

CHAPTER VI: MY HOLE!

And just like that. Without any warning... She pushes me to fall to my demise! Even though the chastity cage is putting me through a living hell... All my senses now focus on the fact that I am falling towards what would surely be my **FINAL DESTINATION!** ♥

Although my fall would take but a second, the entire thing plays in slow motion in my mind. As I gradually see the inner lining of the hole growing closer and closer. And the concrete floor disappears out of line of view.

This is it. My final moments on this earth. As I disappear into this hole. **My hole! My home!**

I feel no fear. I barely even pay attention to the pain of my cage. At this very moment, I feel a strange sense of... Peace. And.... Of course.... **I'm horny as fuck!** A **loser** like me has no place in the real world. My Goddess is simply kind enough to put me exactly where a useless **piece of shit** like me belongs!

I'm about to disappear... Not that anyone will care. And I'm so happy! ♥

Mgh??

POCK!!!

You sure it isn't stuck?

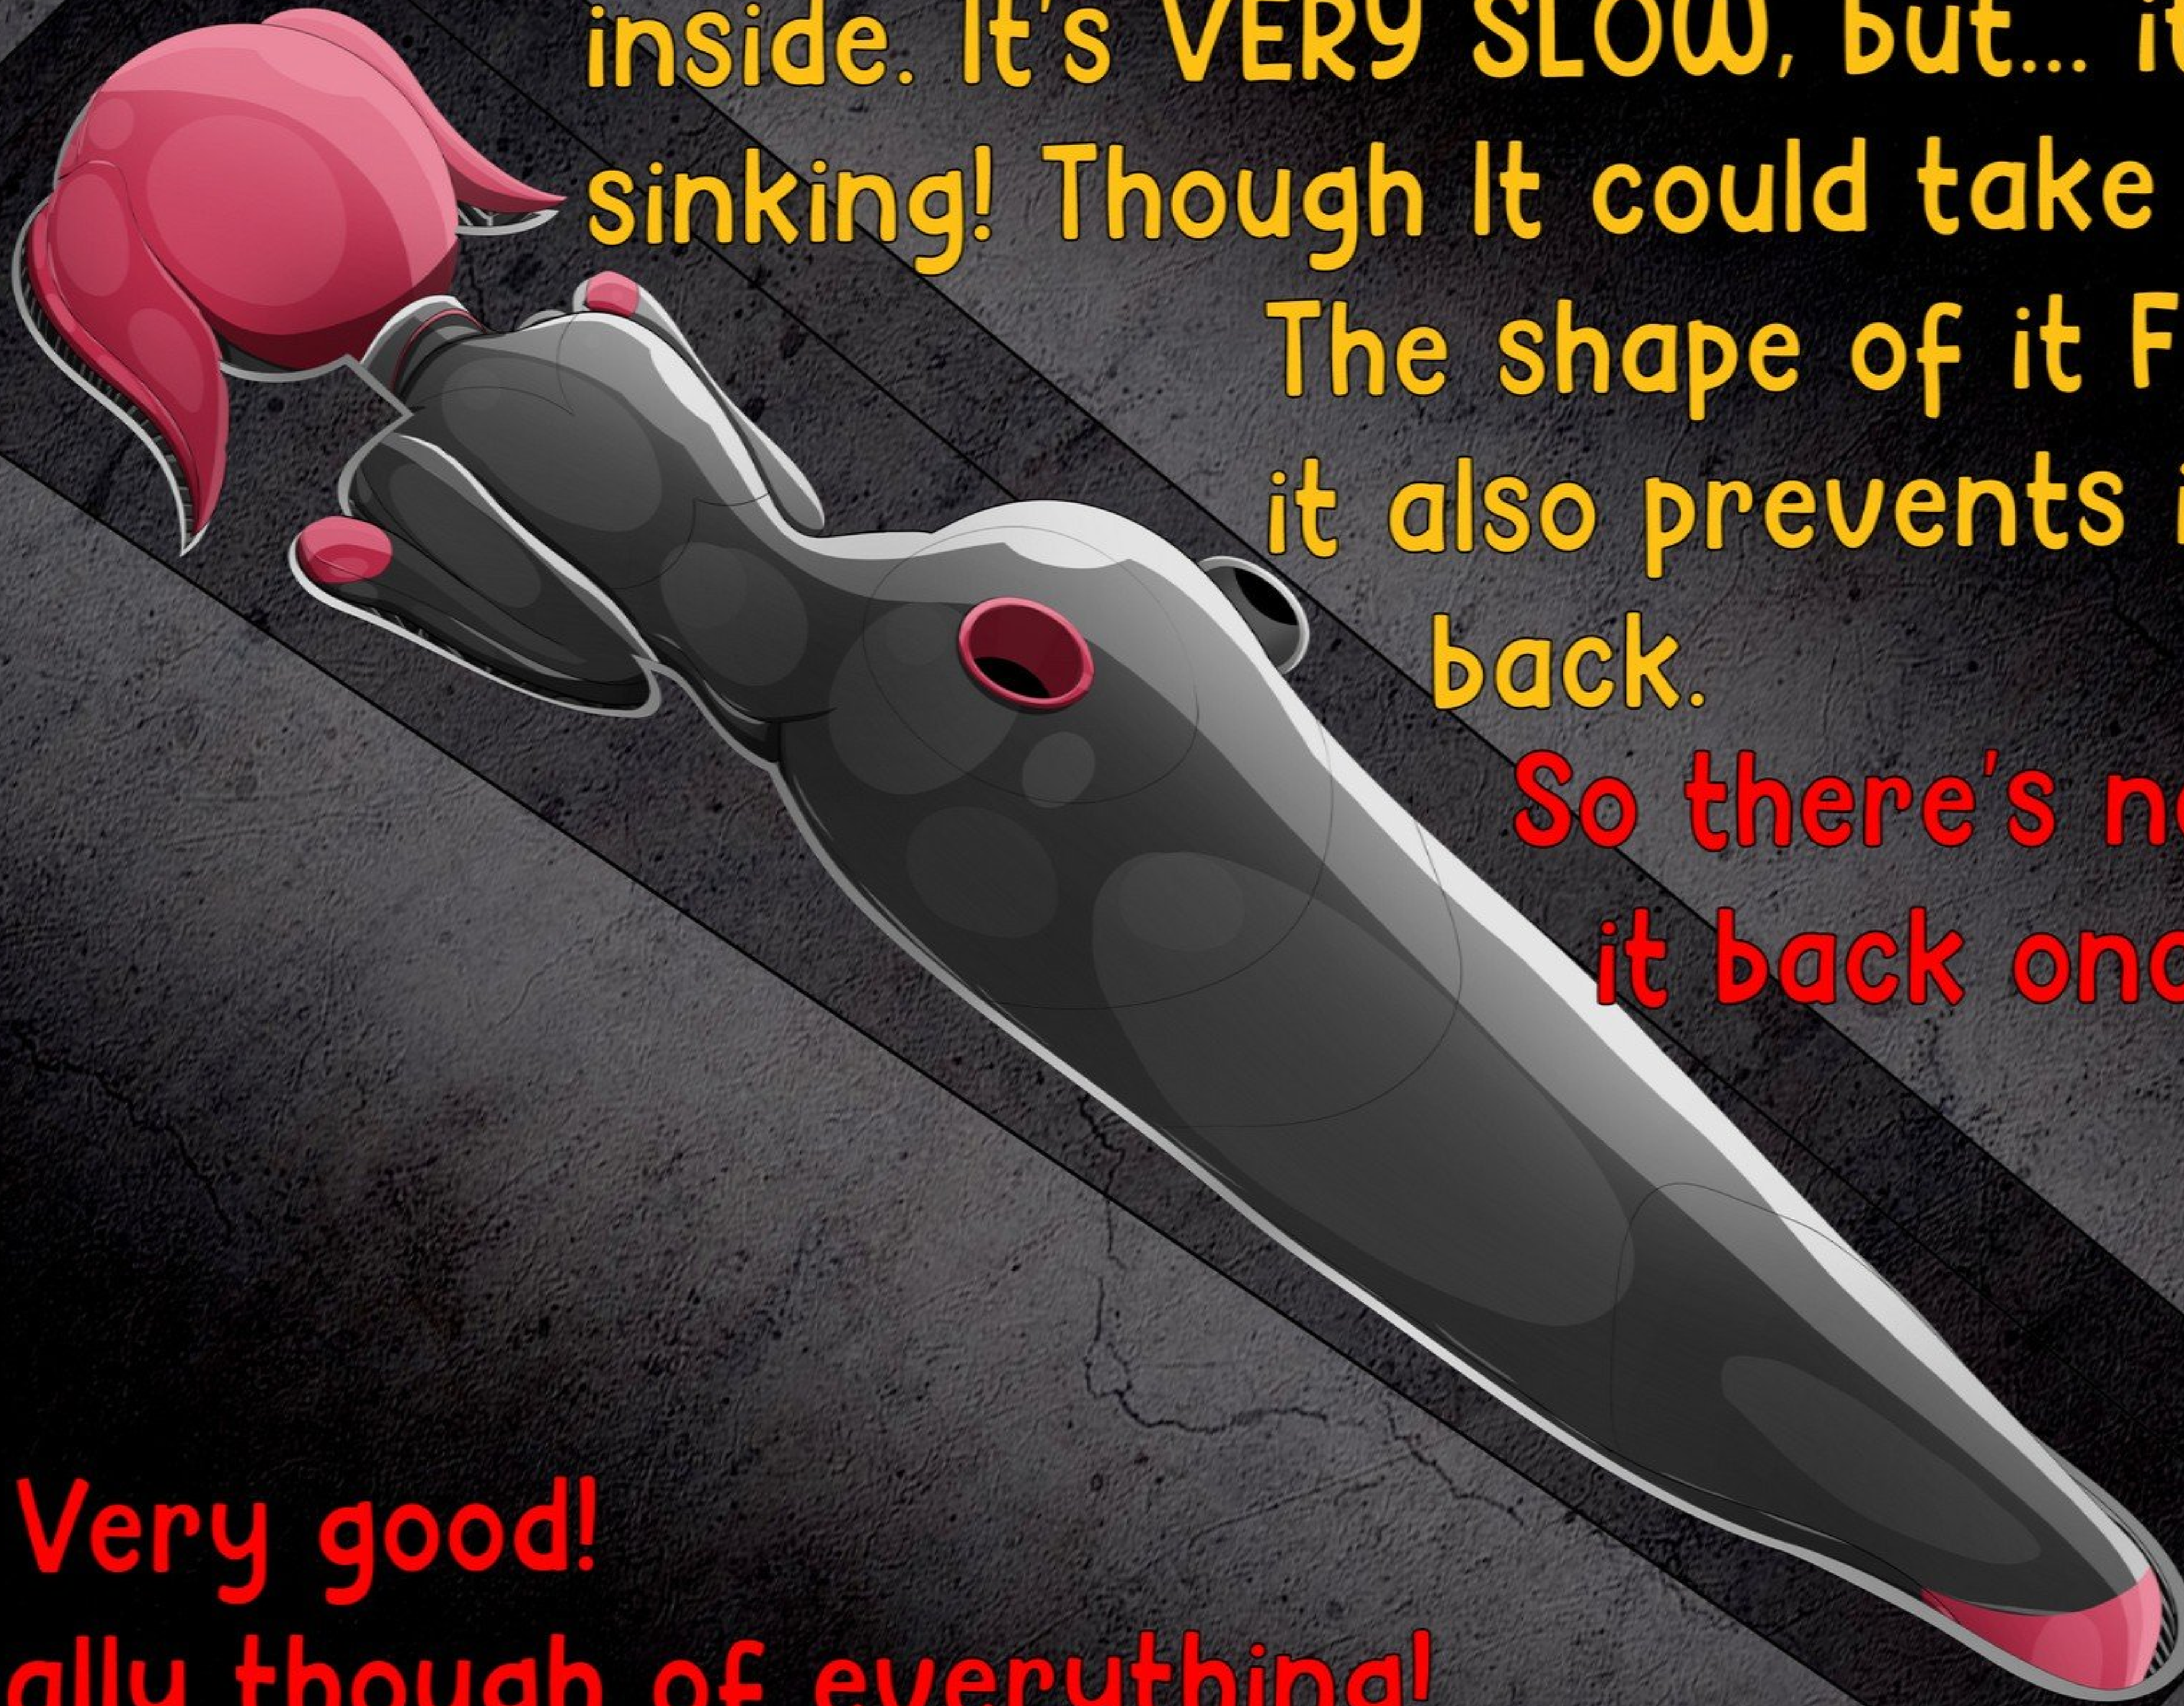

Oh! It's not! The hole's rubber seams are simply doing their job slowly SUCKING him inside. It's VERY SLOW, but... its definitely sinking! Though it could take a few hours!

