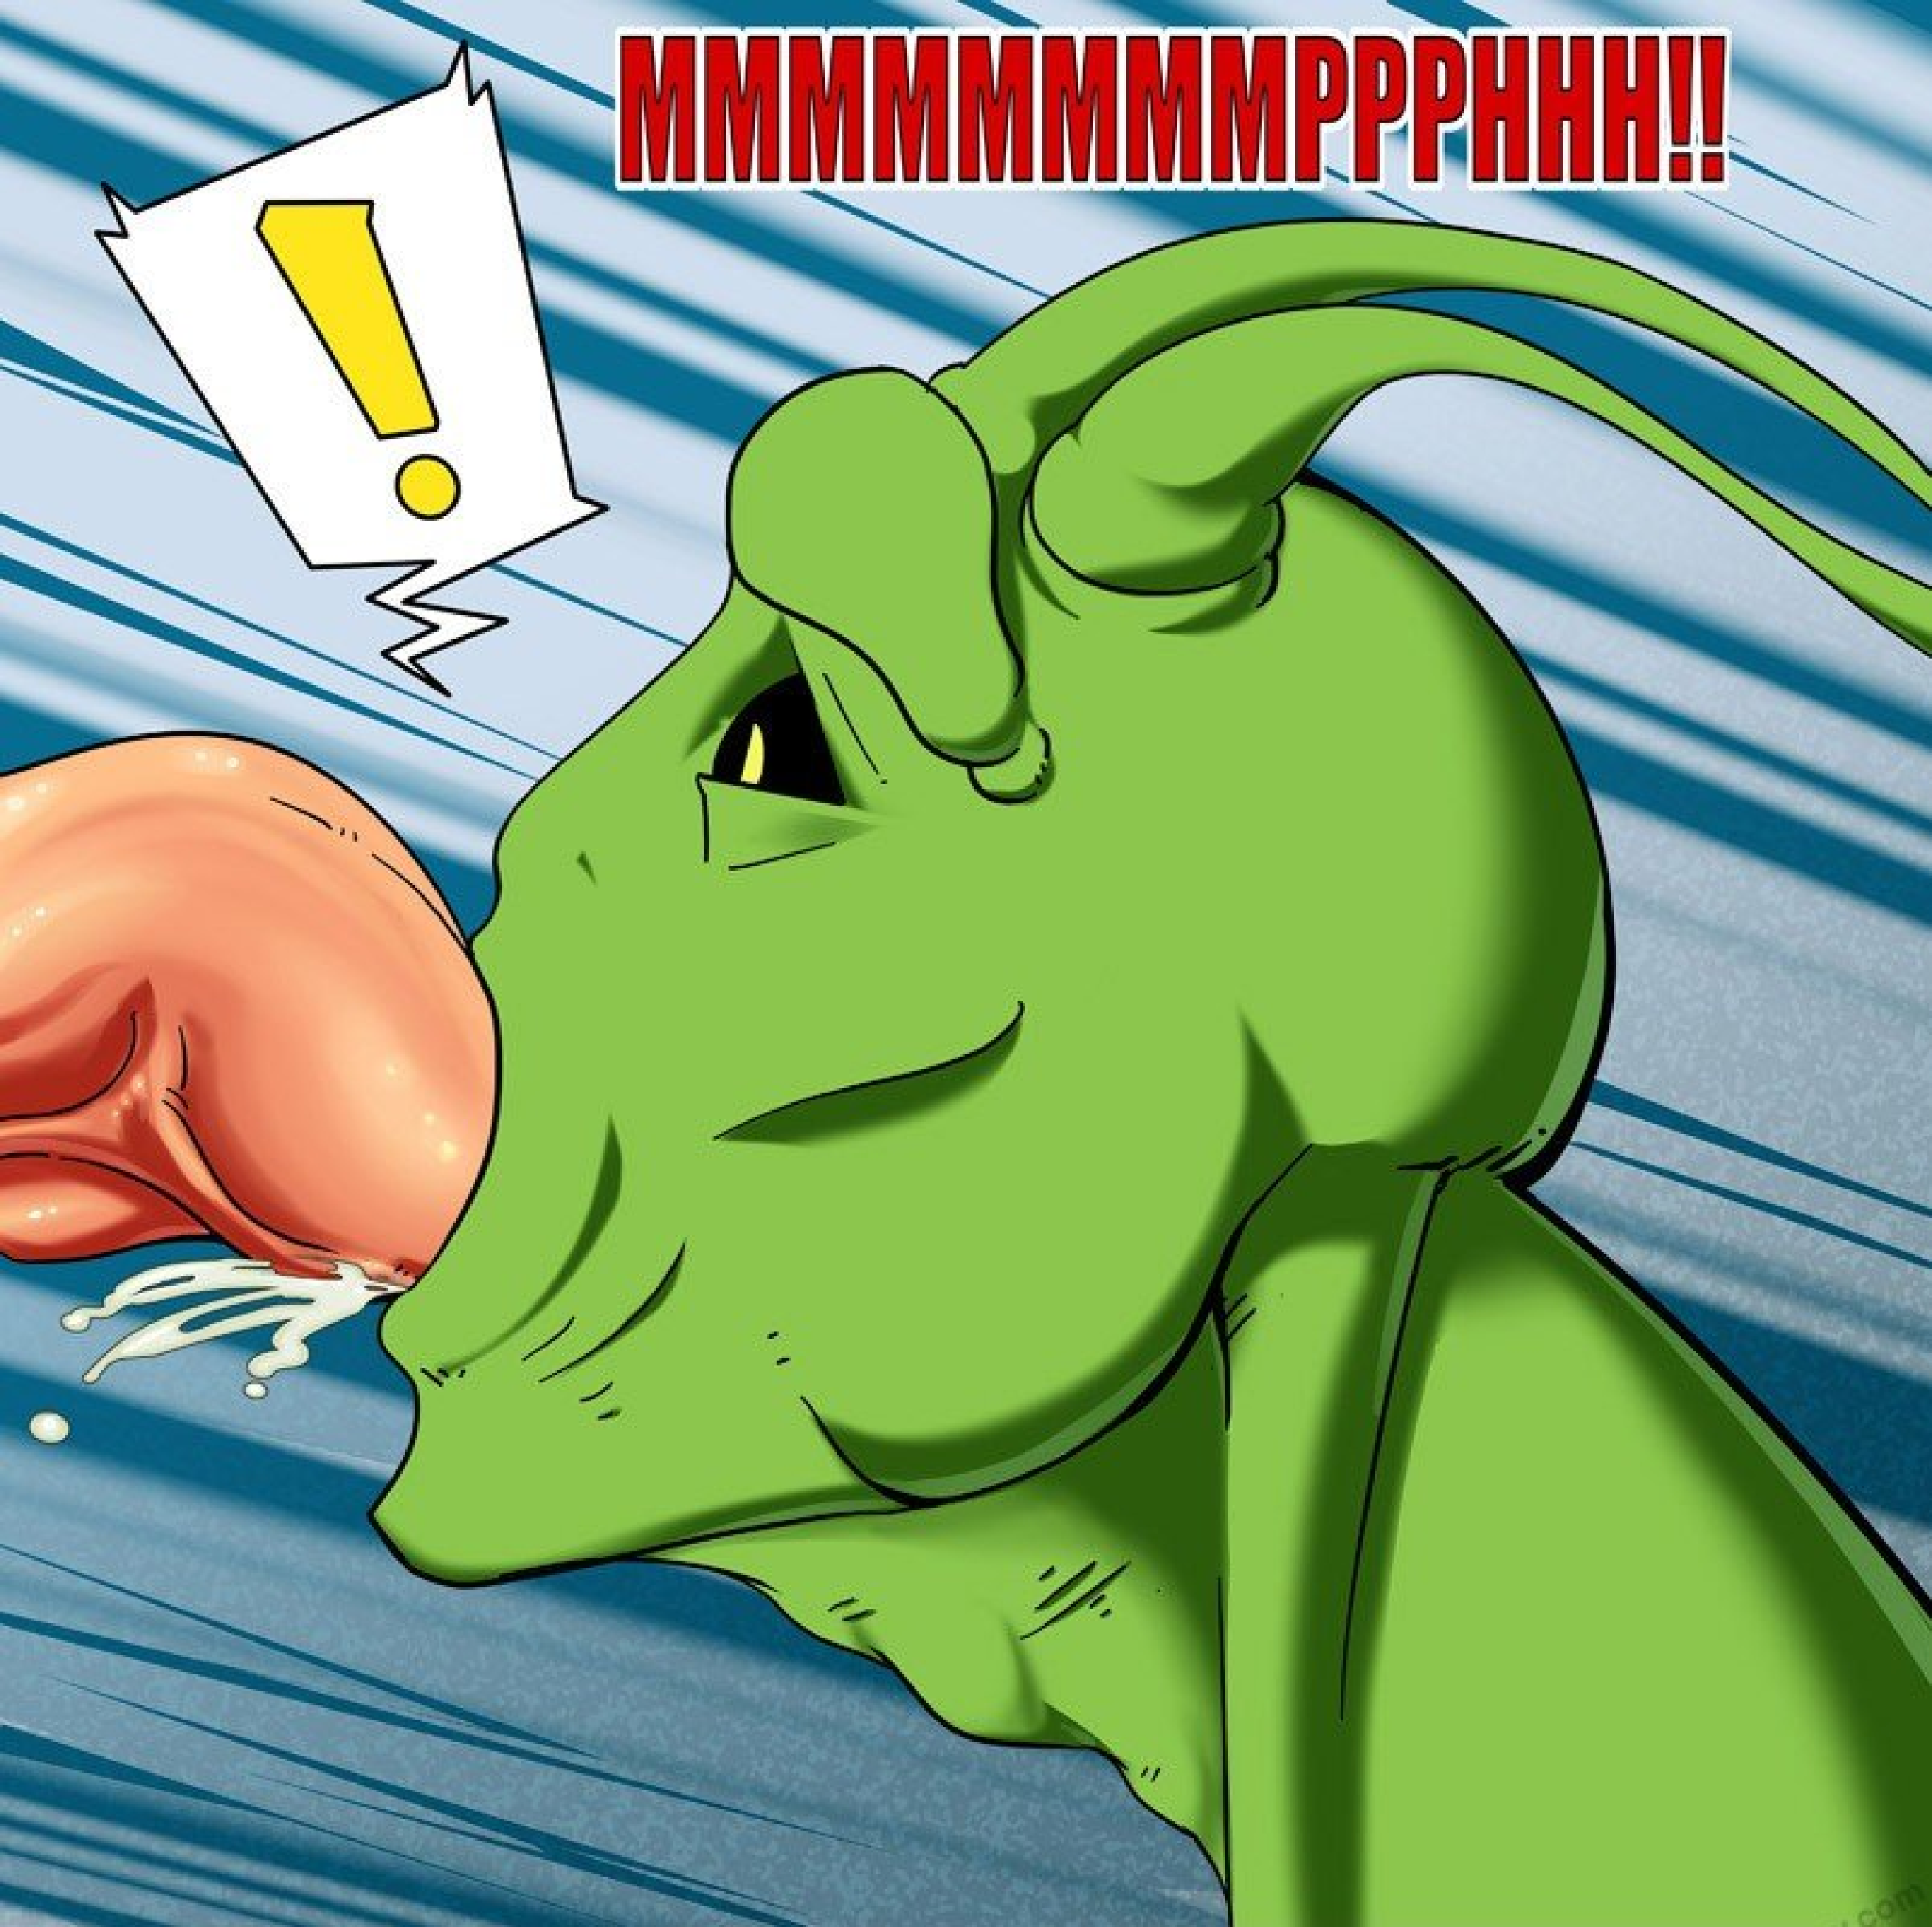

Mm, perhaps you need a little convincing..

Aah, there we are. You know, young Sectan, you really should be more careful about who you choose to accept drinks from. The ones you've been served all night are designed to react to my saliva. I can already feel your throat beginning to accept my tongue. Craving it... Wanting it...

MMmmm..... -slurp-

Of course, the manipulative Slavva is right. Despite himself, Locus finds himself willingly sucking down the larger alien's tongue.

Slavva's cohorts undress Locus and begin working his hole, sticking in finger after finger.

Damn, Boss! His ass is just swallowing them!

They take turns pushing their fat dicks into Locus' greedy hole. Their hands feeling up his lean physique as they fuck him.

In truth, Locus loves it. His moans grow louder and louder as they pump him full of cock, his assring milking their dicks hungrily.

*Finally, they climax. Their three massive
cocks unloading all over Locus' hard body.*

*Drunk, exhausted, and drenched in cum, Locus is left for the rest of the bar's patrons to have
their way with him. The next morning, Locus will wake with an aching head and an aching ass.*
