

The Farm part 3

Alice is coming along very well.

I've already taken her off the fluid and have put her on the weight gain and hormone pill

Are you sure that's a good idea? You had the last girl on the fluid for almost a month.

Alice has only been here for a few days!

I only agreed to this because you said the girls wouldn't be hurt.

Don't kid yourself, Roy

You only agreed to do this because of the obscene amount of money we're paying you.

I'm no monster, Donna. If you hurt this girl I'll go to the police.

I need the money, but no amount of money is worth doing lasting harm to this poor girl.

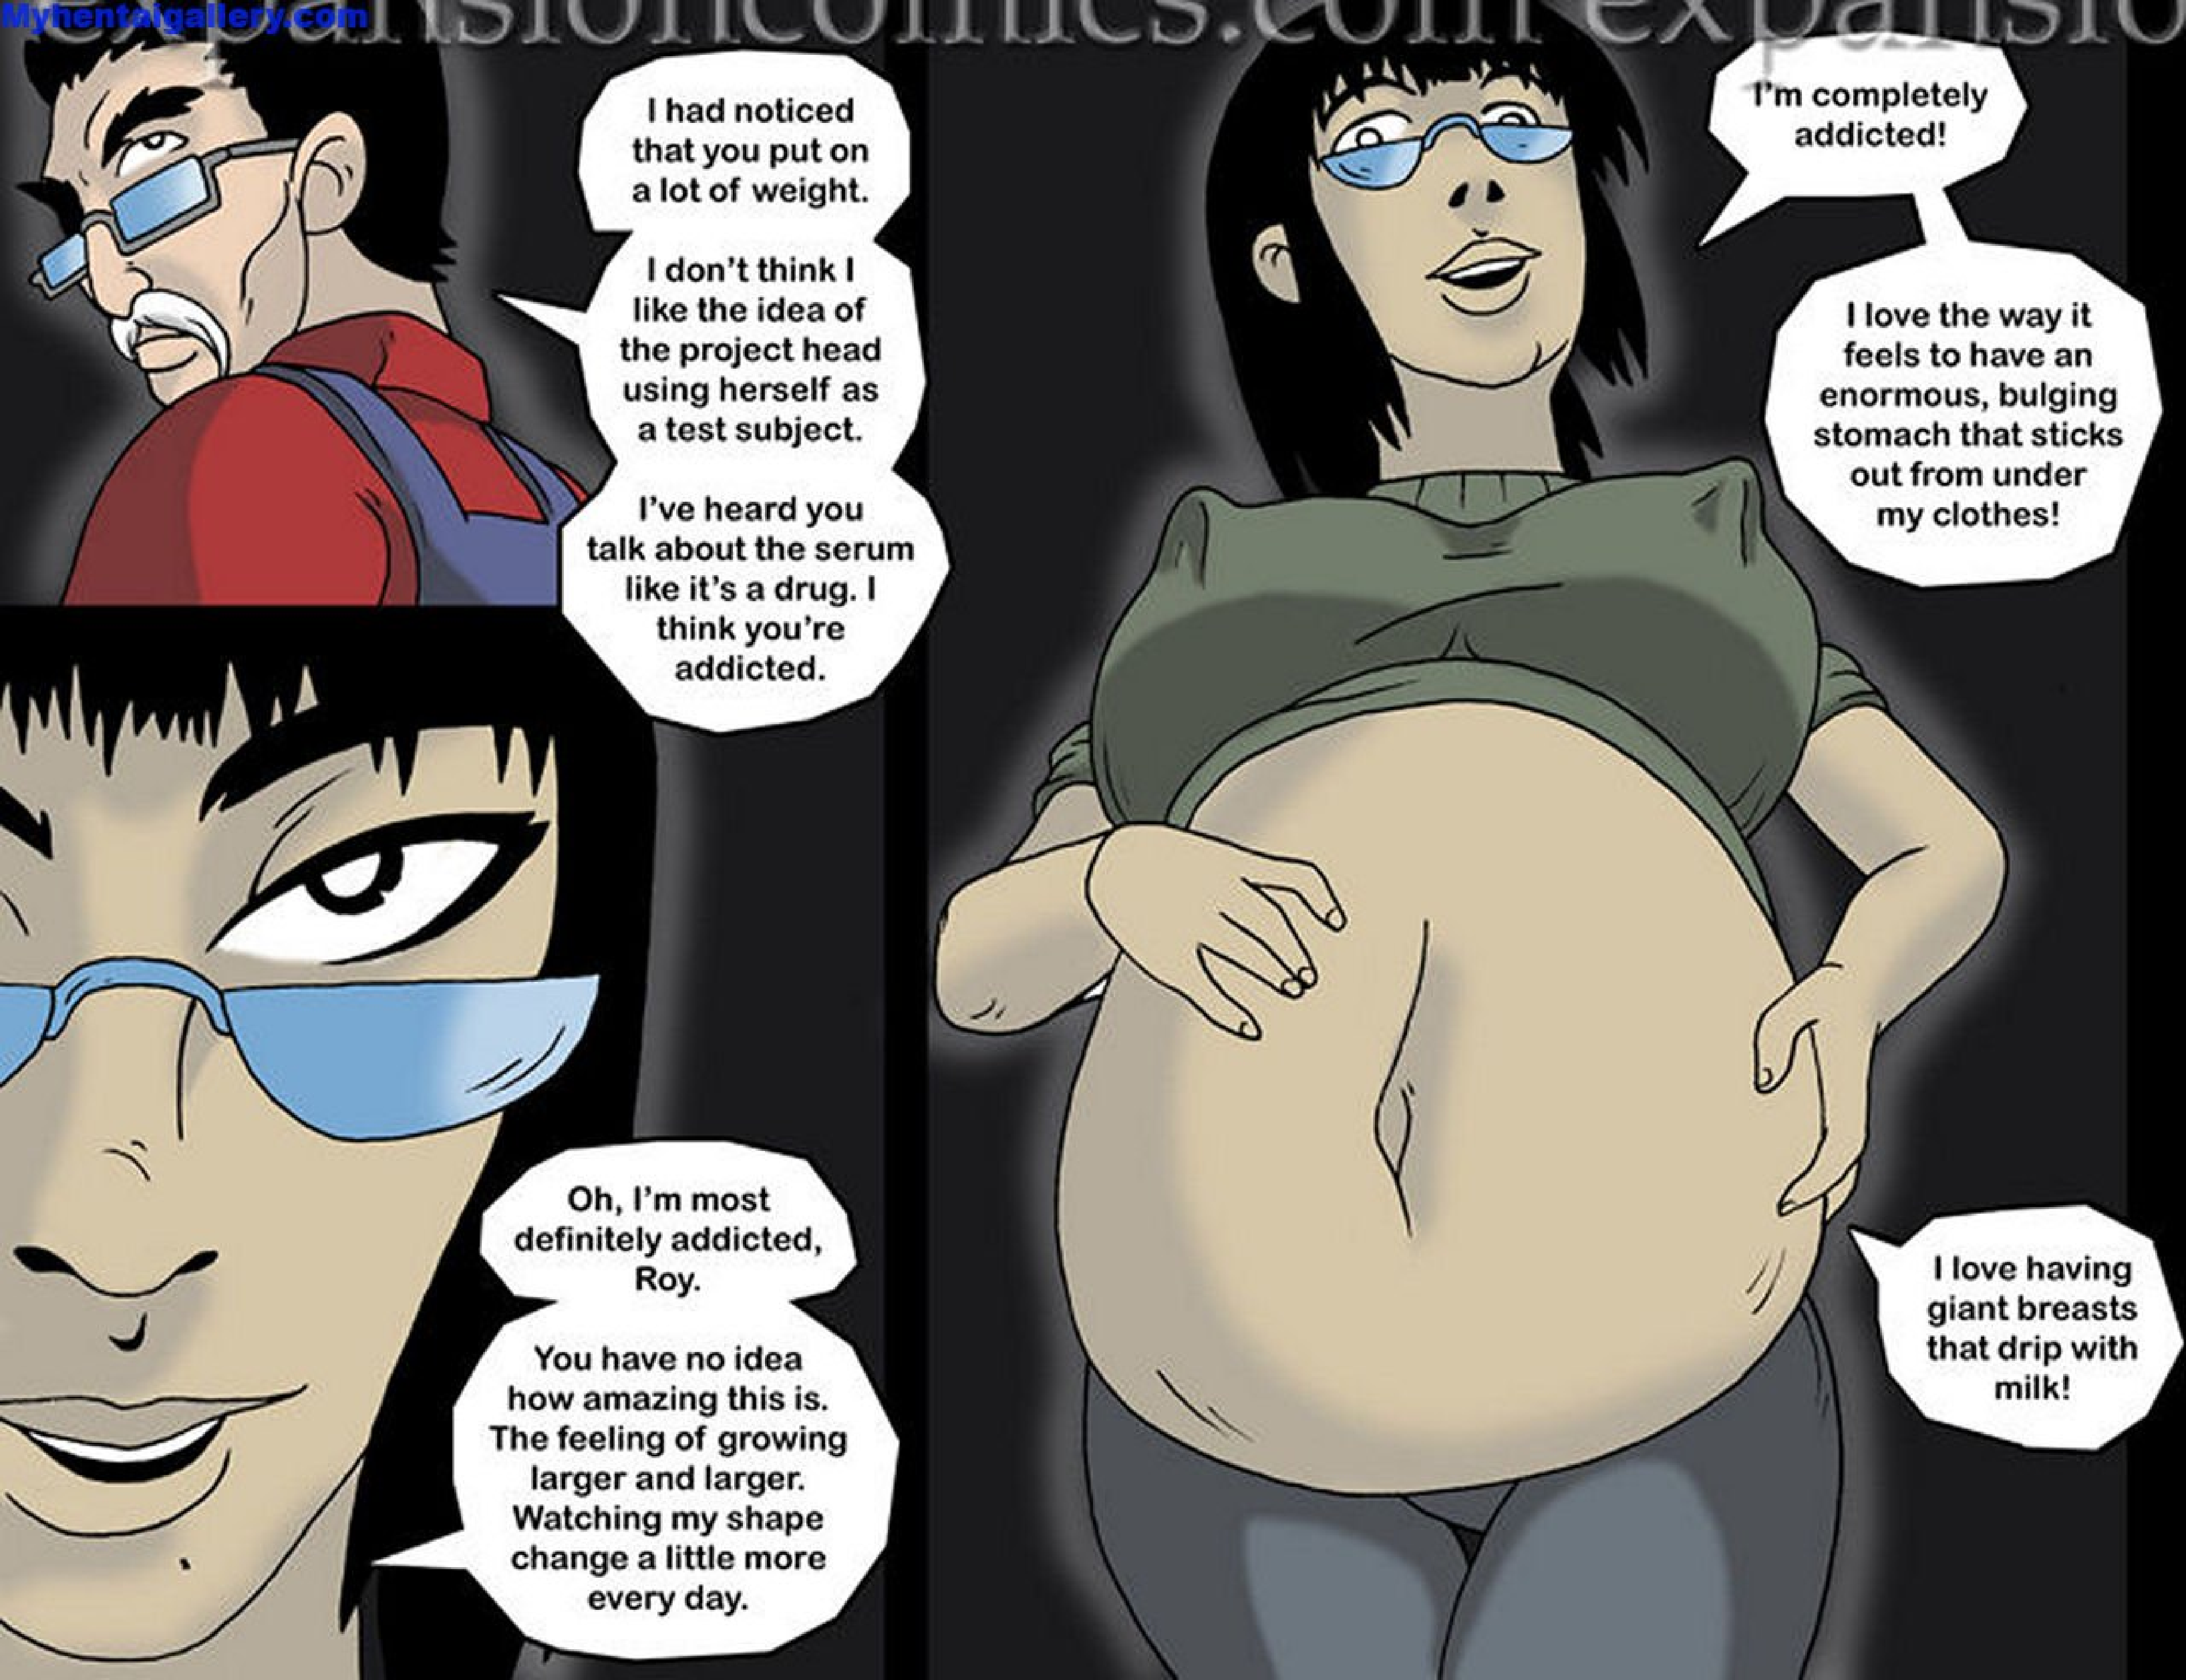

You don't need to worry about that. Haven't I returned all the other girls to their original state before we released them?

No one is getting hurt, Roy. Alice is just responding incredibly well to the treatment. She's in complete bliss!

You can tell just by looking at her.

Besides, I'm using the same procedure on myself. It's 100% safe, and I must say the results so far are amazing!