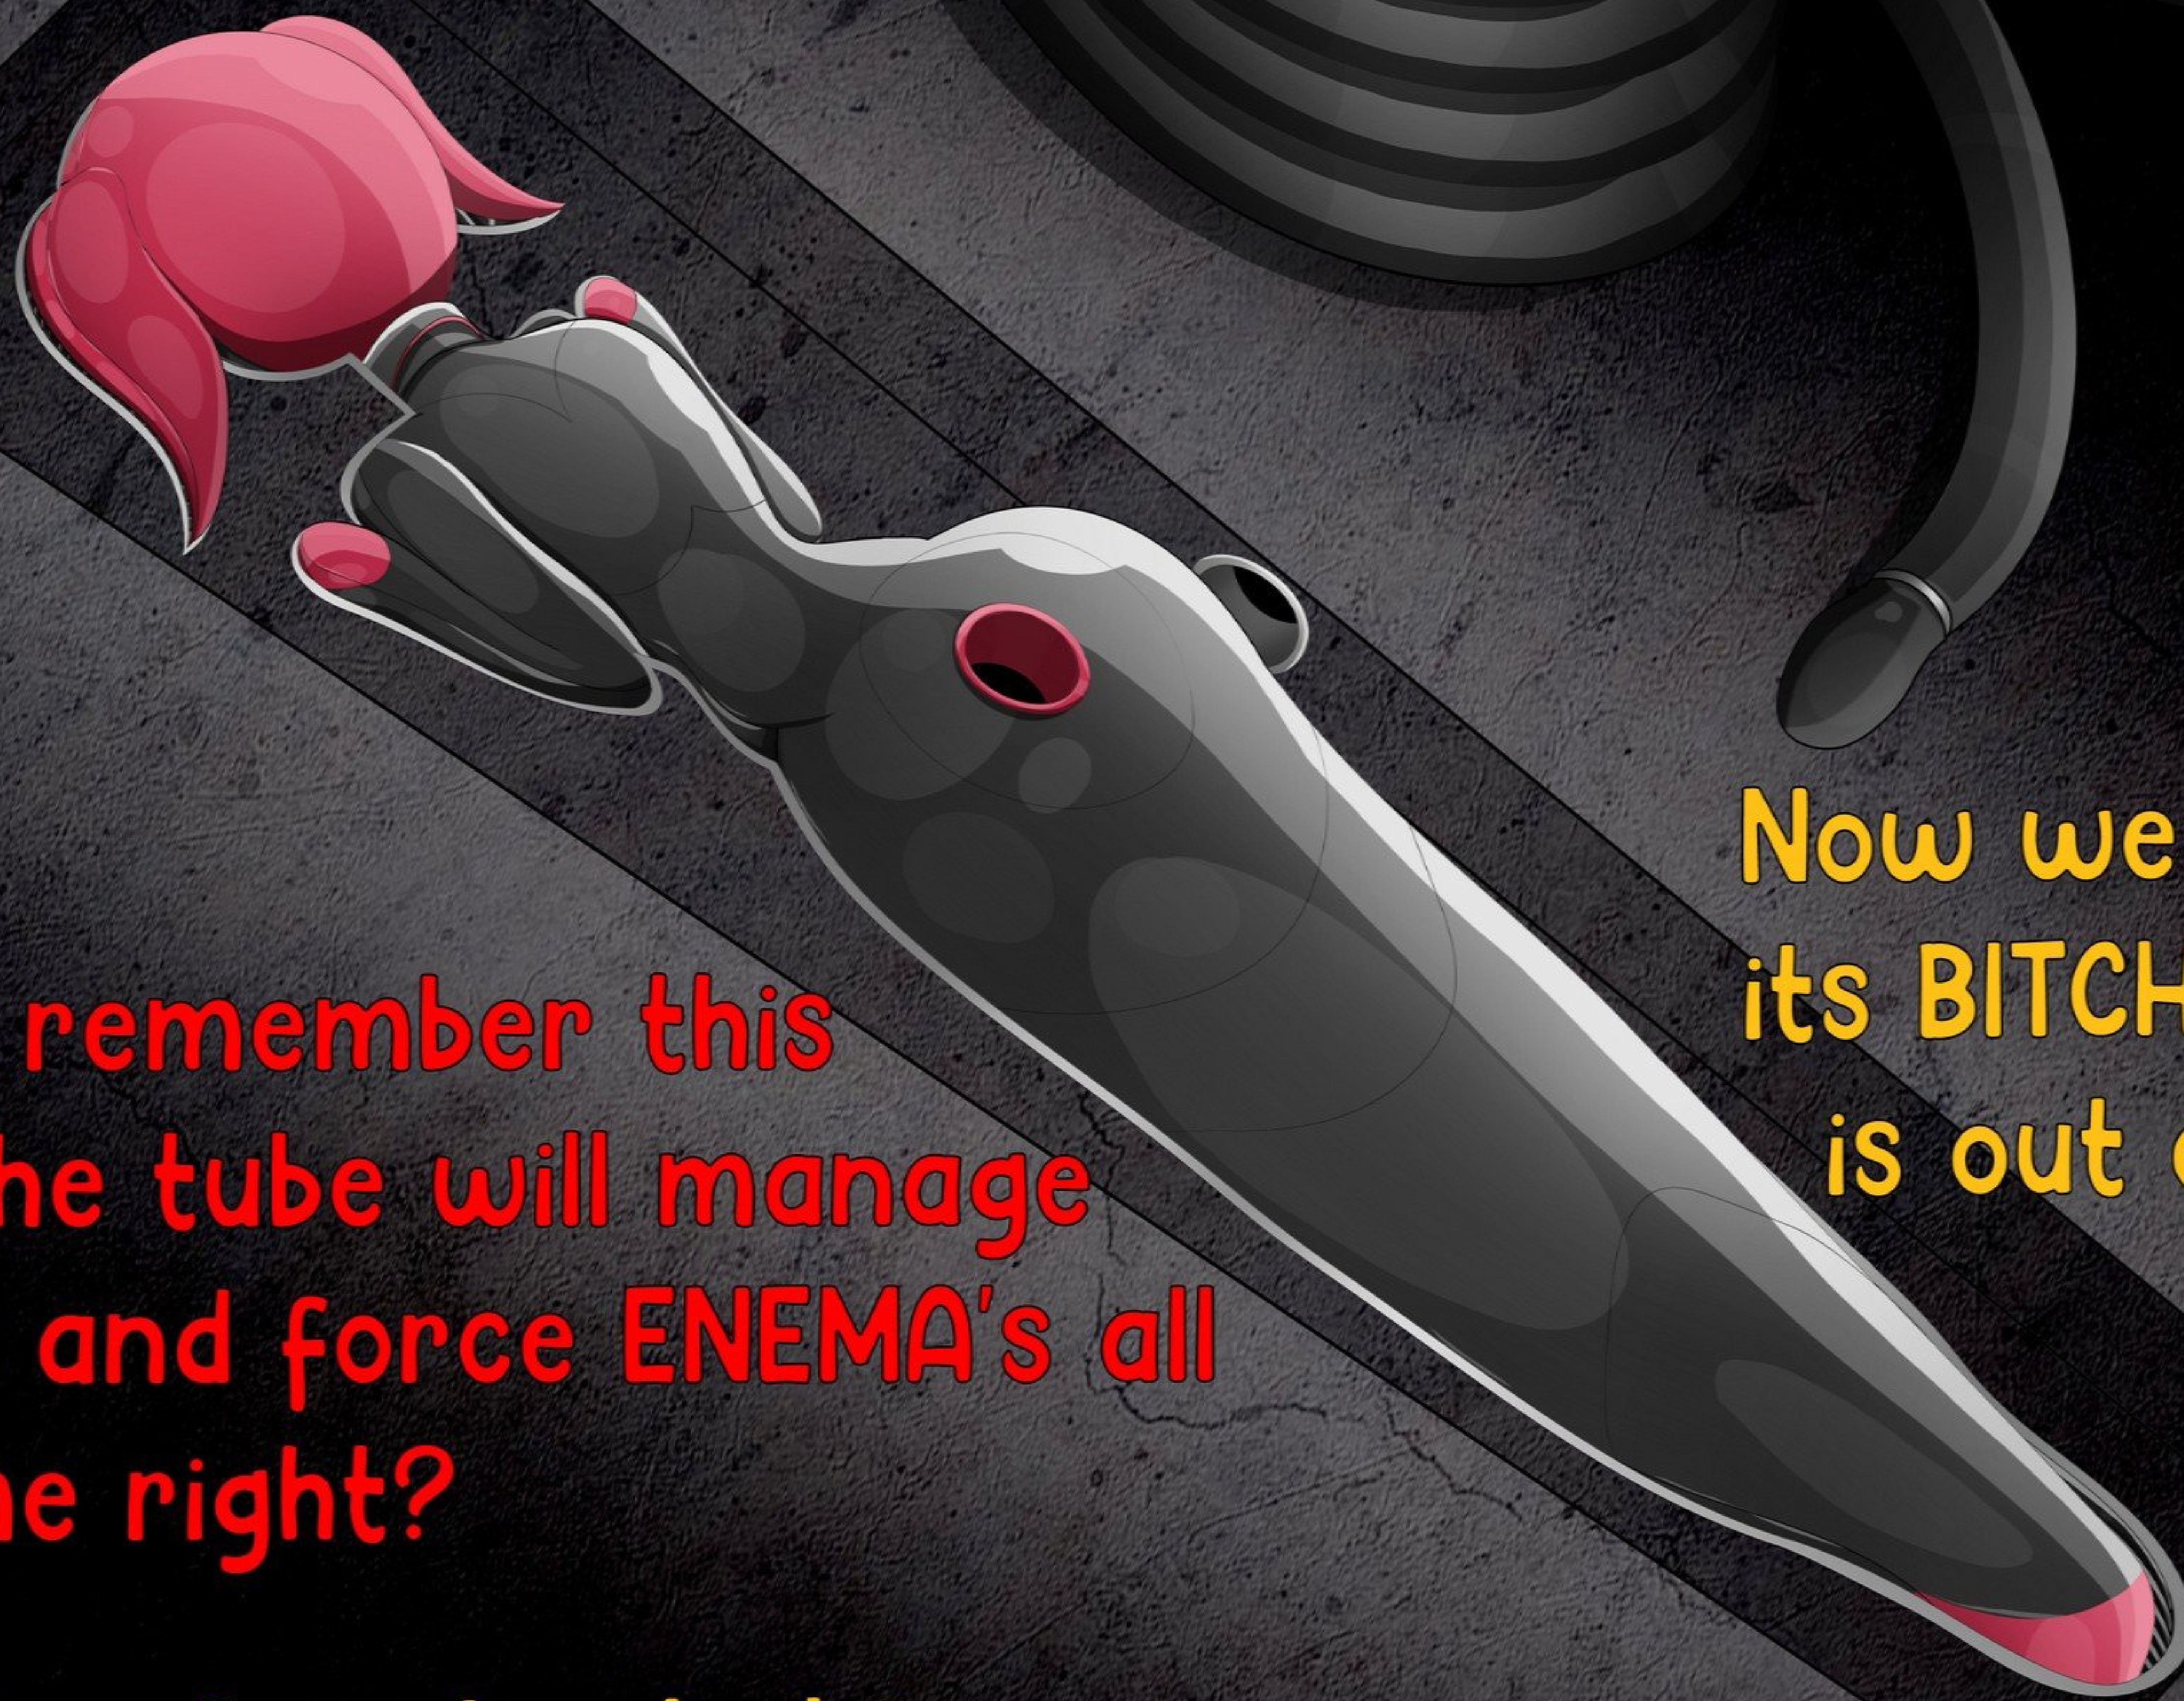

The shape of it FORCES it IN, but it also prevents it from going back.

So there's no way to get it back once it goes down?

Exactly!

Mmm! Very good!
You really thought of everything!
So what's the next step?

