

"A pity about this woman she should've made a good addition to the team. Seem like she's too far gone now to be of any use other than this."

"Yeah, I'm very sure she would've been very useful. I've heard the kitchen is very short on staff at the moment."

"Poor girl, she had a solid track record. Rather harsh to turn her into this because she fucked up one mission."

"Meh, plenty of better women around. No one will miss some mute whore who was into humming and dressing like a retard."

"Can we fuck any of the other bitches around the base? After six months I'm getting bored of draining my balls in this broad, and she never says a fucking word except for her humming and moaning."

"Cool your dick man. Only reason we're even fucking Quiet is because she's so loyal to the boss that she agreed to being the place's sperm receptacle. I doubt the other women will be as nice if you ask them."

"Some have complained about her. Bitches say she makes them look bad or something, probably mad this is the only thing they're good for."

"Ha ! They're simply jealous. Quiet's getting all the dicks around here."

"Now that's a good cumwho-
re. Pay your respects to
our cocks and show us the
only thing the women of
Mother Base are good for."

"Take'em girl! We're going to fuck
the badass out of you yet."

"Heh chugging cum off your boots
is a new low for you, Miss Badass.
Fucking disgusting too even hooker
have more class than this."

"Give Quiet a break, boys. She's
kicked plenty of ass for the boss
and taken our cocks multiple times
and never complained. Let's indulge
the lady's peculiar desires."