I had noticed that you put on a lot of weight.

I don't think I like the idea of the project head using herself as a test subject.

I've heard you talk about the serum like it's a drug. I think you're addicted.

I'm completely addicted!

I love the way it feels to have an enormous, bulging stomach that sticks out from under my clothes!

Oh, I'm most definitely addicted, Roy.

You have no idea how amazing this is. The feeling of growing larger and larger. Watching my shape change a little more every day.

I love having giant breasts that drip with milk!

I feel sexy, Roy.

And the more
of the formula
I take the more
sexy I feel!

Don't you
find me
attractive?

My hips are
wide and my
butt is huge and
soft. Perfect for
grabbing onto!

You've been
skeptical since
the beginning, Roy.
But I can put
your mind to
ease.

let's Fuck

Knock it off
Donna!

I won't fall
your tricks or
let you distract
me from what's
goin on!

Besides, I don't
even like big
women!

Hmm, that man is much too difficult for his own good.

But he'll come around eventually.

He may not enjoy my inflated stomach, but no man can resist an enormous pair of tits, and soon mine will be too big for him to ignore!

These extra strength enhancement pills will allow me to gain weight just in the chest for the next few days.

Combined with the hormone and weight gain formula I'm already taking, my breast should get huge!

Roy, doesn't understand, but I know you do Alice.

The joy of being a huge, inflated, sexy woman is just too good to pass up!

You understand,
Alice.

You're just
like me.

You've given yourself
up to pleasure, and now
you want nothing more
then to get larger
and larger!

In a way I
wish we could
trade places, but
unfortunately I can't
allow myself to get as
big as you're going
to become.

Roy thinks this
project is all about
lactation and milk
production, but actually
we're creating the formula
to turn any woman into the
perfect inflated sex
doll.

And you, Alice, are
the perfect subject!

**...to be
continued!**