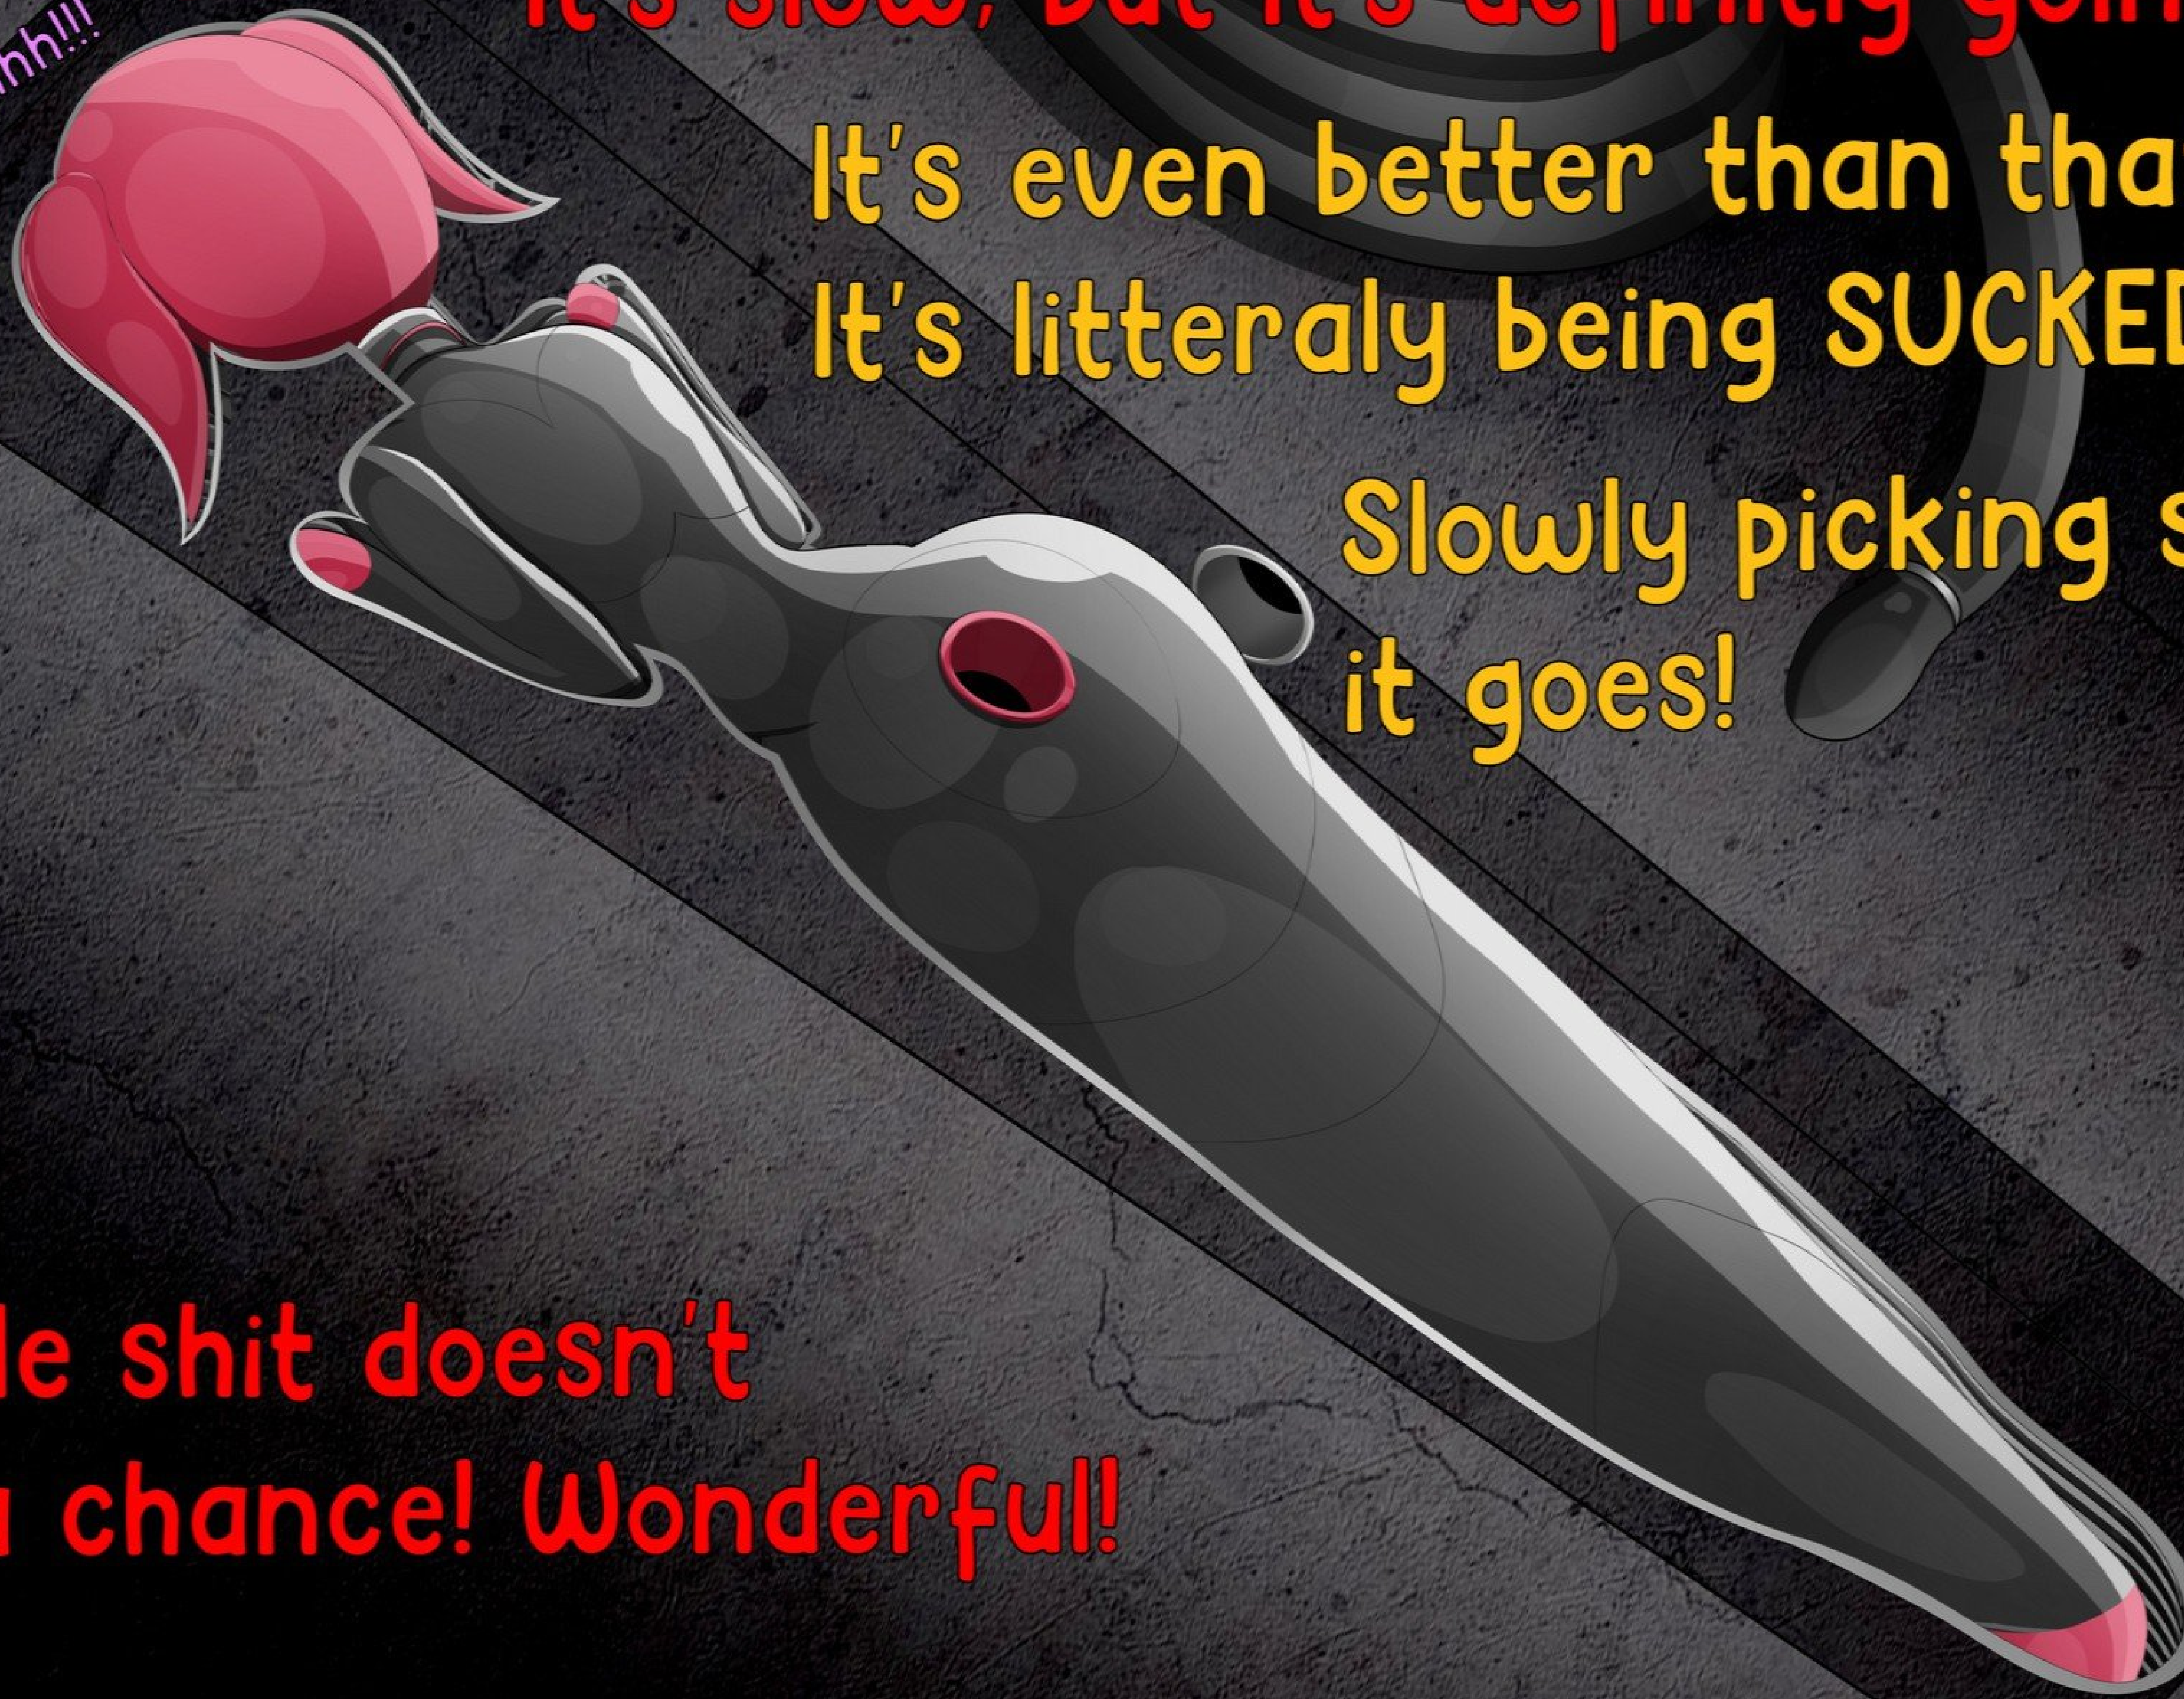

Right. I remember this part. The tube will manage its shit and force ENEMA's all the time right?

Now we have to PLUG its BITCH hole before it is out of reach.

Yep! It will make its life even more miserable. But it's also necessary to keep it healthy!

Nghhh!!!

Oh yeah! I can see it going deeper now.
It's slow, but it's definitely going in!

It's even better than that!
It's literally being SUCKED in!

Slowly picking speed the deeper
it goes!

The little shit doesn't
stand a chance! Wonderful!

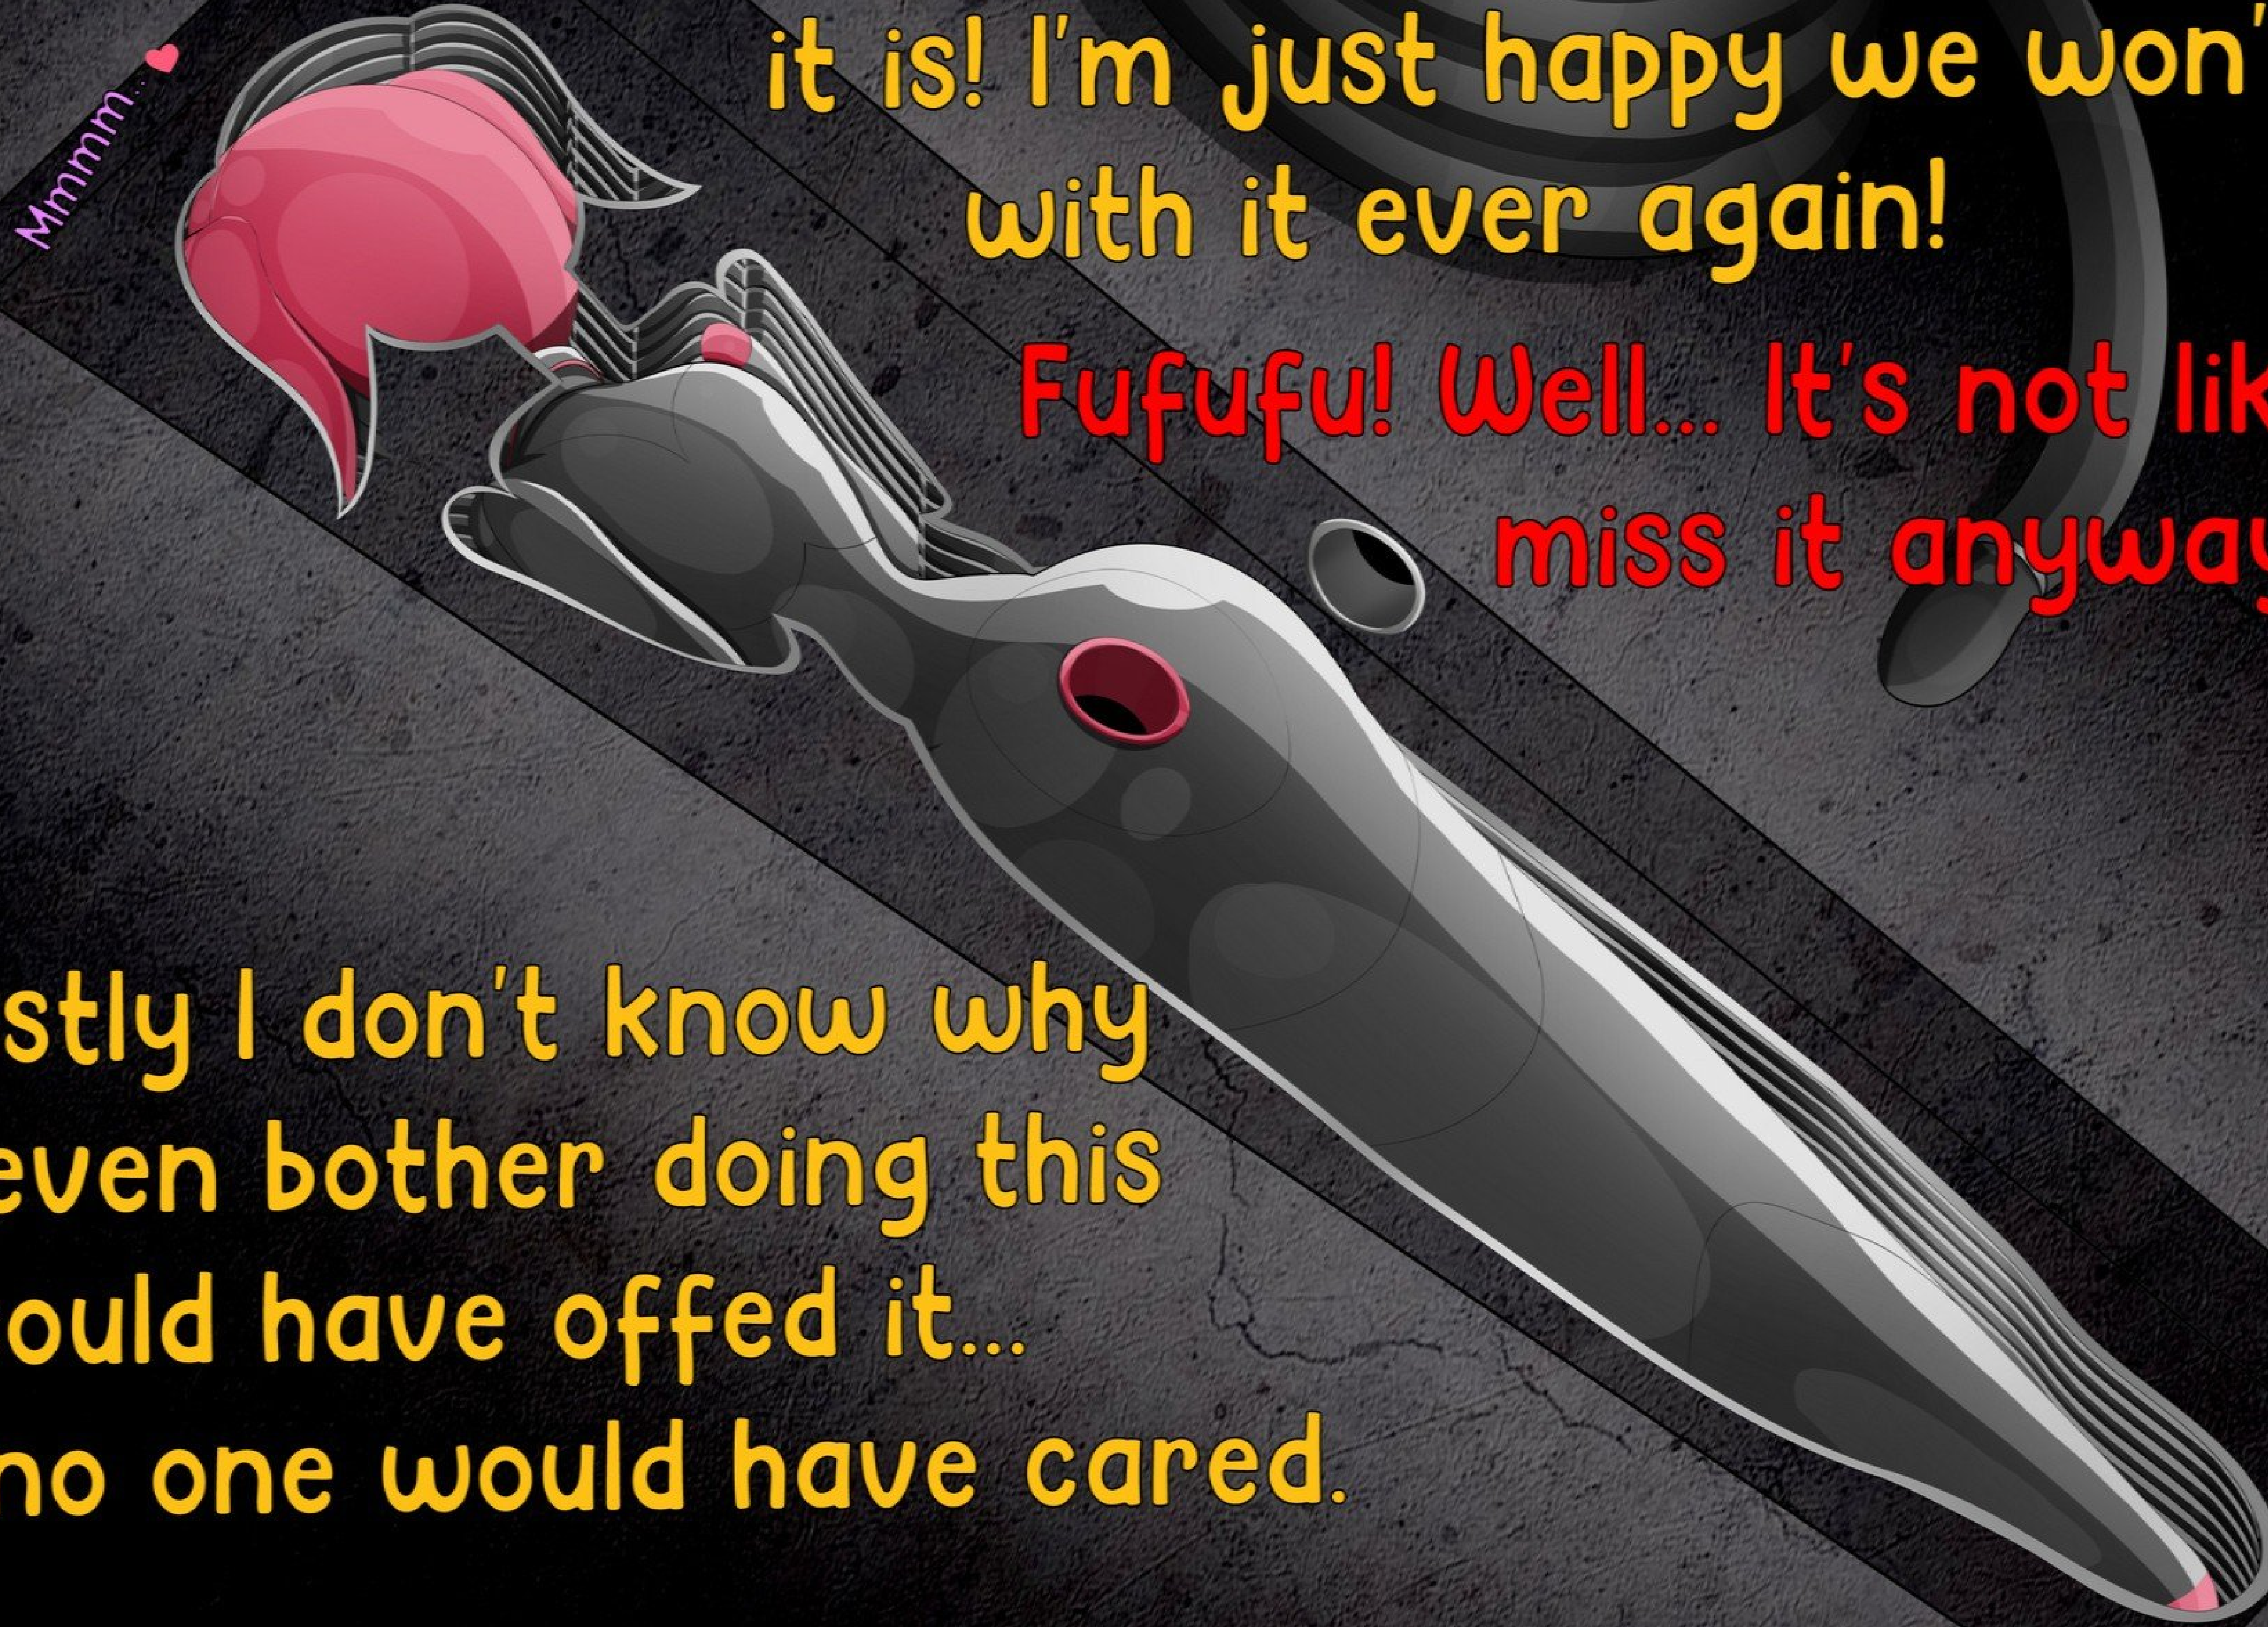

And our little PAIN SLUT is clearly enjoying the ride!

Well it did beg for it like the good little LOSER it is! I'm just happy we won't have to deal with it ever again!

Fufufu! Well... It's not like anyone will miss it anyways!

Honestly I don't know why you even bother doing this We could have offed it... and no one would have cared.

That's right. And that's the very reason I want this for it! He's the PERFECT loser. Killing it would be to kind!

Fufufu! It's almost gone!
So Trash... Are you happy?

Right... I think It's time to
PLUG IT before it's too late!

MEHHHHHHH!!!

POP!

LOL. That must have been
rough! You inserted it DRY!

Oh! I'm not complaining!
Not complaining at all! In fact...
I think that makes you... HOT!

Mmmm... Well it will be a few hours before
it reaches the bottom. So...

Well. Since you did ALL of this for me... I think a BIG reward is in order!

Mmmm... You better. He's not the only one who wants to get its ass fucked!

Fufufu! Of course.
I'll give you a good hard fuck!
Promise!

I'm really horny tonight!

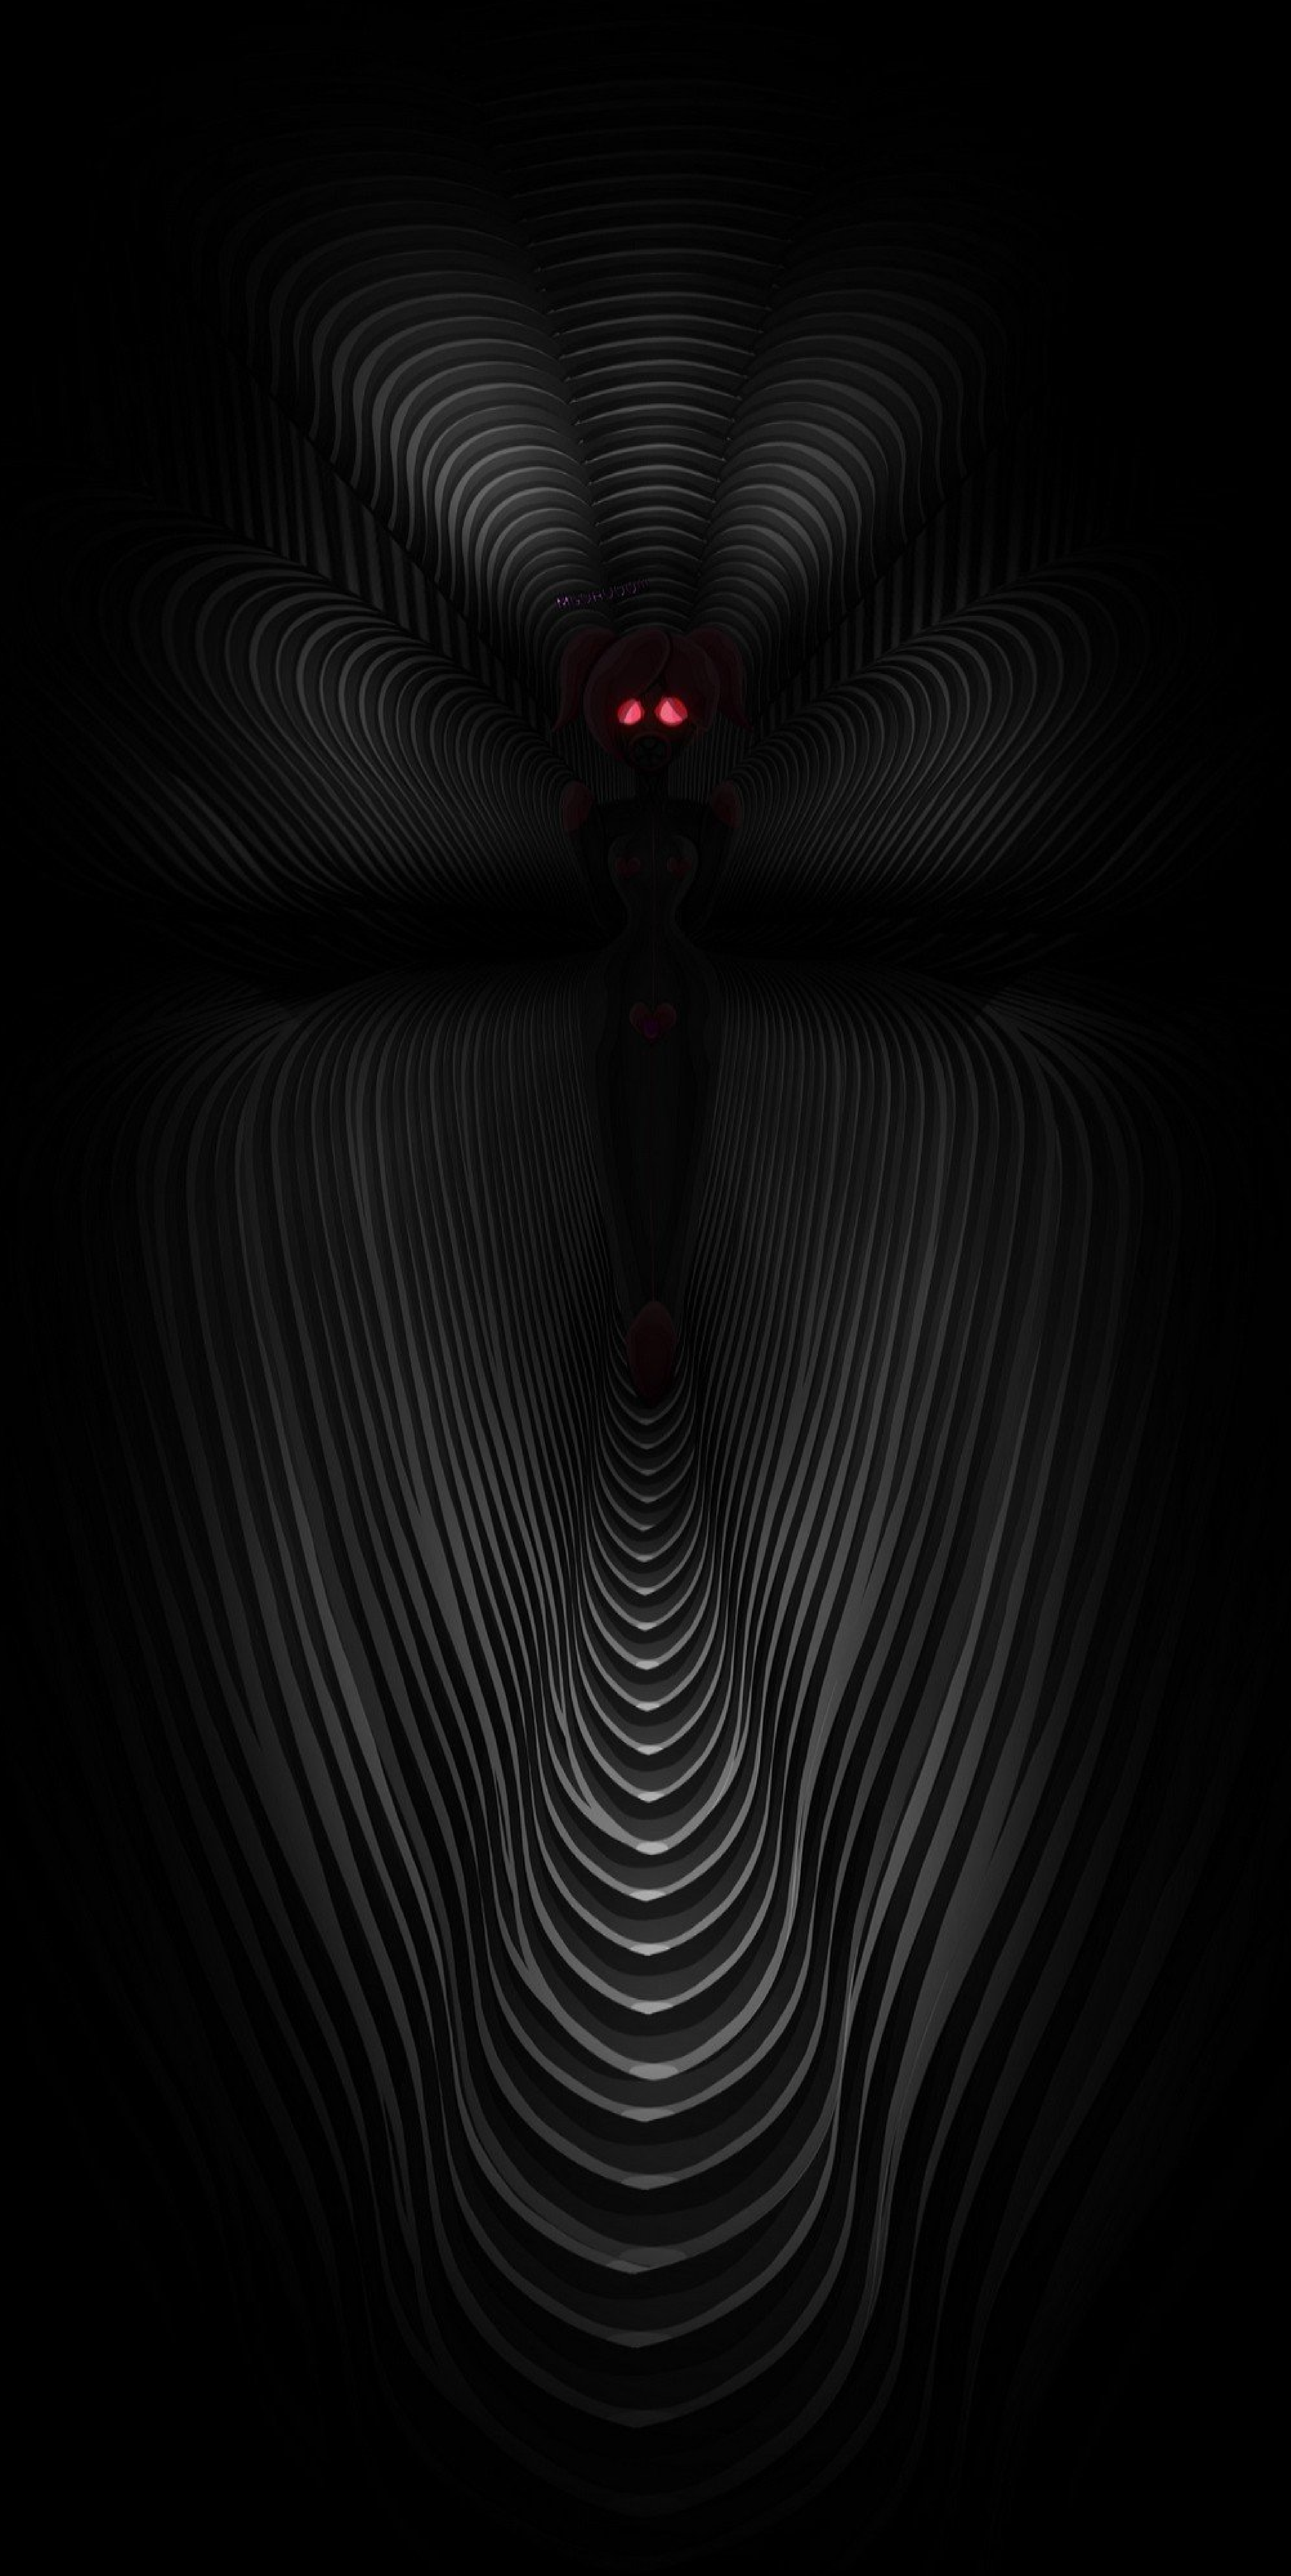

We'll proceed with the TRASH BURIAL tomorrow morning!

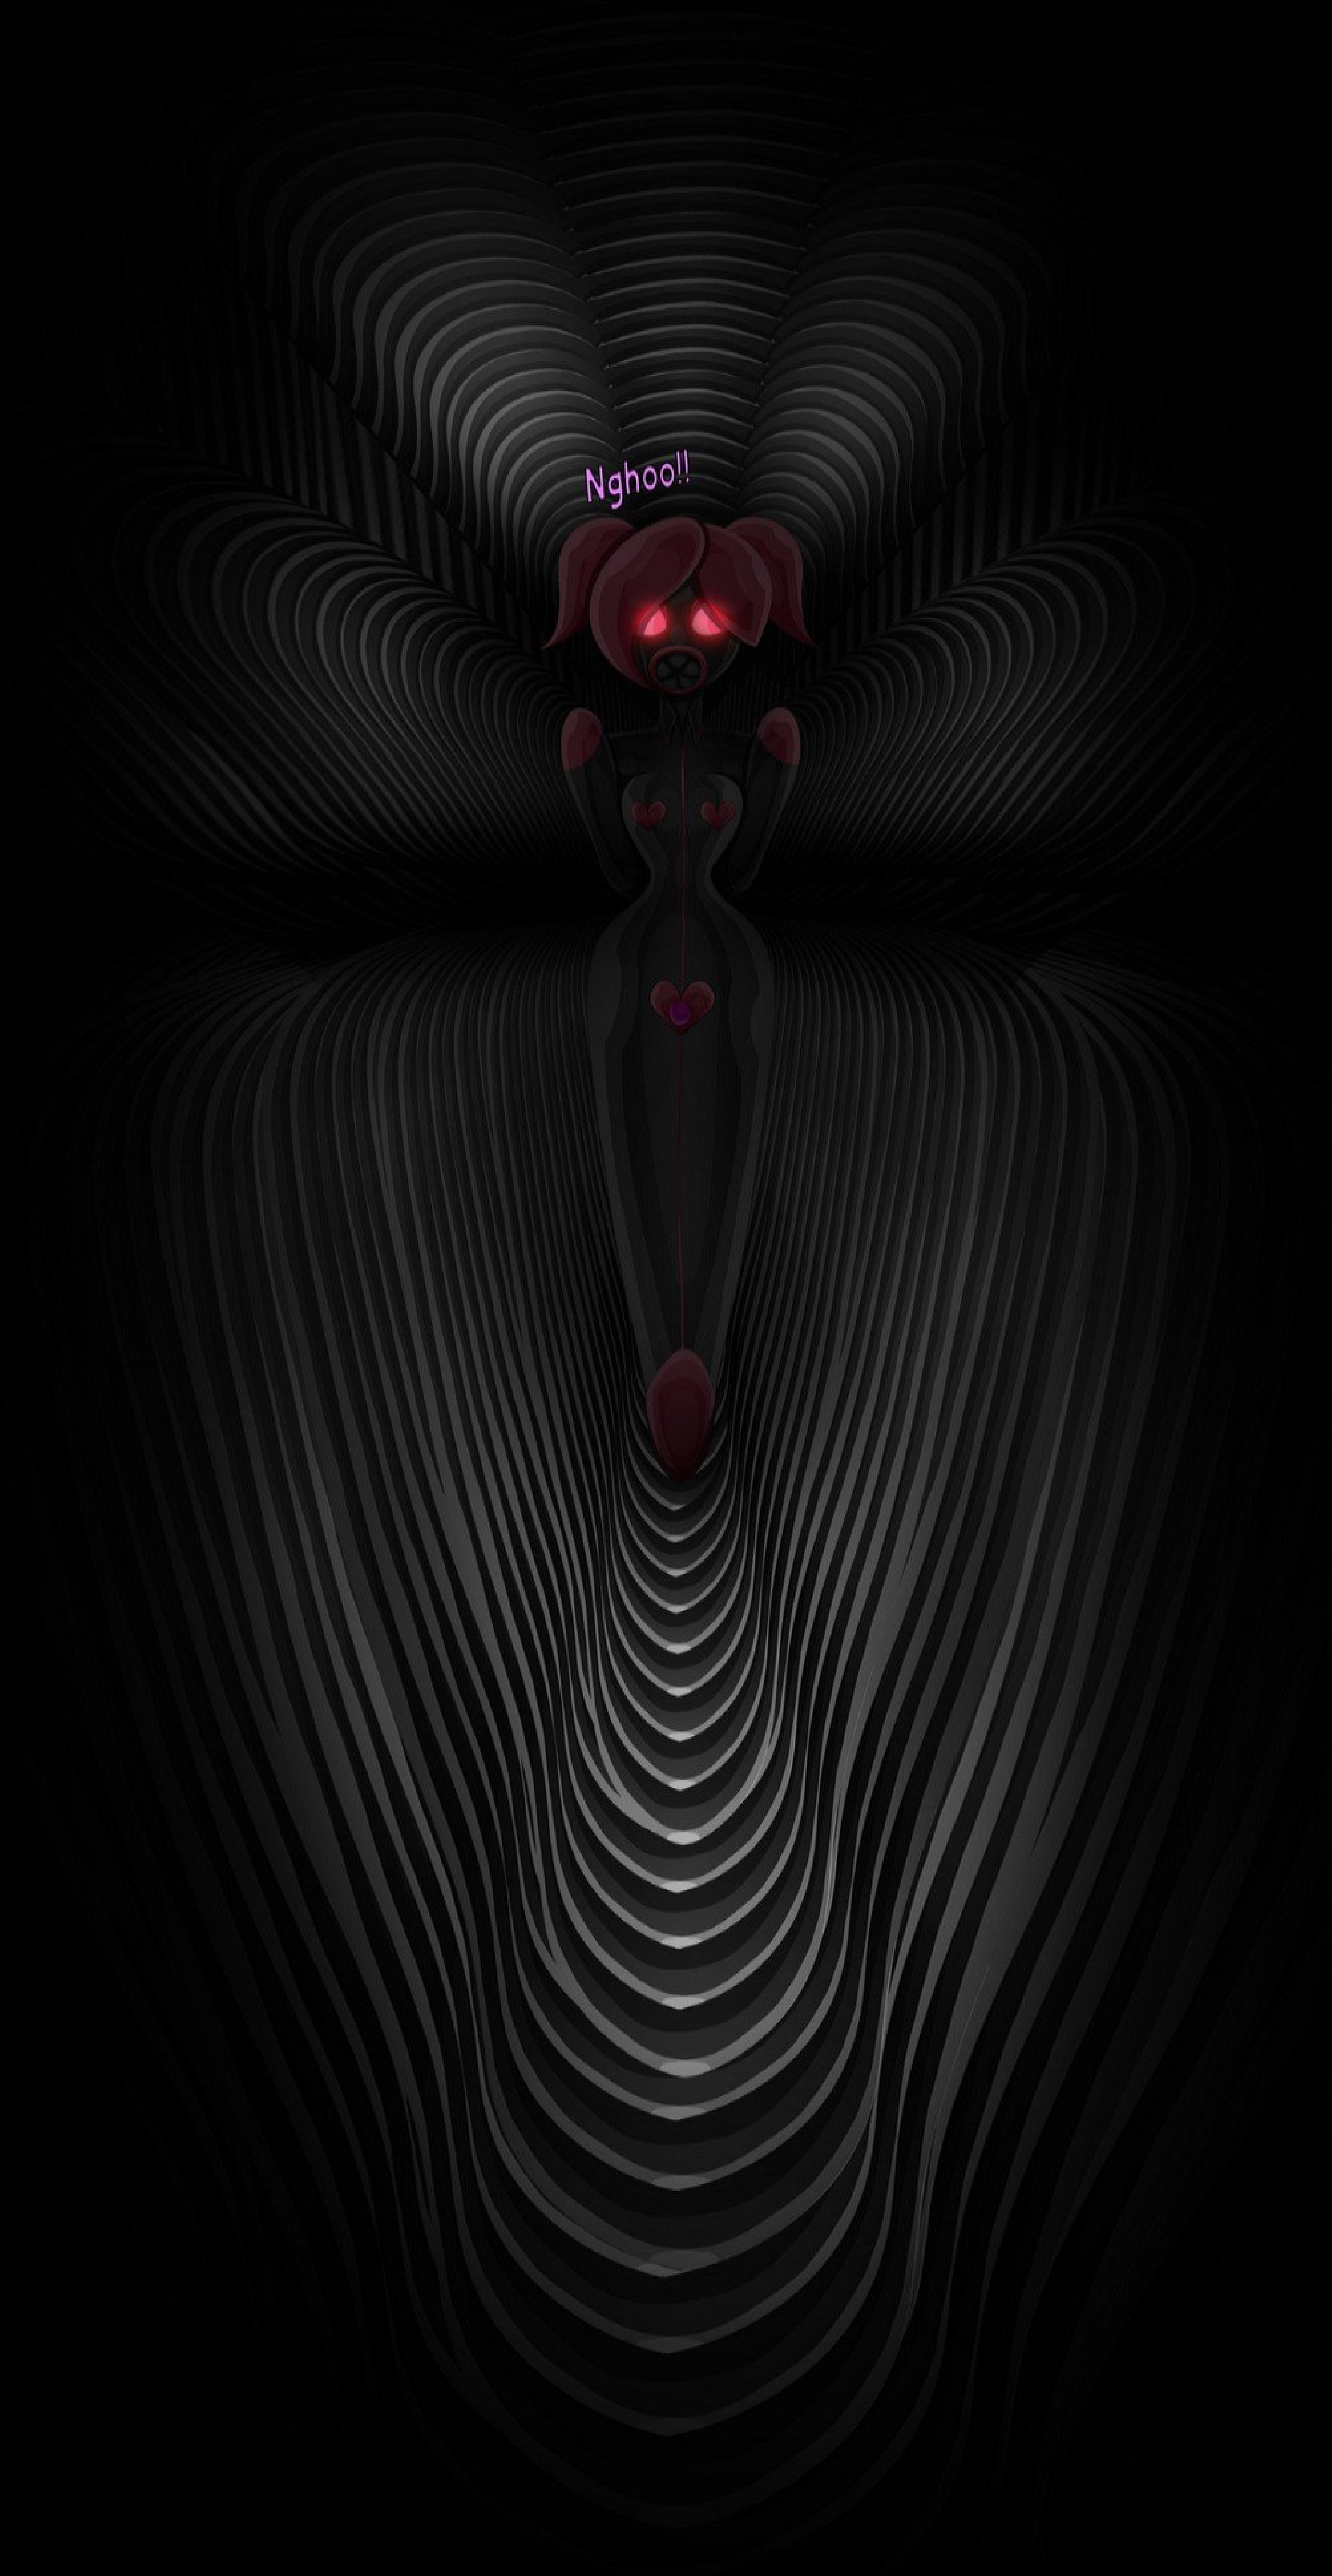

- 5 HOURS LATER -

(Ah! I'm still falling into the hole. It's so dark and quiet. I must be very deep now. And still... I'm falling. Deeper and deeper!)

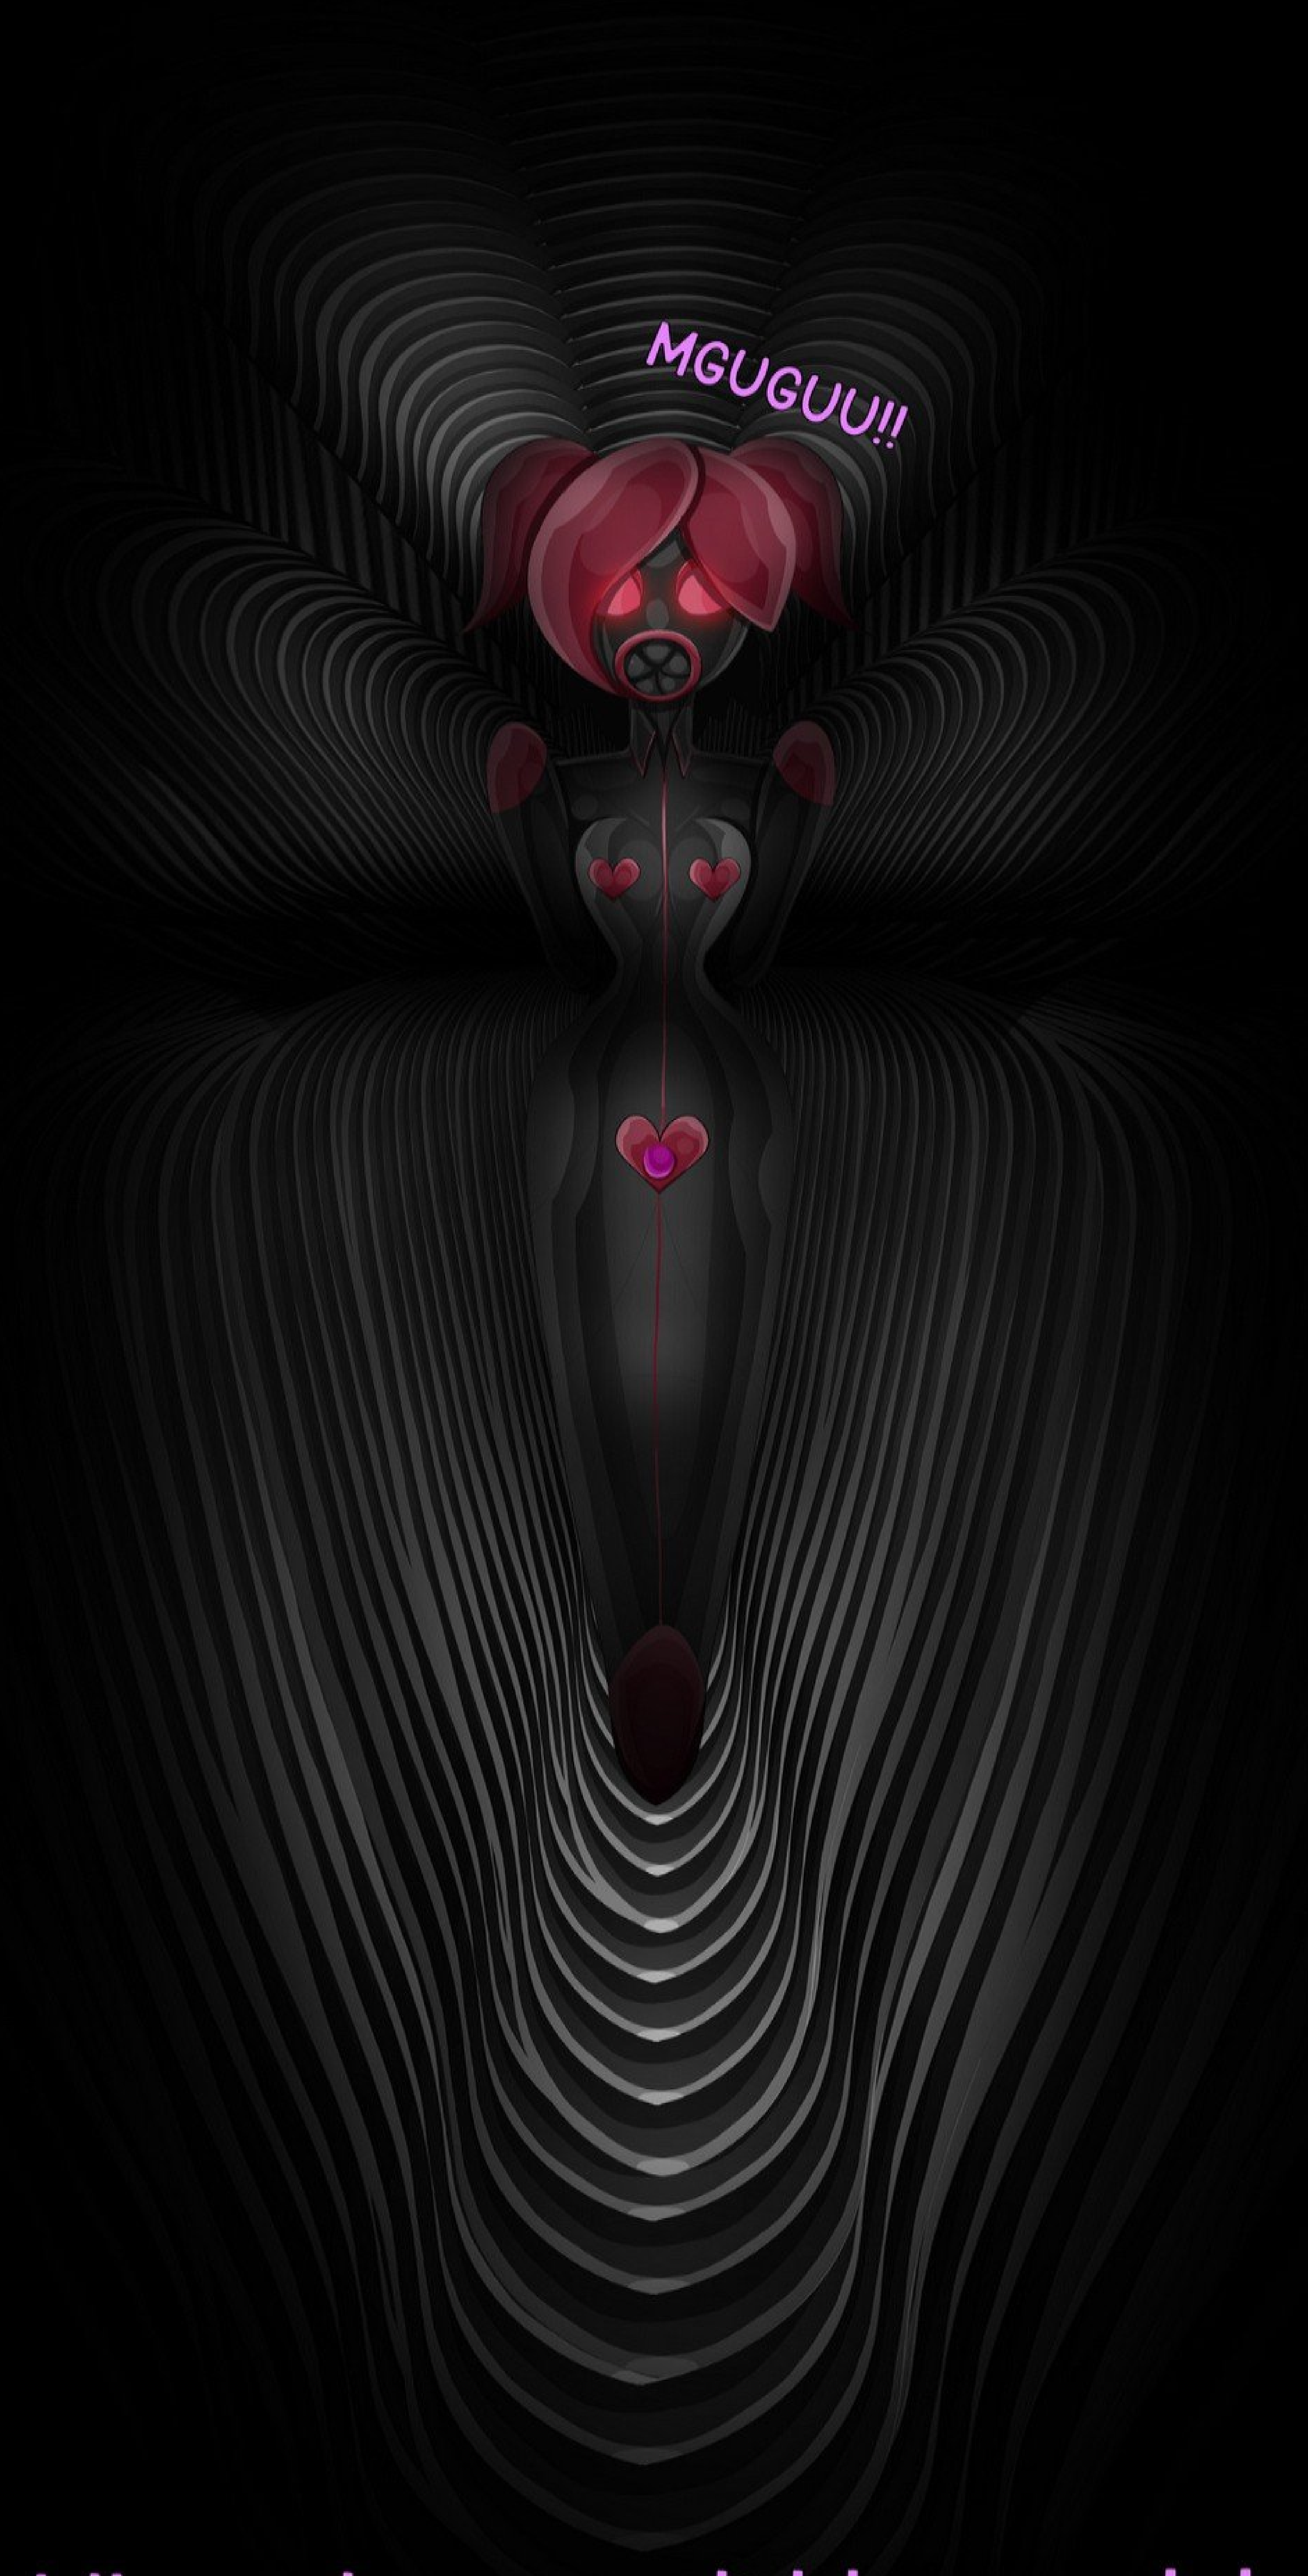

(What a dark and cold place...)

(I scream! I beg! But there is no one to hear my whimpers
in this place. I'm trully alone. Not hearing from my owners
for a few hours, I know I may as well been totally forgotten)

(But there's nothing I can do about it now. My perfect rubber sarcophagus is keeping totally motionless.)

(Never in my wildest dreams did I expect to feel this level of perfect helplessness.
This is exactly what I desired... I begged for this... and yet...)

(A small part of me is still absolutely terrified.
I guess it's my bodie's basic survival instinct kicking in...)

(It seems even a pathetic masochist like me can't escape the
seven stages of grief. The irony being that this sense of
total despair and anxiety is also making me super horny!)

(Still... I've been falling for so long
that I already lost sense of time.)

(But it must have been
a few hours already!)

(Will this sink ever come to
an end?)

(eh? Something is up ahead...)

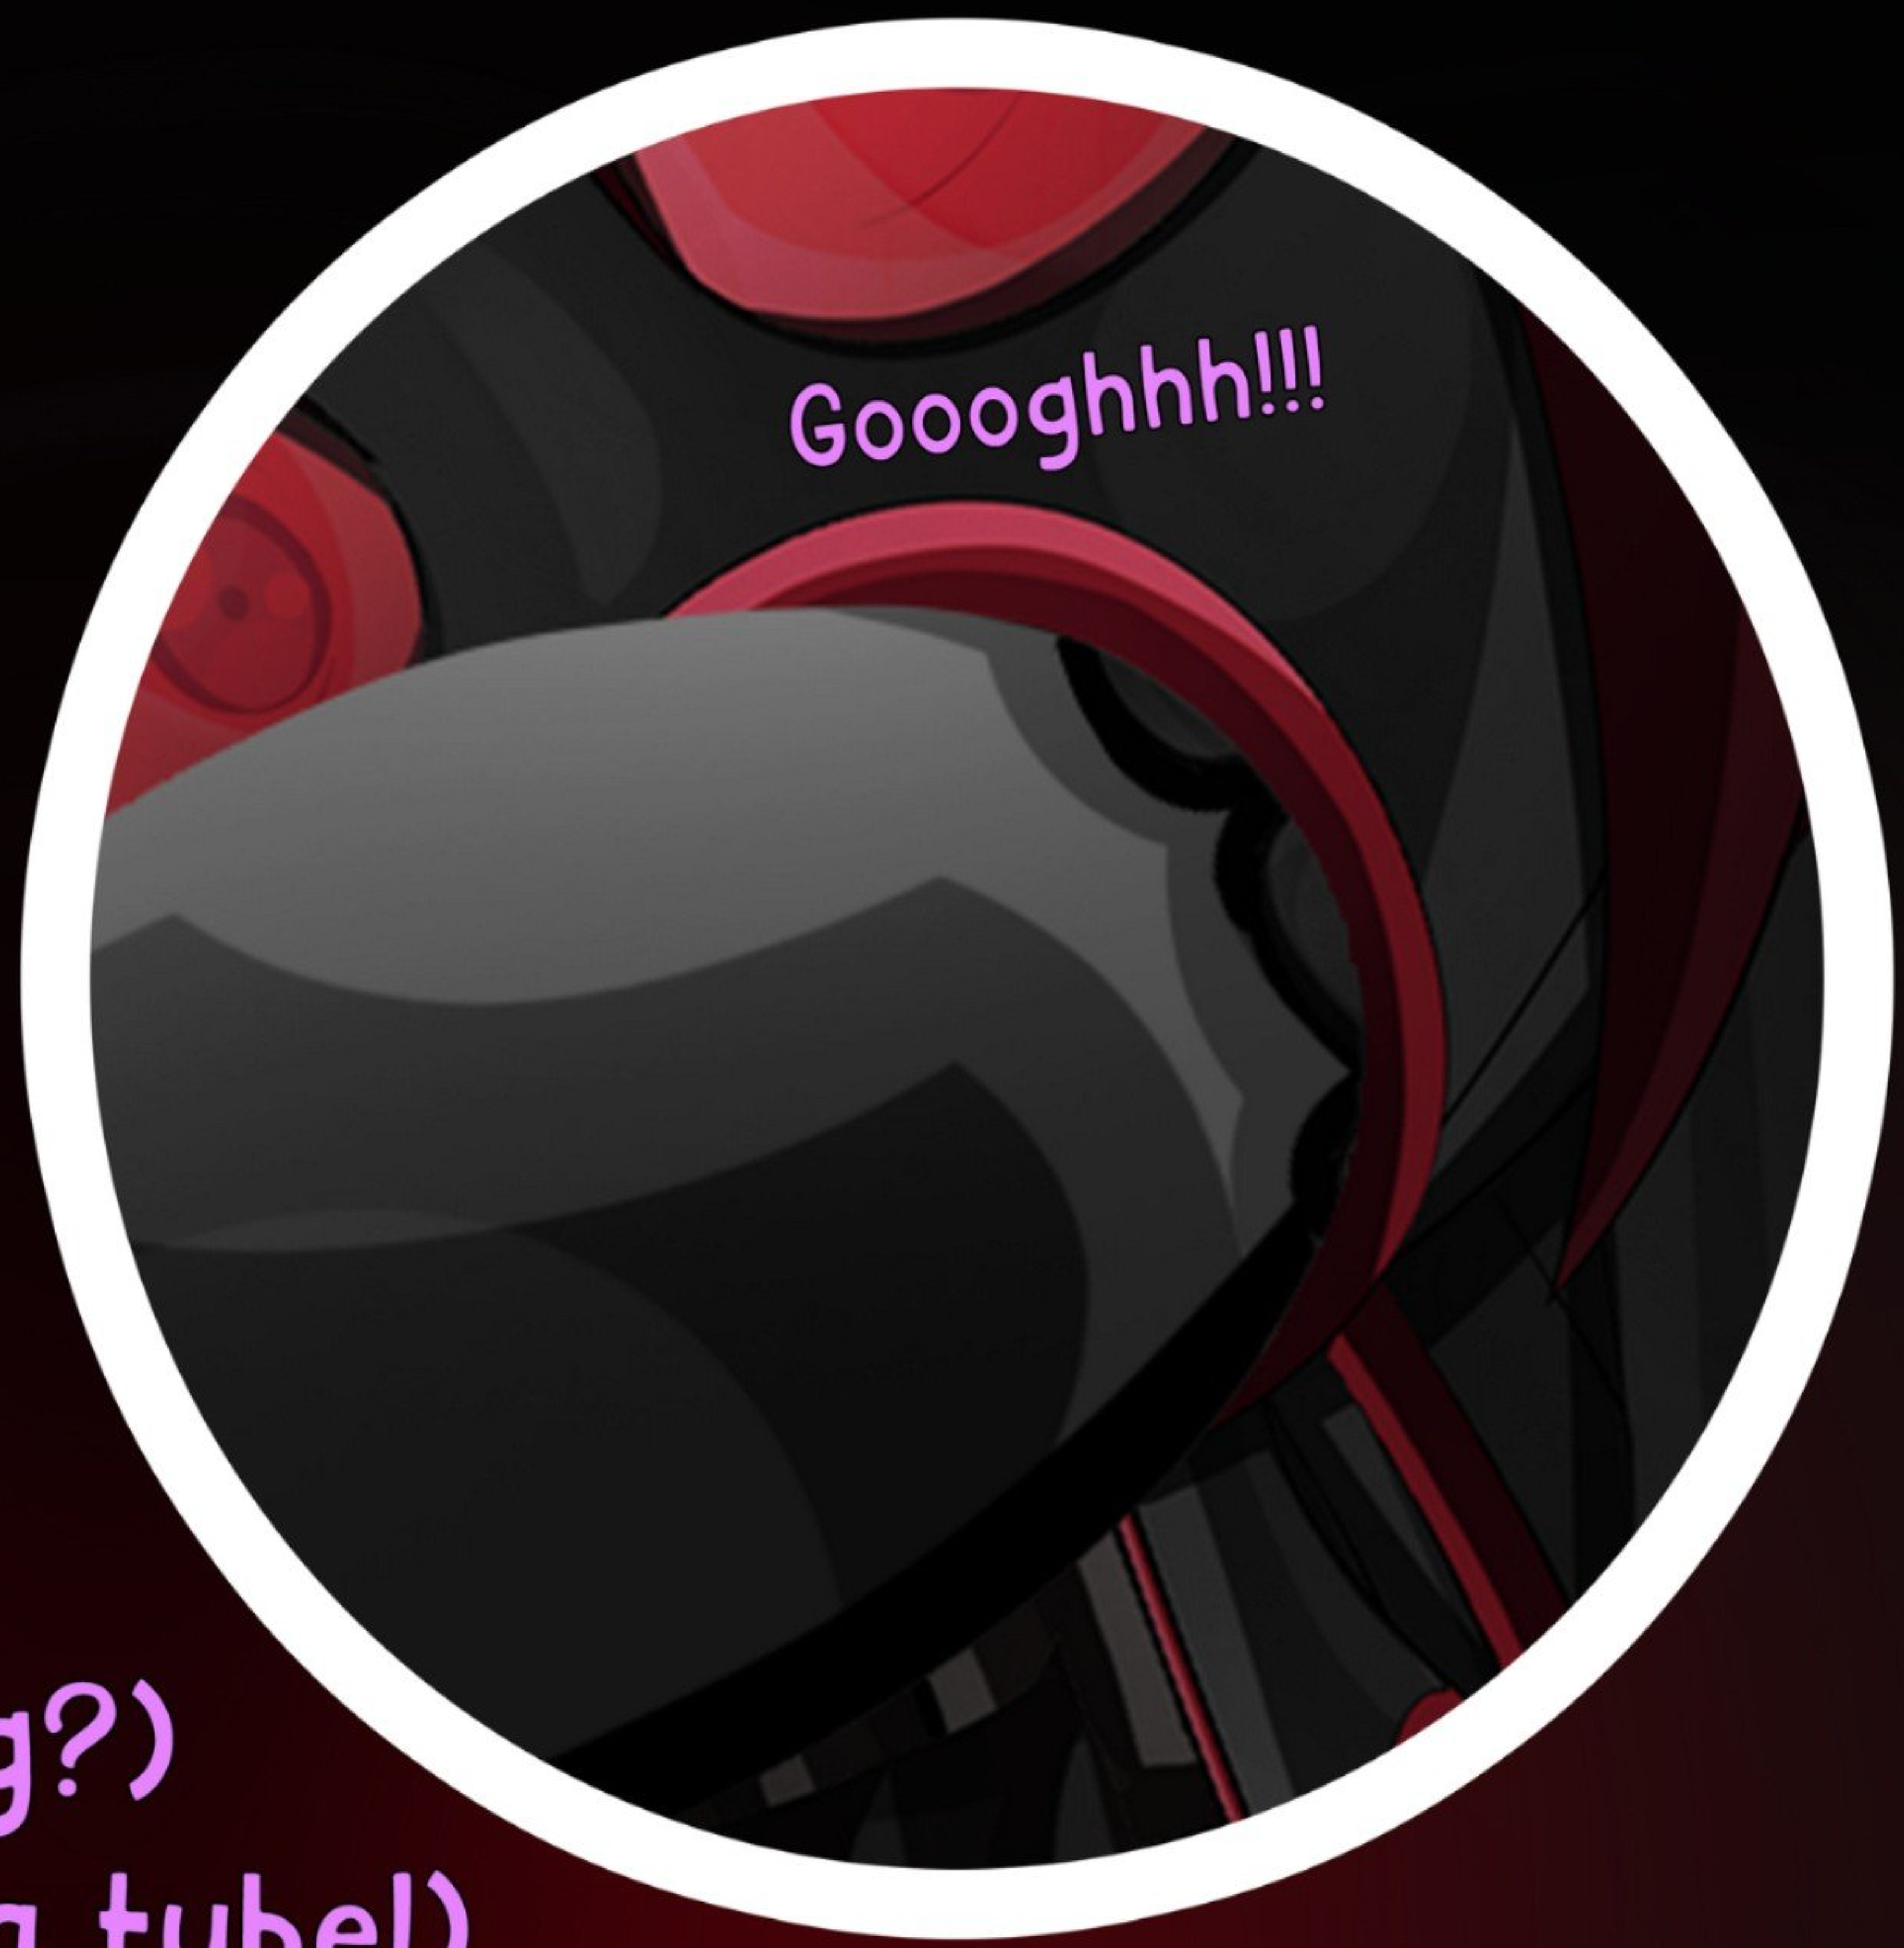

(A dark silhouette is coming!)

(I see... This is ... my final destination!)
(the end of my journey!)

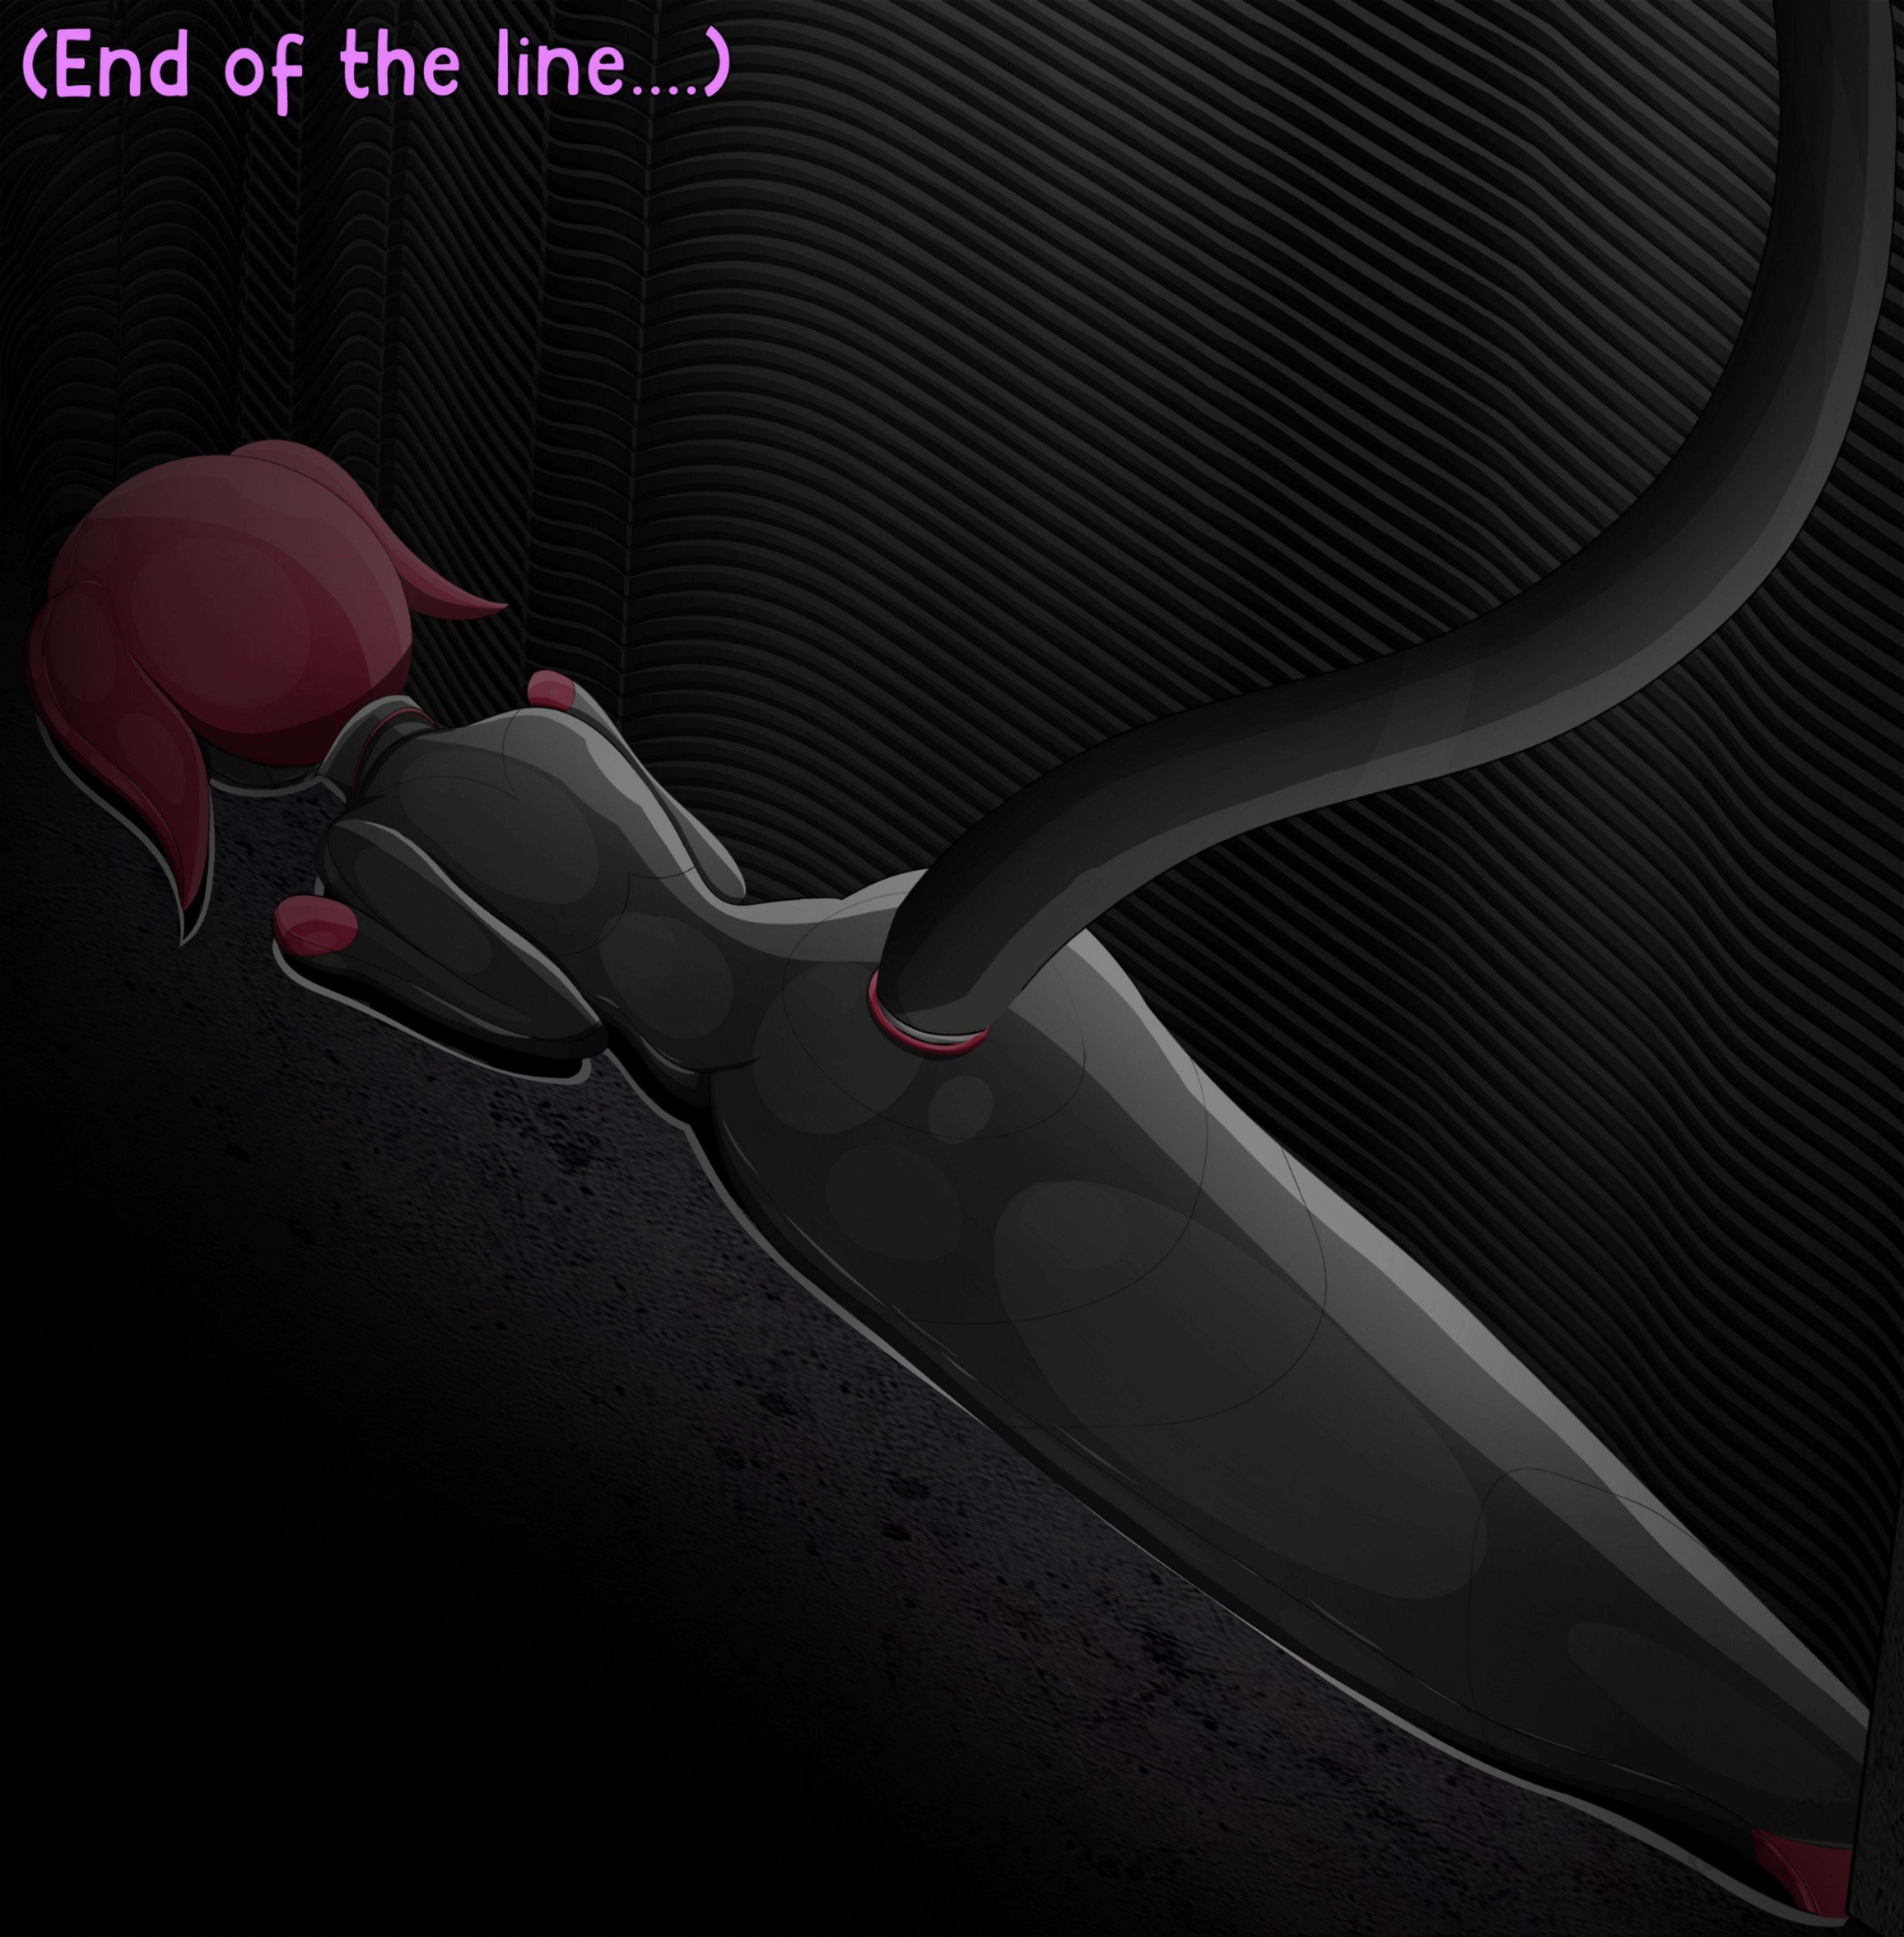

(Strange... What is object in the middle?)

(A gag?)
(no... a tube!)

(I see... So this how I'll be allowed to feed, drink
and... breathe.)

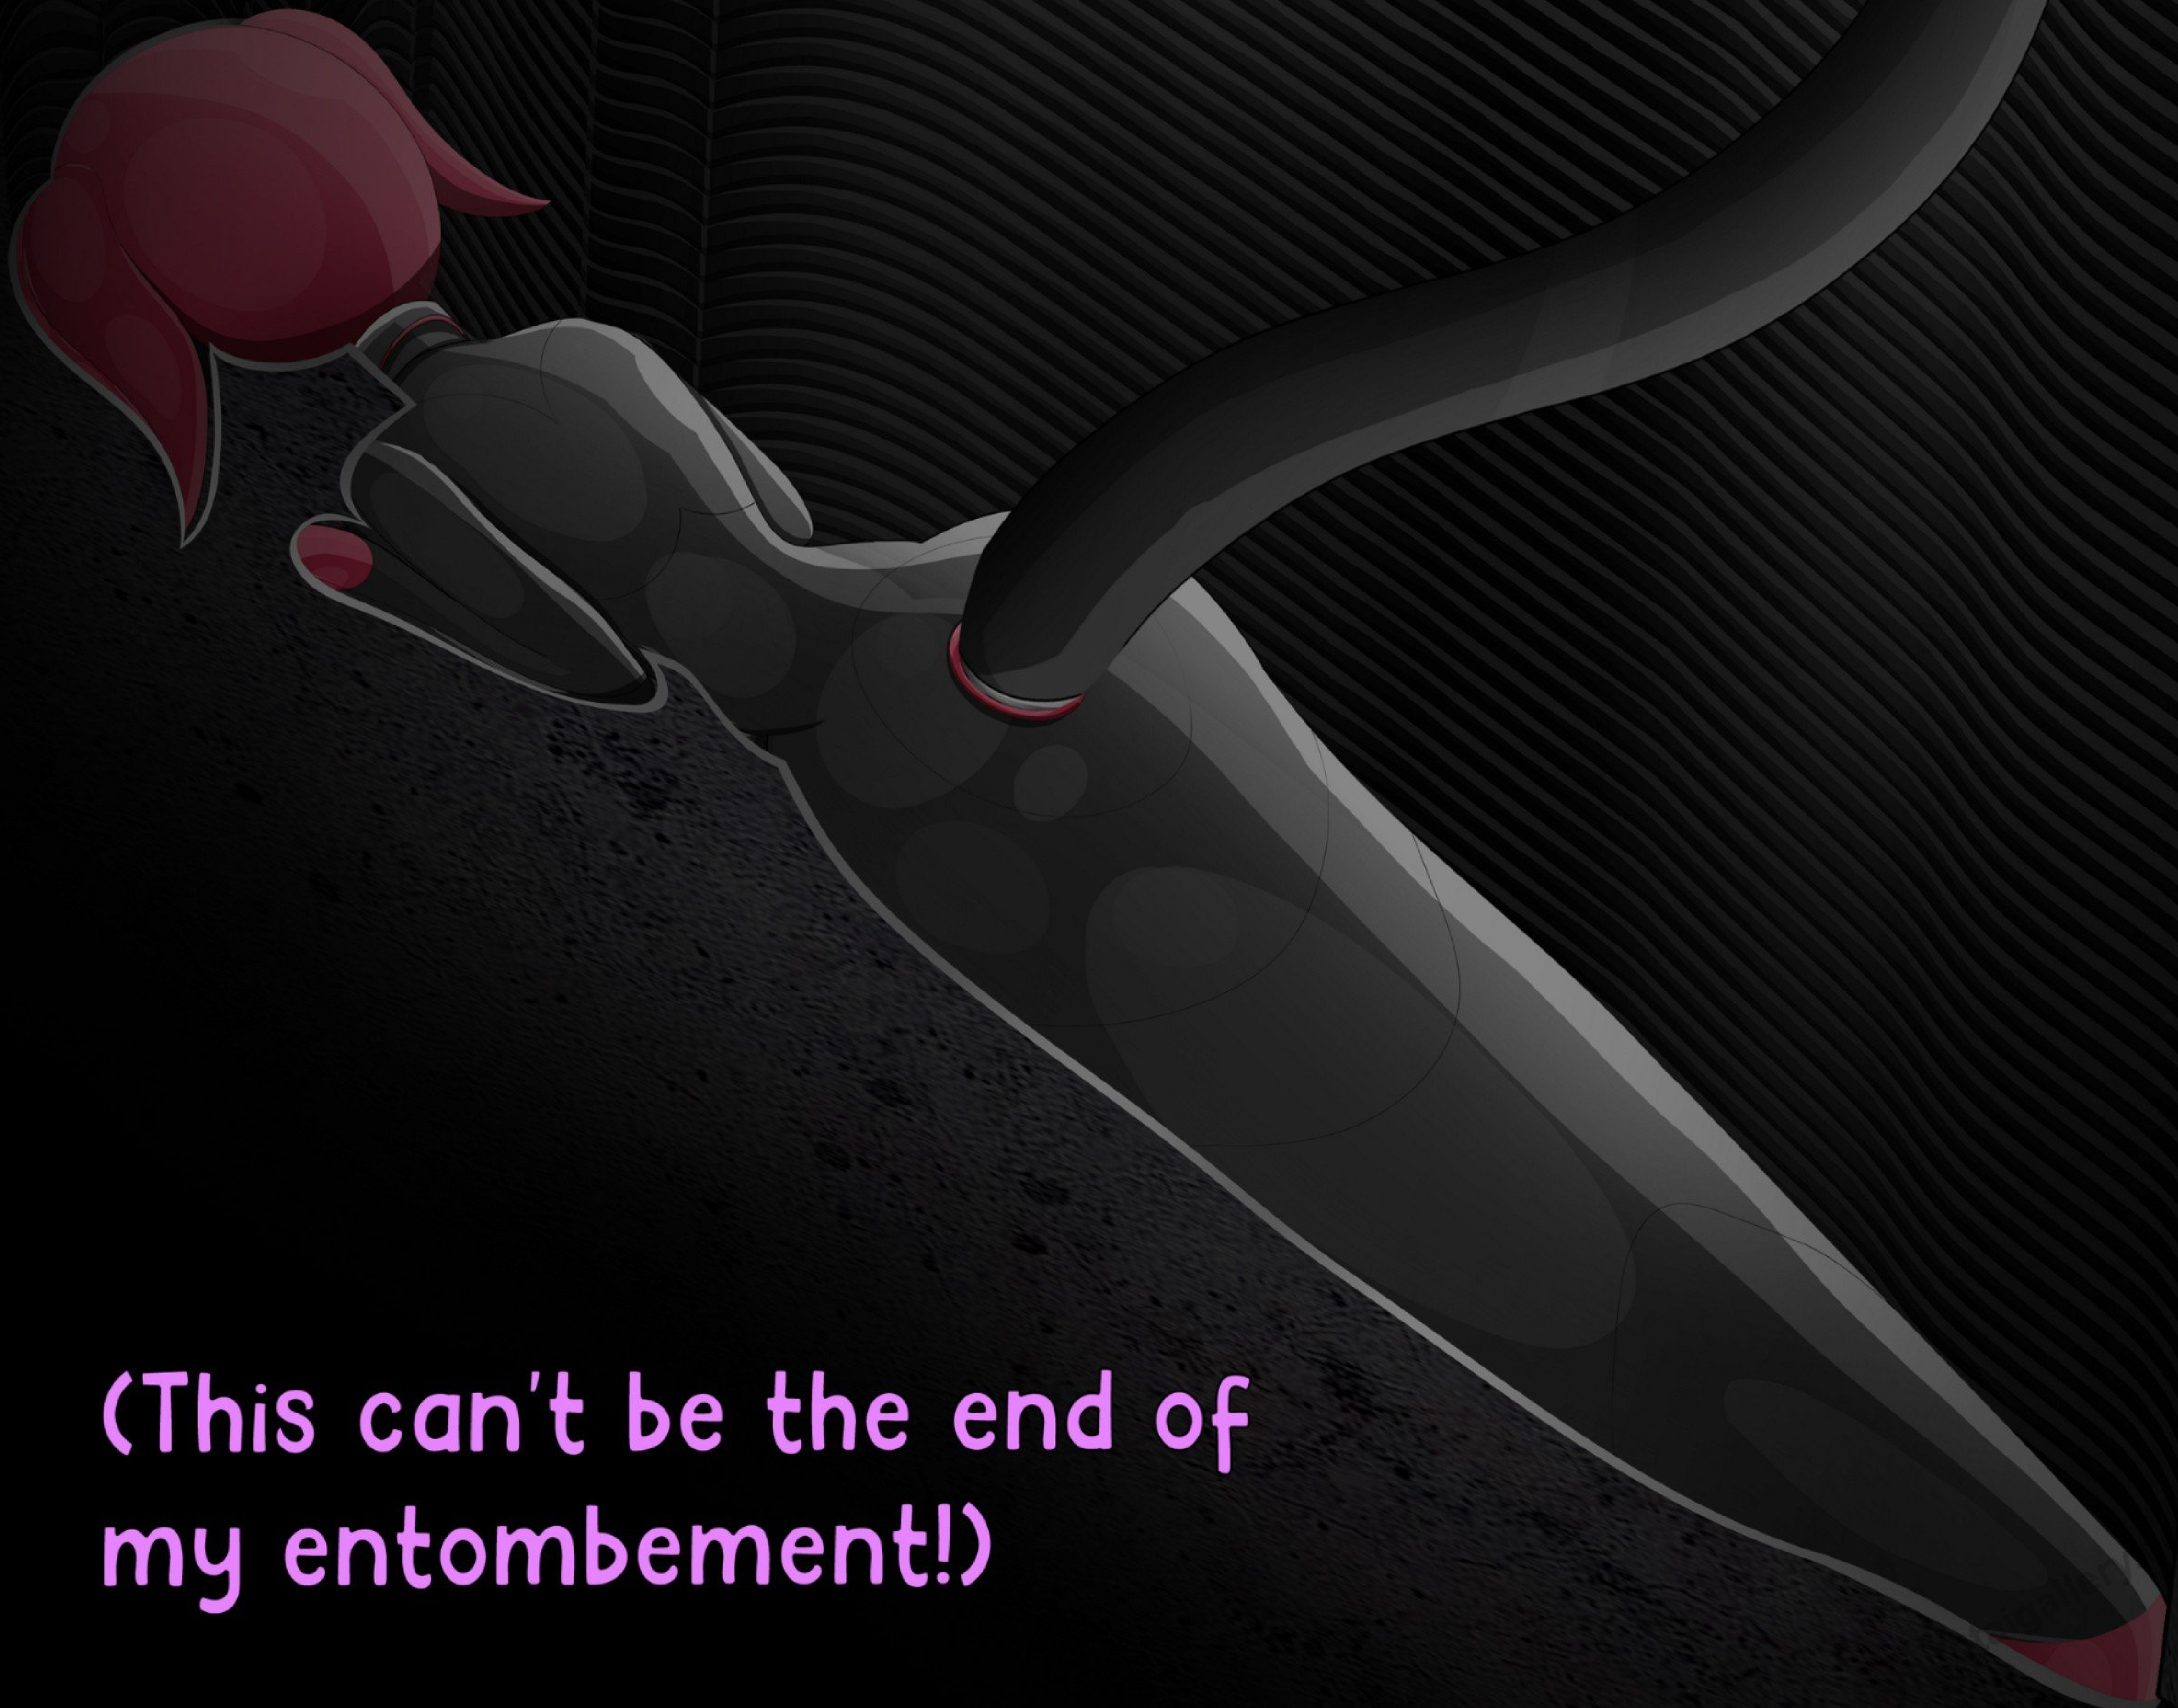

(End of the line....)

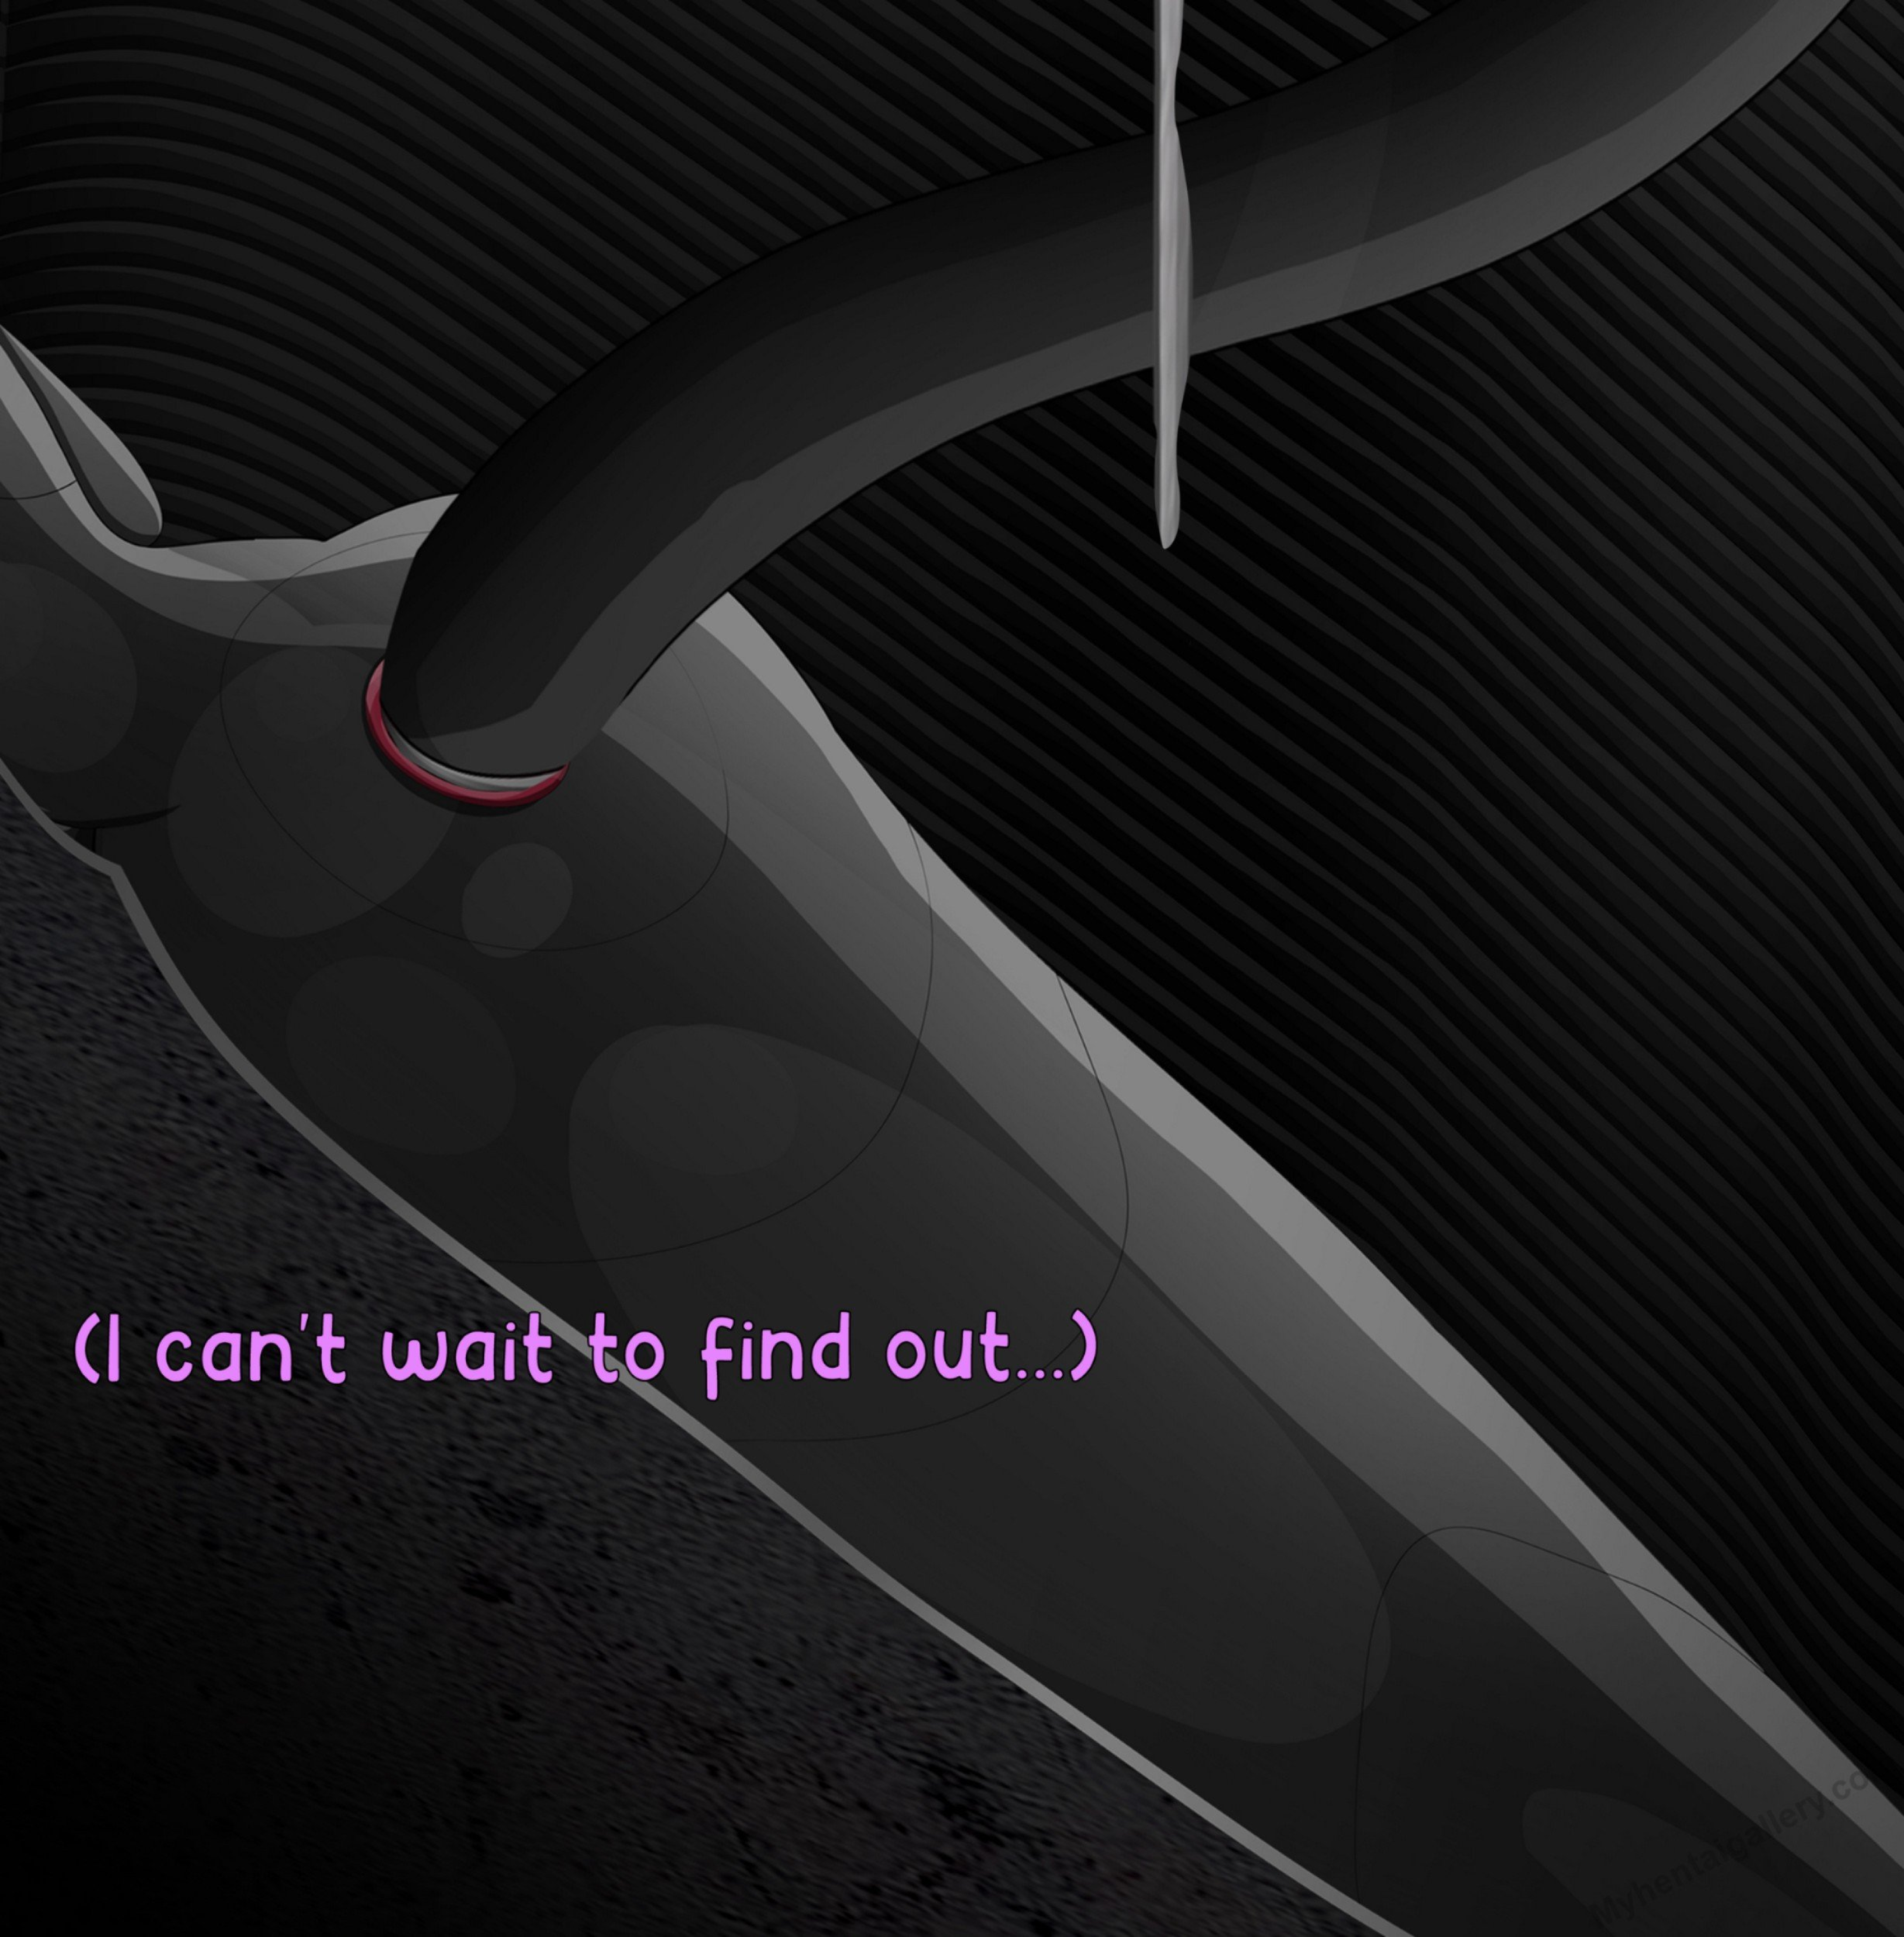

(... for me!) ♡

(Ah!!!! I'm so screwed!) ♡
(I know there is no way I can get away
now... and yet... I crave... **More!**) ♡

(This can't be the end of
my entombement!)

(I can't wait to find out...)

(... what comes next!) ❤️
